PART I - BUSINESS AND GENERAL INFORMATION

Item 1. Business

Premium Leisure Corp., formerly Sinophil Corporation (“PLC” or the “Company”) was incorporated as Sinophil Exploration Co., Inc. on November 26, 1993. PLC was organized with oil and gas exploration and development as its primary purpose. The Company and other companies (Contractors), were participants in several Geophysical Survey and Exploration Contracts and Non-Exclusive Geophysical Permits entered into with the Philippine Government, through the Department of Energy, covering certain petroleum contract areas in various locations. It also had passive equity investments in Dragon Oil Plc (Dragon Oil) and Sinoil Asia Limited (Sinoil). In 1996, with investor interest in oil exploration and mining companies remaining generally soft, the Company's management recommended conversion of PLC from an oil exploration company to an investment holding company. In line with the Company's decision to change its primary purpose, the Company assigned its interests in Dragon Oil and Sinoil to Belle Corporation (“Belle”) and/or its subsidiaries. To finance the Company's projects, acquisitions and investments in 1997, private placements of PLC's shares were made to several investors, both in the country and overseas.

On June 3, 1997, the Securities and Exchange Commission (SEC) approved the Company's application for a change in primary purposes from oil and gas exploration and development to being an investment holding company. As an investment holding firm, it shall engage in the acquisition (by purchase, exchange, assignment or otherwise), ownership and use for investment any and all properties and other assets of every kind and description.

On June 2, 2014, the Board of Directors of the Company approved a plan to take on the gaming business and interests of Belle Corporation (the “Investment Plan”). In line with this, the Company was authorized:

- a. To sell to Belle its non-gaming related assets consisting of the following:
 - Membership shares in Tagaytay Midlands Golf Club, Inc.
 - A lot with gross area of 4,348 square meters located within the Aseana Business Park at the Manila Bay Reclamation Area.
 - Several parcels of land in The Parks at Saratoga Hills within the Tagaytay Highlands Complex.
 - Undeveloped land located in the City of Tanauan, Province of Batangas.
- b. To acquire from Belle the following:
 - 100% ownership interest in PremiumLeisure and Amusement, Inc. (“PLAI”) for a consideration of ₱10,847.8 million; and
 - 34.5% ownership interest in POSC Systems Corporation (“POSC”) for a consideration of ₱1,525.0 million.
- c. To execute a Memorandum of Agreement (Second Amendment Agreement to the Settlement Agreement dated August 28, 2009) for the redemption of 1,000,000,000 preferred shares by Belle for a cash consideration of ₱1,000.0 million.

On July 24, 2014, the transfer of the above assets were completed.

On June 20, 2014, Belle and PLC entered into a Subscription Agreement for 24,700,000,000 common shares of PLC at a subscription price of ₱0.369 per share or a total subscription of ₱9,114,300,000 thereby increasing Belle's ownership interest in PLC to 90%. Subscription payments were received in July 2014.

On July 18, 2014, PLC's Board of Directors and stockholders unanimously approved the amendment to the Articles of Incorporation for the increase in authorized capital stock from ₱4,032,500,000 divided into 10,130,000,000 common shares with par value of ₱0.25 per share and 6,000,000,000 preferred shares with par value of ₱0.25 per share, to ₱10,907,500,000 divided into 37,630,000,000 common shares with par value of ₱0.25 per share and 6,000,000,000 preferred shares with par value of ₱0.25 per share. The application for the increase in authorized capital stock was approved by the SEC on September 5, 2014.

Material acquisitions of investments

The Company has invested in various companies as follows:

1. 100% Equity Investment in Premium Leisure and Amusement, Inc. (“PLAI”)

PLAI is a co-grantee, together with Belle Corporation and other SM consortium members (under CA/License Reg. No. 08-003), by the Philippine Amusement and Gaming Corporation (“PAGCOR”) of a Certificate of Affiliation and Provisional License (the “Provisional License”) to operate an integrated casino resort, complex in the approved site located in the vicinity of the Bagong Nayong Pilipino Manila Bay Entertainment City (“PAGCOR Entertainment City”), which site was originally referred to as “Belle Grande”. On April 29, 2015, PAGCOR granted the Regular Gaming License (“License”) to the consortium. This regular casino license has the same terms and conditions of the Provisional License, as applicable, and runs concurrent with PAGCOR’s Congressional Franchise, which expires in 2033, and renewable for another 25 years, by the Philippine Congress. PLAI was the special purpose entity authorized by PAGCOR to perform the casino operations for the consortium.

On October 25, 2012, Belle Corp., together with PLAI and SM Investments Corporation (Philippine Parties), formally entered into a Cooperation Agreement with Melco Resorts and Entertainment (Philippines) Corporation (“MRP Parties”), which took effect on March 13, 2013, the date on which the conditions to closing under the Closing Agreement were fulfilled, or waived. Under the Cooperation Agreement, the Philippine Parties agreed to include the MRP Parties as co-licensees for which PAGCOR issued an Amended Certificate of Affiliation and Provisional License dated January 2013. The Cooperation Agreement further specified the respective roles of the Philippine Parties and the MRP Parties in the casino resort project.

Under the Cooperation Agreement, the Philippine Parties, through Belle Corporation, would provide the land and building structures for the casino complex. The land and building structures are leased to the MRP Parties who will in turn provide the fit outs and operate the entire casino complex.

Likewise under the Cooperation Agreement, the new special purpose entity to perform the casino operations was agreed to be MRP. In consideration, MRP Parties agreed to pay the Philippine Parties, through PLAI, certain amounts based on gaming revenues as follows:

Fees payable to PLAI

PLAI is entitled to receive from MRP agreed-upon monthly payments consisting of the following:

- a) the higher of (i) one-half of the Project’s Mass Market gaming EBITDA (after deductions comprising 2% management allowance, Mass Market operating expenses and an agreed deductible of 7% of Mass Market Gaming EBITDA) (**PLAI MASS EBITDA**) or (ii) 15% of the Project’s net Mass Market gross gaming revenues (after deduction of amounts for PAGCOR non-VIP license fees) (**PLAI MASS Net Win**), whichever is higher; and
- b) the higher of (i) one-half of the Project’s VIP gaming EBITDA (after deductions comprising 2% management allowance, VIP operating expenses and an agreed deductible of 7% of VIP gaming EBITDA) (**PLAI VIP EBITDA**) or (ii) 2% of the Project’s net VIP gross gaming revenues (after deduction of amounts for PAGCOR VIP license fees, VIP commissions and incentives, as well as VIP bad debt expenses) (**PLAI VIP Net Win**), whichever is higher (the PLAI VIP Monthly Payment).

In addition, at the end of each fiscal period of 24 months, a calculation is made to determine the difference between (i) the higher of PLAI VIP EBITDA and 5.0% of the Project’s PLAI VIP NET WIN, and (ii) the cumulative PLAI VIP Monthly Payments made for the fiscal period. If (i) is higher, the difference is paid to PLAI as an additional payment for the following period. If (ii) is higher, the difference is deducted from the first VIP payment for the following fiscal period. Meanwhile, MRP will retain all revenues from the non-gaming operations of the Project.

City of Dreams Manila integrated resort opened to the public in December 2014, and had its grand opening on February 2015. The resort complex is located on a land area of around 6.2 hectares in the gateway of the Entertainment City. It is composed of hotel, retail and dining areas with an allotment of around 380 mass and VIP gaming tables, 2,260 slot machines and 1,130 electronic gaming tables. As

of December 31, 2018, City of Dreams Manila boasts of 302 gaming tables, 1,891 slot machines and 234 electronic gaming tables in operation. With approximately 22,507 square meters of gaming gross floor area and around 20,000 square meters of retail and restaurant facilities and various entertainment options, City of Dreams Manila is one of the main players in the Philippine gaming industry. Total gross floor area of the entire complex is at 310,565 square meters.

The City of Dreams Manila features top hotel brands with approximately 950 hotel rooms from 6 towers within its vicinity. Nuwa has approximately 260 luxurious rooms, while Hyatt, managed by Hyatt International Corporation, holds 365 rooms. Asia's first Nobu Hotel, meanwhile, owns 321 rooms.

City of Dreams Manila also showcases three entertainment areas, including DreamPlay by DreamWorks, a one-of-a-kind entertainment for the whole family, Centerplay, the central lounge in the casino that features live performances and its night club, Chaos.

Melco Resorts & Entertainment Limited ("Melco") is a developer, owner and operator of casino gaming and entertainment casino resort facilities in Asia.

In Manila, the City of Dreams Manila opened its doors to the public in December 2014 and marked the formal entry of Melco into the fast-growing and dynamic tourism industry in the Philippines. The integrated casino resort at Entertainment City, Manila Bay, Manila, is operated and managed by its Philippine subsidiary, MRP.

2. Controlling Interest in POSC Systems Corporation ("LOTO")

POSC Systems Corporation, with PSE ticker symbol LOTO was incorporated in 1993. A systems integrator of gaming solutions, it is primarily engaged in the development, design and management of online computer systems, terminals and software for the gaming industry, with the Philippine Charity Sweepstakes Office (PCSO) as its main customer. It has been consistently profitable since its fiscal year 2002.

On July 22, 2014, PLC executed several Deeds of Sales of Shares with Belle and certain of its subsidiaries for the acquisition of 101,668,953 POSC common shares at a subscription price of ₱15 per share equivalent to 34.5% ownership interest in POSC for a total consideration of ₱1,525,034,310.

On August 5, 2015, PLC acquired additional 47,851,315 shares of POSC Systems Corp. ("POSC"), thereby obtaining an overall ownership of 50.1% of POSC. The purchase resulted in combining PLC's and POSC's financial statements on a line-by-line basis. Based on management's judgment, PLC's investment gives PLC controlling interest over POSC as evidenced by more than 50% voting interest.

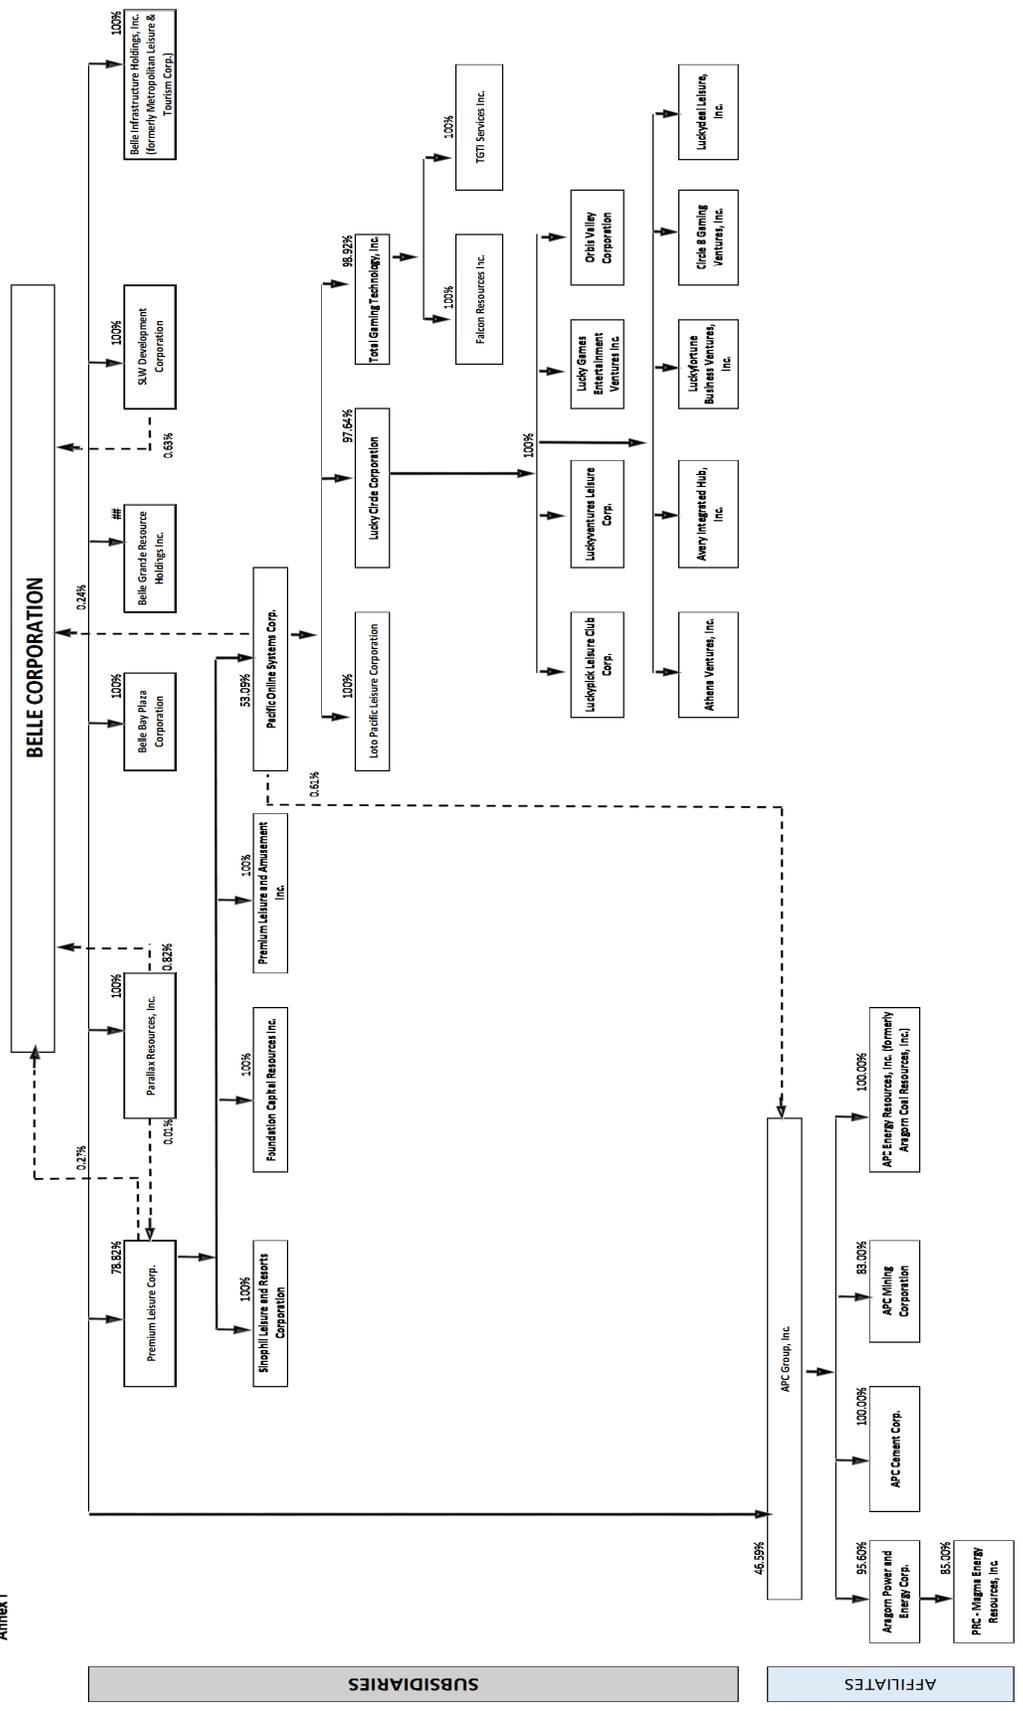

As of December 31, 2018, PLC has 53.09% ownership in POSC issued shares, with a total of 224,280,403 shares.

3. Acquisition of Falcon Resources, Inc.

On June 16, 2014, Total Gaming Technologies Inc., a subsidiary of POSC, and the shareholders of Falcon Resources Inc. (FRI) entered into a Memorandum of Understanding (MOU) for the former's intention to acquire the latter's interest in FRI representing 100% ownership. As at December 11, 2014, the Deed of Sale for the transfer of shares of stock has been executed. FRI is a company engaged in consultancy services for TGTI and a sub-distributor for POSC. FRI is a company incorporated in the Philippines.

4. Acquisition of Lucky Circle Corporation (LCC) Subsidiaries.

On July 1, 2017, LCC, a subsidiary of POSC, acquired 100% ownership interest in the following nine entities engaged in lotto/keno outlets and retail of scratchit tickets: Athena Ventures, Inc., Avery Integrated Hub, Inc., Circle 8 Gaming Ventures, Inc., Luckydeal Leisure, Inc., Luckyfortune Business Ventures, Inc., Luckypick Leisure Club Corp., Luckyventures Leisure Corp., Lucky Games Entertainment Ventures Inc. and Orbis Valley Corporation. The acquisition is assessed by the Company to be an acquisition of a business. Goodwill recognized amounted to ₱3.7 million in 2017.

SUBSIDIARIES

Commission, distribution and instant scratch tickets	487,626,385	10%	479,472,385	10%
Total	5,147,800,959	100%	4,929,346,015	100%

Products

PLC's investments in companies engaged in gaming and gaming-related activities are indicated below. In the Philippines, the gaming industry is relatively untapped by the private sector, creating opportunities for experienced leisure operators. PLC's gaming businesses are undertaken mainly by the following:

1. PremiumLeisure & Amusement Inc. ("PLAI") is a grantee by PAGCOR of Certificate of Affiliations and Provisional License to operate integrated resorts, including casinos, in the vicinity of PAGCOR Entertainment City. The License runs concurrent with PAGCOR's Congressional Franchise, which expires in 2033, renewable for another 25 years, by the Philippine Congress.
2. POSC Systems Corporation ("POSC"), leases on-line betting equipment to the PCSO for their lottery operations in the Visayas and Mindanao regions for lotto and nationwide for KENO. PLC owns a controlling interest of 53.09% of issued shares of POSC, which is a publicly-listed company.

Customers and Market Profile

POSC, a subsidiary in which PLC has a 53.09% stake based on issued shares, has Philippine Charity Sweepstakes Office (PCSO) as its major customer, with which it has Equipment Lease Agreements (ELA). It brokers technology from leading global suppliers of integrated gaming systems and leases to PCSO the needed equipment for online lottery operations in the Visayas-Mindanao (VisMin) regions.

Approximately 70% of PCSO lotto sales nationwide was generated by Luzon operations, and about 30% of sales is contributed by the VisMin regions for the year ended 2018. This may be due to Luzon's higher population density, and higher average disposable income of residents. On the other hand, the VISMIN area faces some challenges due to its geography, more frequent power failures and intermittent telecommunications connectivity.

As of the end of 2018, the Company's total terminal deployment in VisMin territory covered 68 cities out of 122 total cities and 575 municipalities out of total 648. In Luzon, the Company's lotto terminal deployment, covered 54 cities and 73 municipalities. The Company covers 100% of the VISMIN sales and only 5% in Luzon due to its restricted entry since 2012.

Other than what is mentioned above, the Company's business is not dependent upon a single customer or a few customers, and the loss of any or more of which would not have a material adverse effect on the registrant and its subsidiaries taken as a whole.

Competition

Gaming business: City of Dreams Manila is competing against casinos operated by PAGCOR and the other licensees that are already operating – Resorts World Manila of Travellers International Hotel Group, Inc. ("Travellers"), Solaire Resort and Casino of Bloomberry Resorts Corporation, and Okada Manila, which commenced casino operations on December 30, 2016. Travellers has also broken ground on its planned Resorts World Bayshore project in PAGCOR City, with the opening thereof reportedly estimated to be in 2019.

Lottery equipment leasing, distribution and retail business: POSC, PLC's subsidiary, expects that the aggressive push for small town lottery (STL) and the prevalence of illegal gambling particularly in interior towns and remote areas will provide competition to its online lotto revenues. However, management believes that POSC has limited competition with its online KENO games that appeal to a different market segment.

Employees

The Company is a holding company whose business is not manpower intensive; hence, its transactions are extremely manageable through temporary secondment of personnel from its affiliates on an as-needed basis. This arrangement is also resorted to in keeping with austerity measures adopted due to present economic conditions. These personnel seconded to the Company are not subject to Collective Bargaining Agreements.

Risks

Economic and Political Conditions

The Company's business is mainly the acquisition of investments in gaming, which are generally influenced by Philippine political and economic conditions. Events and conditions that may have a negative impact on the Philippine economy as a whole may also adversely affect the Company's ability to acquire various investments.

POSC experienced some opposition from the Local Government Unit (LGU) officials in certain VISMIN areas during its introductory phase. Future opposition from government officials in certain areas is difficult to predict. Any opposition may hinder or slowdown the opening of other untapped areas in VISMIN for lotto and keno outlets. Any incidence of, or a perception of political resistance may adversely affect POSC's business and financial growth.

In order to mitigate the risk above, management keeps abreast of any potential condition that may adversely affect its operations, and, with the leadership of the Company's board of directors, considers available options and applicable steps to take to minimize risks.

Changes to the Philippine Laws and Regulations

Although laws and regulations are enacted for the common benefit, changes to these laws and regulations may create negative effects to the operating and financial condition of PLC, including its subsidiaries and affiliates.

In order to mitigate the risks mentioned above, the Company continues to exercise fiscal prudence and adopts what it considers conservative financial and operational controls.

Competition Risk

As the Entertainment City grows and accommodates more players, the increase in competition also poses a risk to the Company especially as it obtains gaming share revenue, through PLAI, from City of Dreams Manila, whose operations may be affected by the increase of players in the market. Aside from the Entertainment City, new developments are also expected in other parts of Metro Manila as well as in other cities like Cebu.

In spite of the increase in competition, the increase in number of players in the gaming industry is expected to improve the Philippines' ability to attract more foreign players to the Entertainment City, making the gaming industry in the country more robust. The Company monitors the Company's performance and the performance of its competitors. The Company also endeavors to always be up-to-date on market trends.

Risks relating to the Equipment Lease Agreement (ELA) of POSC with PCSO

The Company's ELA with PCSO shall end by July 31, 2019. However, as of January 2019, PCSO has not yet issued its Terms of Reference for the bidding of its nationwide online lottery system (NOLS). PCSO's bidding process for its NOLS in 2017 was aborted via a temporary restraining order (TRO) from Philippine Gaming Management Corporation (PGMC) in July 2017. This means that the Company will have to continue to operate under the current ELA terms beyond July 2019 for at least another year, when PCSO is able to hold its bidding, award the new ELA contract and undertake a lottery system transition to the new service provider. Should the PCSO bidding for NOLS be held in 2019, the Company is well positioned to be a front runner in said bidding.

While the POSC relied on lotto revenues in the past, its other business units are able to contribute about 59% of its consolidated total gross revenues in 2018. These other revenue streams from online keno and retail distribution are still projected to grow in the coming years.

Risk relating to the Company and its subsidiaries

a. Dependence on Suppliers

POSC's lottery operations is anchored on a two-system network. The Company has existing contracts, each distinct and entered into separately, with two global leaders in the lottery industry, namely, Scientific Games and Intralot, for the supply of computer supported lottery gaming systems. In the event that the contracts, whether collectively or individually, are terminated or suspended, operations and business of the Company may be impaired.

b. Business Interruption Risk

The operations of POSC and its subsidiaries are dependent on the reliability of its central computer system and the communications infrastructure needed to run it. Any breakdown or failure in the system provided by its suppliers, failure in the communication infrastructure may negatively affect the Company's financial performance. However, this risk of business interruption is unlikely to happen due to the redundancy offered by the two suppliers. The communications infrastructure is being provided mainly by the two biggest telco providers in the country, namely: PLDT/Smart and Globe. The Company also contracted VSAT to provide connectivity to sites where Smart and Globe are not available.

Data Privacy

PLC may be at risk for breach of data privacy as detailed information is gathered from customers and prospective buyers, suppliers, contractors and other business partners. This risk is mitigated through company-wide orientation on the Data Privacy Act, the topics of which include legal bases and implementing rules and regulations, rights of the individuals owning the information, exercising breach reporting procedures and other advisories.

Information Technology

With the current business environment, Information Technology risks are ever increasing. These cover unauthorized access to confidential data, loss or release of critical information, corruption of data, regulatory violations, and possible increase in costs and inefficiencies.

In order to address these risks, PLC, through Belle Corporation and SM Investments Corp., has a co-location arrangement with redundant capability and automatic fail-over set-up for disaster recovery. It also continues to implement enterprise security solutions to manage external and internal threats. Annual review of technology roadmap to ensure the alignment between the business and information technology is performed.

Enterprise Risk Management Committee

The Company has an Enterprise Risk Management Committee (ERMC) which is an oversight committee created to act as the monitoring body for the individual risk management activities of the Corporation. The ERMC has the responsibility of developing a formal framework to assist the Company in managing its risks and is mandated to report regularly to the Board Risk Oversight Committee on any risk concerns.

Sources and availability of raw materials and the names of principal suppliers

Not Applicable.

Transactions with and/or Dependence on Related Parties

Please refer to Item 12 of this report ("Certain Relationships and Related Transactions").

Principal terms and expiration dates of all patents, trademarks, copyrights, licenses, franchises, concessions, and royalty agreements held

PAGCOR license

PLC, through its subsidiary, PLAI, holds a License granted to it by PAGCOR to operate integrated resorts, including casinos, within PAGCOR Entertainment City. The license is concurrent with the PAGCOR congressional franchise and is set to expire in 2033, renewable for another twenty-five (25) years by the Philippine Congress.

Equipment lease agreement (ELA)

POSC has an ELA with PCSO for the lease of not less than 800 lotto terminals, which includes central computer, communications equipment and the right to use the application software and manuals for the central computer system and draw equipment of PCSO for its Visayas-Mindanao (VISMIND) operations for a period of eight years from April 1, 2005 to March 31, 2013.

PCSO is the principal government agency for raising and providing funds for health programs, medical assistance and services, and charities of national character through holding and conducting charity sweepstakes, races, and lotteries.

2012 Amended ELA. On May 22, 2012, the POSC and PCSO amended some provisions of the ELA which reduced the rental fee for the VISMIND operations and included the lease of lotto terminals and supply of betting slips and ticket paper rolls in some of PCSO's Luzon operations for additional lease fee effective June 1, 2012 until March 31, 2013, which is concurrent with the ELA expiry. The amendment also incorporated the fee for maintenance and repair services as part of the rental fee and provided PCSO an option to purchase the equipment related to its VISMIND operations at the end of the lease period for Php15.0 million.

2013 Amended ELA. On March 26, 2013, the POSC and PCSO further amended some provisions of the ELA which extended it from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment related to its VISMIND operations, POSC agreed to reduce the rental fee on the lotto terminals for the VISMIND operations and shoulder the cost of betting slips and ticket paper rolls for the PCSO's Luzon and VISMIND operations. The amendment also incorporated the fee for the supply of betting slips and ticket paper rolls for the PCSO's Luzon operations as part of the rental fee.

2015 Amended ELA. In 2015, the POSC and PCSO further amended some provisions of the ELA which extended it from August 1, 2015 to July 31, 2018 (see Note 27). The amendment also required POSC to deposit an additional Php5.0 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals. The additional cash bond is included under "Other noncurrent assets" in the consolidated statements of financial position.

2018 Amended ELA. On September 12, 2018, the ELA was further amended to extend the term from July 31, 2018 to August 1, 2019 at a reduced rate. The amendment also required the Company to increase its initial cash bond from Php5.0 million to Php12.0 million, to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on a percentage of gross sales of lotto tickets from PCSO's VISMIND and Luzon operations or a fixed annual rental of Php35,000 per terminal in commercial operation, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application software and manuals for the central computer system and terminals and draw equipment, as well as the supply of betting slips and ticket paper rolls, and maintenance and repair services. The number of installed lotto terminals totaled 4,029 and 4,205 as at December 31, 2018 and 2017, respectively.

Instant Scratch Tickets.

On March 25, 2009, POSC entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of scratch tickets effective December 1, 2009. The share of PCSO is guaranteed for every 500 million tickets sold for a period of seven years from the date of the MOA's effectivity. The MOA requires a cash bond to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, subject to review by PCSO, which was paid in January 2010, for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. The ₱10.0 million cash bond is recognized under "Other noncurrent assets" account in the consolidated statements of financial position.

On March 31, 2015, POSC entered into an OMOA with Powerball Marketing & Logistics Corp (PMLC), formerly Powerball Gaming and Entertainment Corporation, for the authorization of PMLC as the exclusive marketing, distribution, selling and collecting agent of POSC throughout the Philippines. The agreement took effect on April 1, 2015 and shall remain effective as long as the MOA with PCSO or any extension thereof shall be effective.

PMLC agreed to assume POSC's commitment to PCSO to solely shoulder the project cost for the Instant Scratch Ticket program, which consists of the costs of production, distribution, warehousing, printing, handling, software and hardware maintenance, advertising, marketing, selling and other related expenses necessary to totally dispose of all instant tickets. PMLC is entitled to all the revenues, sums and proceeds from the Instant Scratch Tickets beginning April 1, 2015, and shall be obligated to shoulder the pay-outs for all winnings from said tickets sold beginning April 1, 2015. In consideration for the OMOA, PMLC agreed to pay POSC a guaranteed fixed monthly fee of ₱4.0 million starting April 2015. This fee is included as part of "Commission and distribution income" under "Revenues" in the consolidated statements of income.

POSC shall continue to pay the share of PCSO and the cash bond pursuant to the MOA, however, PMLC agreed to guarantee payment of the share of PCSO to POSC beginning April 2015. An existing consultancy agreement between POSC and PMLC for the scratch ticket operations was immediately terminated upon execution of the OMOA.

The MOA with POSC expired on November 30, 2016 and the OMOA with PMLC also expired accordingly. All tickets distributed to the retailers and agents, shall be allowed to be marketed continuously until fully sold and the corresponding winnings thereof shall be honored and paid even after the period of the MOA with PCSO.

In 2018, POSC received a certification from the PCSO stating the fulfillment of POSC's obligation under the MOA and thereby clearing POSC of any accountability thereunder. PCSO certified that POSC is entitled to the release of the ₱10.0 million cash bond. The cash bond is expected to be collected in the next financial period.

Brand and Trademark Agreement with PMLC

In January 2018, POSC entered into a Brand and Trademark License Agreement (BTLA) with PMLC, granting the latter a non-assignable, non-transferrable and exclusive right to use POSC's instant scratch tickets' brand and trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with the term of PMLC's agreement with PCSO for the supply and distribution of instant scratch tickets. In consideration of the BTLA, PMLC agreed to pay POSC a guaranteed fixed monthly fee of ₱4.0 million starting January 2018. The agreement with PMLC was accounted for as a right to use the brand and trademark. POSC already transferred control over the brand and trademark to PMLC on January 1, 2019, and there are no other performance obligation to be provided to PMLC. Thus, POSC recognized revenue on the use of the brand and trademark amounting to ₱203.5 million. Interest income earned in 2018 amounted to ₱12.5 million.

Contract asset was recognized for the earned but not yet collected consideration. Current portion of contract asset as at December 31, 2018 amounted to ₱37.9 million while noncurrent portion amounted to ₱130.1 million.

TGTI Equipment Rental

TGTI has an ELA with PCSO which provides for the lease of the equipment for PCSO's "Online KENO" games. The lease is for a period of ten (10) years commencing on October 1, 2010, the date of actual operation of at least 150 "Online KENO" outlets. The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on a percentage of the gross sales of the "Online KENO" terminals or a fixed annual rental of ₱40,000 per terminal in commercial operation, whichever is higher. The ELA may be extended and/or renewed upon the mutual consent of the parties.

On July 15, 2008, TGTI and PCSO agreed on some amendments to the ELA. Under the terms of the Amended ELA, TGTI shall provide the services of telecommunications integrator and procure supplies for the "Online KENO" operations of PCSO in Luzon and VISMIN areas. In consideration for such services, PCSO shall pay additional fee based on a certain percentage of the gross sales from all "Online KENO" terminals in operation in Luzon and VISMIN areas computed by PCSO and payable bi-weekly. As at December 31, 2018 and 2017, there are 2,454 and 2,400 "Online KENO" terminals in operation, respectively.

Effect of existing or probable governmental regulations on the business.

The Company is compliant with all government requirements necessary for its operations.

PLC's gaming business are subject to certain laws and regulations. As discussed above, PLAI holds a License granted to it by PAGCOR for the operation of integrated resorts while POSC holds an ELA with the PCSO for the operation of on-line lottery system in the Visayas-Mindanao regions.

Future government regulations are perceived to have no material impact to the normal operations of the Company.

Item 2. Properties

The Company has real estate property recorded as investment property. This pertains to an undeveloped land in the City of Tanauan, Province of Batangas, amounting to ₱285.5 million. These properties are not subject to mortgage, lien and encumbrances.

POSC's online lottery operations are conducted mainly in Cebu, where its central system data center and logistics center are located. It also has set up 7 logistics hubs in 7 major VisMin cities to ensure efficient service delivery to the PCSO lottery agents. The Company Head Office is located in Pasig City.

POSC has no real properties owned and there are no plans to acquire them in the next twelve (12) months. POSC leases all of its data center, logistics centers and hubs, and business offices. These properties are not mortgaged nor are there any liens and encumbrances that limit ownership or usage of the same.

The leased properties for business offices, data center, logistics facilities, and retail outlets reached about 8,008 sqm by year end 2018. About 67% of these properties are located in Luzon, and 33% in VisMin. Majority of the properties in Luzon are found in Metro Manila while those in VisMin are in Cebu. The logistics centers' area are about 3,391 sqm in total, with 1,433 sqm in Cebu and 1,958 sqm in Metro Manila. Lease terms for most office and warehouse spaces range from two (2) to five (5) years. Majority of leased spaces pertaining to retail outlets have one (1) one year term only as dictated by mall leasing policies. All lease agreements have provisions for renewal subject to terms and conditions mutually agreed upon by all parties concerned. The lease agreements provide for minimum rental commitment with annual rental escalation rates ranging from 3% to 10%.

POSC's major assets are lottery equipment which consists mainly of lottery terminals, data center equipment, software and operating systems.

Item 3. Legal Proceedings

1. "TMA Group of Companies, et al. vs. Philippine Charity Sweepstakes Office (PCSO), et al."
RTC 66, Makati City- Civil Case No. 11-310/569 [321-106]

This is a complaint for specific performance and damages filed by TMA Australia Pty. Ltd. and its local subsidiary, TMA Group Philippines, Inc. (TMAP), against PCSO as regards their contract for the supply of lotto paper. The complainants subsequently amended their complaint to include POSC Systems Corporation (POSC) and Philippine Gaming Management Corporation (PGMC) as defendants. They prayed for a temporary restraining order and/or writ of preliminary injunction to enjoin all defendants from doing anything in violation or derogation of the contractual terms of the Joint Venture Agreement (JVA) dated December 4, 2009 for the supply of lotto paper. No damages were prayed for against POSC.

On June 22, 2017, a Notice of Dismissal dated June 15, 2017 was received from TMAP praying for the dismissal of the Supplemental Complaint against POSC pursuant to Section 1 of Rule 17. No objection was interposed to and/or comment on the Notice of Dismissal. Thus, in an Order dated June 28, 2017, the court dismissed the case against POSC.

2. "TMA Australia Pty. Ltd. And TMA Group Philippines, Inc. v. POSC."
RTC 66, Pasig City-Civil Case No. R-PSG-17-02130 [321-108]

This refers to a case for Tortious Interference and payment of Damages filed by TMA Australia Pty. Ltd. and TMAP against POSC in August 2017. They alleged that POSC wrongfully interfered with the implementation of the Contractual Joint Venture Agreement (CJVA) between the TMA Group and PCSO when it entered into several lease agreements with the latter that included a supply of paper provision. They also applied for a writ of preliminary injunction (WPI) against POSC and prayed for damages in the amount of at least One Million Pesos (P1,000,000.00). On August 30, 2017, an Opposition against the issuance of an injunction on the ground that TMAP failed to establish its clear and unmistakable right under the CJVA.

On September 6, 2017, the presentation of evidence regarding the injunction was concluded. But to date, no order was yet received from the court denying or granting the TMAP's application for injunctive writ. On September 13, 2017, a Motion to Dismiss the principal case of Tortious Interference was filed by POSC on grounds of lack of subject matter jurisdiction, failure to state a cause of action, forum shopping and failure to implead an indispensable party. As of December 31, 2018, no order was yet received from the court denying or granting POSC's Motion to Dismiss.

3. "Philippine Charity Sweepstakes Office, et al. v. Hon. Rommel C. Baybay et al."
CA GR SP No. 128259 [321-105].

This case arose when Judge Rommel Baybay of RTC-Makati, Br. 143, in Civil Case 12-530, granted PGMC's application for injunction enjoining POSC from leasing its equipment for PCSO's online lottery operations in Luzon. On September 5, 2012, a Writ of Preliminary Injunction (Injunction) was issued by Branch 143 of the Regional Trial Court (RTC) of Makati. The Injunction orders PCSO to refrain from 1) implementing, enforcing or exercising any right arising from the 2012 ELA between the POSC and PCSO, 2) ordering or allowing the POSC, or any third party, to install or operate any equipment, computer or terminal relating to online lottery operations in Luzon, and 3) committing any act that in any way violates or otherwise interferes with the ELA between PGMC and PCSO. POSC filed a case with the Supreme Court to nullify the Injunction. PCSO also filed a case with the Court of Appeals likewise questioning the Injunction. On July 17, 2013, the Supreme Court decided that the case brought by POSC be consolidated with the case between PGMC and PCSO in the Court of Appeals, thus making the POSC a party to the case before the Court of Appeals.

Meanwhile, PGMC and PCSO entered into an Interim Settlement whereby they agreed, among others, to maintain the status quo insofar as the terminals already installed in Luzon by POSC are concerned. In the same Interim Settlement, PGMC and PCSO also agreed to submit to arbitration before the International Court of Arbitration (ICA) the issue of the alleged exclusivity conferred by the ELA to PGMC for online lotto operations in Luzon. POSC tried to join the arbitration but its Request for Arbitration dated May 12, 2014 was denied by the ICA on July 17, 2014, due to PCSO's opposition. An Urgent Motion to resolve was filed by POSC with the Court of Appeals to compel the court to issue an order to PGMC and PCSO to include POSC in the negotiations. This matter was not resolved by the Court of Appeals.

On January 29, 2016, PCSO filed a Manifestation with Motion to Dismiss dated January 12, 2016 with RTC of Makati, stating that the presiding Judge approved PGMC and PCSO's "Interim Settlement" dated December 11, 2013 wherein it was agreed that the case will be archived pending arbitration. PCSO also averred that, on December 13, 2015, PGMC and PCSO executed a "Supplemental and Status Quo Agreement" wherein the parties agreed to dismiss all pending judicial and civil actions between them but shall continue with the arbitration proceedings. Thus, pursuant to said agreement, PCSO withdrew its Petition for Certiorari in the Court of Appeals, which was granted by virtue of the Resolution dated March 1, 2016. PCSO also prayed for the dismissal of the RTC case, but this was denied by the RTC Makati after PGMC opposed PCSO's motion to dismiss.

In the meantime, the Court of Appeals required the parties to file their respective Memoranda in the case. On September 13, 2017, POSC filed its Memorandum. PCSO opted not to file its own Memorandum, but manifested instead that it was adopting the Memorandum of POSC. On January 8, 2019, POSC's counsel received a decision by the Court of Appeals dated December 17, 2018 dismissing POSC's Petition for Certiorari and Prohibition. POSC decided to no longer pursue a Motion for Reconsideration. To a certain extent, the Petition served its purpose as after the same was filed, the RTC Makati put on hold the hasty implementation of the injunction. Subsequent events have rendered moot the issues in the case. Aside from the ICA arbitration decision, the ELA at issue in the case has also been amended and superseded thrice. Currently, it is POSC's understanding that the ELAs of both POSC and PGMC were extended for one year starting August 1, 2018 pursuant to the Board Resolution 229, Series of 2018, which, in turn was issued to give PCSO enough time to prepare for the required public bidding for lotto equipment supply. With this development, the adverse effect against POSC, the reason that this case was initiated in the first place, is no longer attendant.

Aside from the foregoing, and to the best of the Company's knowledge, neither the Company nor any of its subsidiaries or affiliates is a party to, nor are they involved in, any litigation that will materially affect its interests.

Item 4. Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of security holders during the calendar year covered by this report.

PART II - OPERATIONAL AND FINANCIAL INFORMATION

Item 5. Market for Registrant's Common Equity and Related Stockholder Matters

Market Information

The principal market where the registrant's common equity is traded is the Philippine Stock Exchange ("PSE"). The high and low sales prices for each quarter within the last two years of the registrant's common shares, as quoted on the PSE, are as follows:

Stock Prices

2018	High	Low
First Quarter	1.34	1.08
Second Quarter	1.20	0.85
Third Quarter	0.98	0.84
Fourth Quarter	0.89	0.62
2017	High	Low
First Quarter	1.60	1.16
Second Quarter	1.66	1.47
Third Quarter	1.70	1.53
Fourth Quarter	1.64	1.26

As of **December 31, 2018**, Premium Leisure Corp. market capitalization on **31,598,931,000** outstanding shares in the PSE amounted to **₱25,279,144,800.00** based on the closing price of **₱0.80** per share.

Security Holders

The number of shareholders of record as of **December 31, 2018** was **365**. Common shares outstanding as of **December 31, 2018** were **31,598,931,000**.

Top 20 shareholders as of December 31, 2018:

Dividend Policy

The Board of Directors adopted, as a matter of policy, that the Corporation shall declare dividends of at least 80% of the prior year's unrestricted retained earnings, taking into consideration the availability of cash, restrictions that may be imposed by current and prospective financial covenants, projected levels of cash, operating results of its businesses/subsidiaries, working capital needs and long term capital expenditures of its businesses/subsidiaries, and regulatory requirements on dividend payments, among others.

Dividends shall be paid to all shareholders on record within thirty (30) days from date of declaration.

Dividend Payments

In accordance with the policy on Dividends, the Company pays dividends to shareholders within thirty (30) days from date of declaration. Below table shows dividends declared and paid since year 2015:

YEAR	2019	2018	2017	2016	2015
Declaration Date	02/22/2019	02/23/2018	02/23/2017	02/23/2016	03/05/2015
Amount per share	₱0.05024	₱0.04391	₱0.0281	₱0.0215	₱0.022
Total Dividends	₱1,588.8 M	₱1,388.8 M	₱888 M	₱680 M	₱700 M
Record Date	03/08/2019	03/09/2018	03/10/2017	03/10/2016	03/20/2015
Payment Date by	03/22/2019	03/23/2018	03/23/2017	03/23/2016	04/17/2015

There is no legal restriction that limits or would likely limit the Company's ability to pay dividends, aside from its retained earnings available for such.

Recent Sales of Unregistered Securities

The Company did not sell or issue securities within the past three (3) years that were not registered under the Securities Regulation Code.

Net Income Attributable to:						
Equity holders of the parent	2,157,768,639	1,756,459,152	401,309,487	23%	42%	36%
Non-controlling interests	151,884,475	246,206,808	(94,322,333)	-38%	3%	5%
	2,309,653,114	2,002,665,960	306,987,154	15%	45%	41%

Premium Leisure Corp. recognized consolidated net income of Php2.3 billion for full-year 2018, which is higher by 15% (or Php307.0 million) compared with the 2017 reported net income of Php2.0 billion. Operating EBITDA (proxy for cash flow) for the year is at Php2.7 billion, 2% more than its reported EBITDA of Php2.6 billion in 2017.

The Company's consistent profitability enabled PLC to declare a regular cash dividend of Php0.05024 per share on February 22, 2019, for a total dividend payment of approximately Php1,588.8 million, payable on March 22, 2019 to shareholders of record as of March 8, 2019. This cash dividend is 14% higher than the dividends declared and paid in 2018.

2018 gaming revenue share increased considerably by 23%, from Php2.6 billion to Php3.2 billion. This increase was brought about by the growth in the gaming segments of City of Dreams Manila, especially driven by the strong mass market. This increase was reduced in part by the decrease in revenue from equipment lease rentals by 21% (Php392 million) in 2018 due the decrease in lotto and KENO ticket sales volume immediately after the effectivity of the Tax Reform for Acceleration and Inclusion (TRAIN) law which drove the increase in ticket prices because of the documentary stamp tax and at the same time lowered the prize payout due to the tax on winnings.

Costs and expenses increased by Php161.7 million or 6% in 2018. Other income, on the other hand, increased by 186% or Php195.7 million to Php300.7 million in 2018 due to higher passive income earned by the Company.

Consolidated Statements of Comprehensive Income

(Amounts in Peso except percentages)

Realized loss transferred to profit or loss	-	31,647,929	(31,647,929)	100%	0%	1%
<i>Other comprehensive income (loss) not to be reclassified to profit or loss in subsequent periods:</i>						
Marked-to-market losses on financial assets at fair value through OCI	(261,173,629)	-	(261,173,629)	100%	-5%	0%
Remeasurement gain (loss) on net retirement benefits - net of tax	12,297,225	1,248,964	11,048,261	885%	0%	0%
	(248,876,404)	165,396,942	(414,273,346)	-250%	-5%	3%
TOTAL COMPREHENSIVE INCOME (LOSS)	2,060,776,710	2,168,062,902	(107,286,192)	-5%	40%	44%
Total Comprehensive Income (Loss) Attributable to:						
Equity holders of the parent	1,954,907,883	1,873,300,753	81,607,130	4%	38%	38%
Non-controlling interests	105,868,827	294,762,149	(188,893,322)	-64%	2%	6%
	2,060,776,710	2,168,062,902	(107,286,192)	-5%	40%	44%

PLC recognized comprehensive income of Php2.1 billion for 2018 versus Php2.2 billion in 2017. This is mainly due to unrealized marked-to-market losses on financial assets of the Company versus gains in the previous year.

Aside from what has been mentioned in the foregoing, there were no significant elements that arose from continuing operations, nor were there any seasonal events that had a material effect on the results of operations of PLC in 2018.

As of December 31, 2018, PLC's total assets amounted to Php19.2 billion, higher by Php555.8 million, or 3% versus total assets as at December 31, 2017. Key movements in balance sheet items are as follows:

Cash and cash equivalents

Cash and cash equivalents include cash in bank and short-term investments or cash equivalents of the Company.

Cash and cash equivalents decreased by 22% (Php648.6 million) to Php2,314 million in 2018. This decrease pertains to the increase in notes receivable for the Company and the payment of higher cash dividends for the year, offset in part by the collections of higher gaming share revenue and higher interest income for the year.

Investments held for trading

Investments held for trading decreased by 13% mainly due to disposals of investments for the year as well as mark-to-market gains and losses due to changes in share prices.

Receivables

Receivables includes trade receivables from PCSO for POSC's equipment rentals and receivables from Melco for City of Dreams Manila's gaming share revenue as well as operational advances to customers, suppliers and employees. The Company recorded net decrease of 50% or Php350.0 million in receivables.

Notes Receivable

Notes receivable includes interest-bearing short-term notes due on demand.

Intangible Asset

The Company's intangible asset pertains to the PAGCOR gaming license obtained by PLC through its subsidiary, PremiumLeisure and Amusement, Inc. (PLAI). On April 1, 2016, the Company implemented a change in accounting estimate extending of the life of the intangible asset to concur with the term of PAGCOR's Congressional Franchise which is renewable for another twenty-five (25) years upon its expiration in 2033.

The decrease in the intangible asset account is brought about by the amortization of the intangible asset.

Property and equipment

Property and equipment (PPE) of the Company pertains to online lottery equipment, leasehold improvements, office and transportation equipment. There is an overall decrease of Php178.2 million in the account compared to balances at December 31, 2017 due to the recognized depreciation and disposals for the year that was tempered by additions in PPE for the period.

Goodwill

Goodwill pertains mostly to the goodwill recognized upon acquisition of controlling interest in POSC through the pooling method in 2015. It also includes goodwill from POSC's acquisition of FRI and LCC subsidiaries. The decrease in the account pertains to the provision for impairment of goodwill from FRI worth Php110.9 million in 2018.

Total Liabilities

Total liabilities increased by Php65.7 million or 4% as at December 31, 2018 from total liabilities of Php1,568 million as at December 31, 2017. The increase is due mostly to the increase in trade and other payables as well as increase in deferred tax liability for the year.

Equity

Stockholders' equity increased by Php490.0 million as of December 31, 2018 from Php17,066.0 million as of December 31, 2017. The increase was due mainly to the increase in retained earnings from the net income earned for the year, offset in part by the declaration and payment of dividends during the period and adjustments in other reserves pertaining to unrealized gains and losses through other comprehensive income. Minority interest is at Php718.9 million as at December 31, 2018.

Below are the comparative key performance indicators of the Company and its majority-owned subsidiaries:

Ratio	Manner in which the financial ratios are computed	December 31, 2018	December 31, 2017
Current ratio	Current assets divided by current liabilities	4.40 : 1.00	3.93 : 1.00
Return on assets	Net income (loss) divided by average total assets during the period	12.21%	11.27%
Return on equity	Net income (loss) divided by average total equity during the period	13.34%	12.04%
Asset to equity	Total assets divided by total equity	1.09 : 1.00	1.09 : 1.00
Debt to equity	Interest bearing debt divided by total equity	0.00 : 1.00	0.00 : 1.00
Interest rate coverage	Earnings before interest, tax, depreciation and amortization divided by interest expense	428.57	239.15

The current ratio of the Company increased in 2018 from 3.93 to 4.40. This is mainly brought about by the increase in current assets for 2018.

Return on assets (from 11.27% to 12.21%) and return on equity (from 12.04% to 13.34%) improved in 2018. This is mainly because of the increase in net income for 2018 compared with previous year.

Interest-bearing debt refers to obligations under finance lease of lottery equipment of POSC. These are minimal compared with the Company's total equity.

No material off-balance sheet transactions, arrangements, obligations, and other relationships of the Company with unconsolidated entities were created during the year.

As of December 31, 2018, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Company's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations;
- Seasonal aspects that had a material impact on the Company's results of operations; and

The Company does not foresee any liquidity problem over the next 12 months.

2019 Plan of Operations

PLC remains committed to look for various opportunities for growth through profitable investments that will increase the company's shareholder value for partners and investors alike. It shall likewise continue to partner with its parent corporation's corporate social responsibility arm, Belle Kaagapay, to continue on enhancing quality of life for its host communities.

Net Income Attributable to:						
Equity holders of the parent	1,756,459,152	959,849,646	796,609,506	83%	36%	27%
Non-controlling interests	246,206,808	198,250,490	47,956,318	24%	5%	6%
	2,002,665,960	1,158,100,136	844,565,824	73%	41%	33%

PLC recognized full-year 2017 audited consolidated net income of Php2.0 billion, higher by 73% (or Php844.6 million) than the 2016 reported net income of Php1,158.1 million. Operating EBITDA (proxy for cash flow) for the year is at Php2.6 billion, 37% more than its reported EBITDA of Php1.9 billion in 2016.

The Company's consistent profitability enabled PLC to declare a regular dividend of Php0.04391 per share on February 23, 2018, for a total dividend payment of approximately Php1,388.8 million, payable on March 23, 2018 to shareholders of record as of March 9, 2018. This cash dividend is 56% higher than the dividends declared and paid in 2017.

2017 revenues increased considerably by 40% to Php4.9 billion from the 2016 revenues of Php3.5 billion due mostly to the following factors: 1) the growth in the gaming segments of City of Dreams Manila contributed Php2.6 billion in gaming revenue share, up by 59% versus Php1.6 billion recognized in 2016; 2) the improvement in the sales of lotto and keno tickets for 2017 provided Php1,840.5 million in equipment lease rental revenues, increasing by 17% versus the prior year's revenues of Php1,579.7 million; and 3) higher commission and distribution income by 55% or Php171.0 million.

Costs and expenses increased by Php671.0 million in 2017 due to the increase in costs of services directly attributable to the Company's gaming share revenue, equipment lease rentals, commission, distribution and instant scratch tickets income and the increase in general and administrative expenses.

Consolidated Statements of Comprehensive Income

(Amounts in Peso except percentages)

	Years Ended December 31		Horizontal Analysis		Vertical Analysis	
	2017	2016	Increase (Decrease)		2017	2016
			Amount	%		
NET INCOME	2,002,665,960	1,158,100,136	844,565,824	73%	41%	33%
OTHER COMPREHENSIVE INCOME (LOSS)						
<i>Other comprehensive income (loss) to be reclassified to profit or loss in subsequent periods:</i>						
Mark-to-market gains (losses) on available-for-sale financial assets	132,500,049	62,197,638	70,302,411	113%	3%	2%
Realized loss transferred to profit or loss	31,647,929	-	31,647,929	100%	1%	0%
Remeasurement gain (loss) on net retirement benefits - net of tax	1,248,964	(496,546)	1,745,510	-352%	0%	0%
	165,396,942	61,701,092	103,695,850	168%	3%	2%
TOTAL COMPREHENSIVE INCOME (LOSS)	2,168,062,902	1,219,801,228	948,261,674	78%	44%	35%
Total Comprehensive Income (Loss) Attributable to:						
Equity holders of the parent	1,873,300,753	1,005,380,815	867,919,938	86%	38%	28%
Non-controlling interests	294,762,149	214,420,413	80,341,736	37%	6%	6%
	2,168,062,902	1,219,801,228	948,261,674	78%	44%	35%

PLC recognized comprehensive income of Php2.2 billion for 2017 versus Php1.2 billion in 2016. This is mainly due to a significantly higher net income realized for 2017 as well as the recovery of the share prices of its available-for-sale investments.

Aside from what has been mentioned in the foregoing, there were no significant elements that arose from continuing operations, nor were there any seasonal events that had a material effect on the results of operations of PLC in 2017.

TOTAL LIABILITIES AND EQUITY	18,634,023,269	16,907,792,772	1,726,230,497	10%	100%	100%

As of December 31, 2017, PLC's total assets amounted to Php18,634.0 million, higher by Php1,726.2 million, or 10% versus total assets as at December 31, 2016. Key movements in balance sheet items are as follows:

Cash and cash equivalents

Cash and cash equivalents include cash in bank and short-term investments or cash equivalents of the Company.

Cash and cash equivalents increased by 64% (Php1,151.1 million) to Php2,962.6 million in 2017. This increase pertains to the collections of higher gaming revenue share, cash dividends from the Company's available for sale investments, interest income from banks and short-term investments, offset by the payment of dividends to shareholders in March 2017 and operating expenses.

Investments held for trading

Investments held for trading increased by 8% mainly due to additional investments for the year as well as market-to-market gains and losses due to changes in share prices.

Receivables

Receivables includes trade receivables from PCSO for POSC's equipment rentals and receivables from Melco for City of Dreams Manila's gaming share revenue as well as operational advances to customers, suppliers and employees. The Company recorded net decrease of 4% or Php31.1 million in receivables.

Intangible Asset

The Company's intangible asset pertains to the PAGCOR gaming license obtained by PLC through its subsidiary, PremiumLeisure and Amusement, Inc. (PLAI). On April 1, 2016, the Company implemented a change in accounting estimate extending of the life of the intangible asset to concur with the term of PAGCOR's Congressional Franchise which is renewable for another twenty-five (25) years upon its expiration in 2033.

The decrease in the intangible asset account is brought about by the amortization of the intangible asset.

Property and equipment

Property and equipment (PPE) of the Company pertains to online lottery equipment, leasehold improvements, office and transportation equipment. There is an overall decrease of Php41.0 million in the account compared to balances at December 31, 2016 due to the recognized depreciation for the year that was tempered by additions in PPE for the period.

Goodwill

Goodwill pertains to the goodwill recognized upon acquisition of controlling interest in POSC through the pooling method in 2015. The increase in the account pertains to additional goodwill recognized by the Company upon LCC's acquisition of 100% ownership interest in the following nine entities engaged in lotto/keno outlets and retail of scratchit tickets.

Total Liabilities

Total liabilities increased by P848.5 million or 118% as at December 31, 2017 from total liabilities of Php719.5 million as at December 31, 2016. The increase is due mostly to the increase in trade and other payables related to POSC's operations as well as increased service fees related to the increase in gaming share revenue from City of Dreams Manila.

Equity

Stockholders' equity increased by P877.7 million as of December 31, 2017 from Php16,188.2 million as of December 31, 2016. The increase was due mainly to the increase in retained earnings from the net income earned for the year, offset in part by the declaration and payment of dividends during the period worth approximately Php888 million. Minority interest is at Php751.0 million as at December 31, 2017.

Below are the comparative key performance indicators of the Company and its majority-owned subsidiaries:

Ratio	Manner in which the financial ratios are computed	December 31, 2017	December 31, 2016
Current ratio	Current assets divided by current liabilities	3.93 : 1.00	6.24 : 1.00
Return on assets	Net income (loss) divided by average total assets during the period	11.27%	6.95%
Return on equity	Net income (loss) divided by average total equity during the period	12.04%	7.22%
Asset to equity	Total assets divided by total equity	1.09 : 1.00	1.04 : 1.00
Debt to equity	Interest bearing debt divided by total equity	0.00 : 1.00	0.01 : 1.00
Interest rate coverage	Earnings before interest, tax, depreciation and amortization divided by interest expense	239.15	149.19

The current ratio of the Company decreased in 2017 from 6.24 to 3.93. This is mainly brought about by the increase in current liabilities for 2017. Despite the increase in current assets of 50%, the increase in current liabilities of 138% contributed to a lower current ratio.

Return on assets (from 6.95% to 11.27%) and return on equity (from 7.22% to 12.04%) significantly improved in 2017. This is mainly because of the 73% increase in net income for 2017 compared with previous year. Net income in 2017 amounted to Php2.0 billion in 2017 versus Php1.2 billion in 2016.

Interest-bearing debt refers to obligations under finance lease of lottery equipment of POSC. These are minimal compared with the Company's total equity.

No material off-balance sheet transactions, arrangements, obligations, and other relationships of the Company with unconsolidated entities were created during the year.

As of December 31, 2017, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Company's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations;
- Seasonal aspects that had a material impact on the Company's results of operations; and

The Company does not foresee any liquidity problem over the next 12 months.

Analysis of Results of Operations and Financial Condition – 2016 compared to 2015

Consolidated Statements of Income

(Amounts in Peso except percentages)	Years Ended December 31		Horizontal Analysis		Vertical Analysis

	34,779,027	141,978,383	(107,199,356)	-76%	1%	10%
INCOME BEFORE INCOME TAX	1,440,700,981	407,917,846	1,032,783,135	253%	41%	28%
PROVISION FOR (BENEFIT FROM) INCOME TAX						
Current	254,329,643	186,833,985	67,495,658	36%	7%	13%
Deferred	28,271,202	(2,070,488)	30,341,690	-1465%	1%	0%
	282,600,845	184,763,497	97,837,348	53%	8%	13%
NET INCOME	1,158,100,136	223,154,349	934,945,787	419%	33%	15%
Net Income Attributable to:						
Equity holders of the parent	959,849,646	155,232,754	804,616,892	518%	27%	11%
Non-controlling interests	198,250,490	67,921,595	130,328,895	192%	6%	5%
	1,158,100,136	223,154,349	934,945,787	419%	33%	15%

PLC recognized full-year 2016 audited consolidated net income of Php1.2 billion, higher by 419% (or Php934.9 million) than 2015 net income of Php223.2 million. Operating EBITDA (proxy for cash flow) for the year is at Php1.9 billion, more than double than its reported EBITDA in 2015.

2016 revenues increased substantially by 139% to Php3.5 billion from 2015's revenues of Php1.5 billion due to mostly to the following factors: 1) the overall improvement in all the gaming segments of City of Dreams Manila contributed Php1.6 billion in gaming revenue share, up by 117% versus Php756.2 million recognized in 2015 and 2) the full-year consolidation of POSC in PLC contributed Php1.8 billion in revenues in 2016 from its equipment lease rentals as well as commission, distribution and instant scratch tickets income, showing a growth of 162% from prior year's Php719.3 million revenues for five months from August 2015.

Costs and expenses increased by Php915.5 million in 2016 mostly due to the increase in costs of services directly attributable to the Company's gaming share revenue, equipment lease rentals, commission, distribution and instant scratch tickets income, which increased substantially for the year. General and administrative expenses increased by Php304.1 million in 2016 mostly due to the full-year consolidation of POSC. Costs and expenses as a percentage to revenues has decreased to 60% from 82% in 2015, an indication of growth in the Company as well as continuous operational efficiency.

Equity in net earnings of an associate was not recognized in 2016 due to POSC's consolidation beginning in August 2015, wherein POSC became a subsidiary instead of an associate. This is the main reason for the decrease in the Company's other income.

Consolidated Statements of Comprehensive Income

(Amounts in Peso except percentages)

	Years Ended December 31		Horizontal Analysis		Vertical Analysis	
	2016	2015	Increase (Decrease)		2016	2015
			Amount	%		
NET INCOME	1,158,100,136	223,154,349	934,945,787	419%	33%	15%
OTHER COMPREHENSIVE INCOME (LOSS)						
<i>Other comprehensive income (loss) to be reclassified to profit or loss in subsequent periods:</i>						
Mark-to-market gains (losses) on available-for-sale financial assets	62,197,638	(252,460,264)	314,657,902	-125%	2%	-17%
Share in mark-to-market loss on available-for-sale financial assets of an associate	-	(38,258,713)	38,258,713	-100%	0%	-3%
Remeasurement gain (loss) on net retirement benefits - net of tax	(496,546)	4,582,575	(5,079,121)	-111%	0%	0%
	61,701,092	(286,136,402)	347,837,494	-122%	2%	-19%
TOTAL COMPREHENSIVE INCOME (LOSS)	1,219,801,228	(62,982,053)	1,282,783,281	-2037%	35%	-4%
Total Comprehensive Income (Loss) Attributable to:						
Equity holders of the parent	1,005,380,815	(105,673,078)	1,111,053,893	-1051%	28%	-7%
Non-controlling interests	214,420,413	42,691,025	171,729,388	402%	6%	3%
	1,219,801,228	(62,982,053)	1,282,783,281	-2037%	35%	-4%

PLC recognized comprehensive income of Php1.2 billion for 2016 versus comprehensive loss of Php63.0 million in 2015. This is mainly due to a significantly higher net income realized for 2016 as well as the recovery of the share prices of its available-for-sale investments.

Aside from what has been mentioned in the foregoing, there were no significant elements that arose from continuing operations, nor were there any seasonal events that had a material effect on the results of operations of PLC in 2016.

TOTAL LIABILITIES AND EQUITY	16,907,792,772	16,441,997,803	465,794,969	3%	100%	100%

As of December 31, 2016, PLC's total assets amounted to Php16,907.8 million, higher by Php465.8 million, or 3% versus total assets as at December 31, 2015. Key movements in balance sheet items are as follows:

Cash and cash equivalents

Cash and cash equivalents include cash in bank and short-term investments or cash equivalents of the Company.

The 53% increase (Php623.9 million) in cash and cash equivalents pertains to the collections of higher gaming share for 2016, the receipt of cash dividends from the Company's available for sale investments, interest received from banks, short-term investments and loans receivable, offset by the payment of dividends to shareholders in March 2016 and the payments of expenses and fees.

Investments held for trading

Investments held for trading decreased by 27% mainly due to sale of investments for the year as well as mark-to-market gains and losses due to changes in share prices.

Receivables

Receivables includes trade receivables from PCSO for POSC's equipment rentals and receivables from Melco for City of Dreams Manila's gaming share revenue as well as operational advances to customers, suppliers and employees. The Company recorded net increase of 44% or Php222.2 million in receivables due to: 1) City of Dreams Manila recorded high gross gaming revenues for December 2016, thereby translating to higher gaming revenue share for PLC for the month, due to be collected on the following month and 2) Higher POSC receivables in line with the higher revenues.

Intangible Asset

The Company's intangible asset pertains to the PAGCOR gaming license obtained by PLC through its subsidiary, PremiumLeisure and Amusement, Inc. (PLAI). On April 1, 2016, the Company implemented a change in accounting estimate extending of the life of the intangible asset to concur with the term of PAGCOR's Congressional Franchise which is renewable for another twenty-five (25) years upon its expiration in 2033.

The decrease in the intangible asset account is brought about by the amortization of the license.

Property and equipment

Property and equipment (PPE) of the Company pertains to online lottery equipment, leasehold improvements, office and transportation equipment. There is an overall decrease of Php65.5 million in the account compared to balances at December 31, 2015 due to the recognized depreciation for the year that was tempered by additions in PPE for the period.

Goodwill

Goodwill pertains to the goodwill recognized upon acquisition of controlling interest in POSC through the pooling method in 2015.

Total Liabilities

PLCs total liabilities increased by P166.8 million or 30% as at December 31, 2016 from total liabilities of Php552.7 million as at December 31, 2015. The increase is due mostly to the increase in trade and other payables related to POSC's operations as well as increased service fees related to the increase in gaming share revenue from City of Dreams Manila.

Equity

Stockholders' equity increased by P299.0 million as of December 31, 2016 from Php15,889.3 million as of December 31, 2015. The increase was due mainly to the increase in retained earnings from the net income earned for the year, offset in part by the declaration and payment of dividends during the period worth Php680 million. Minority interest is at Php830.4 million as at December 31, 2016.

Below are the comparative key performance indicators of the Company and its majority-owned subsidiaries:

Ratio	Manner in which the financial ratios are computed	December 31, 2016	December 31, 2015
Current ratio	Current assets divided by current liabilities	6.24 : 1.00	7.14 : 1.00
Return on assets	Net income (loss) divided by average total assets during the period	6.95%	1.38%
Return on equity	Net income (loss) divided by average total equity during the period	7.22%	1.41%
Asset to equity	Total assets divided by total equity	1.04 : 1.00	1.03 : 1.00
Debt to equity	Interest bearing debt divided by total equity	0.01 : 1.00	0.01 : 1.00
Interest rate coverage	Earnings before interest, tax, depreciation and amortization divided by interest expense	149.19	200.02

The current ratio of the Company decreased in 2016 from 7.14 to 6.24. This is mainly brought about by the increase in current liabilities for 2016 due to the consolidation of POSC. Despite the increase in current assets of 26%, the increase in current liabilities of 44% contributed to a lower current ratio. In spite of this, however, the current assets of the Company can more than adequately cover its current liabilities. In addition, the Company does not foresee any cash flow or liquidity problems over the next 12 months.

Return on assets (from 1.38% to 6.95%) and return on equity (from 1.41% to 7.22%) significantly improved in 2016. This is mainly because of the 419% increase in net income for 2016 compared to previous year. Net income in 2016 amounted to Php1.2 billion in 2016 versus Php223 million in 2015.

Interest-bearing debt refers to obligations under finance lease of lottery equipment of POSC. These are minimal compared with the Company's total equity. Earnings can cover interest charges 149.19 times for 2016.

No material off-balance sheet transactions, arrangements, obligations, and other relationships of the Company with unconsolidated entities were created during the year.

As of December 31, 2016, except for what has been noted in the preceding, there were no material events or uncertainties known to management that had a material impact on past performance, or that would have a material impact on the future operations, in respect of the following:

- Known trends, demands, commitments, events or uncertainties that would have a material impact on the Company;
- Material commitments for capital expenditures that are reasonably expected to have a material impact on the Company's short-term or long-term liquidity;
- Known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales/revenues/income from continuing operations;
- Significant elements of income or loss that did not arise from the Company's continuing operations;
- Seasonal aspects that had a material impact on the Company's results of operations; and

The Company does not foresee any liquidity problem over the next 12 months.

Key Variables and other Qualitative and Quantitative Factors

The Company expects no material commitments for capital expenditures and expected funds in 2018. To the best of the Company's knowledge, aside from what has already been mentioned in the preceding, there are no known trends, events or uncertainties that will have a material impact on sales; no significant elements of income or loss that did not arise from continuing operations aside from those disclosed in the Notes to the Audited Financial Statements; and no seasonal aspects with material effect on results of operations.

PLC maintains sufficient cash balances to meet minimum operational requirements, as determined by management from time to time. Additional cash requirements are sourced from affiliates. To the best of the Company's knowledge, there are no known trends, events or uncertainties that will have a material impact on its liquidity.

Information on Independent Accountant and Other Related Matters

a. External Audit Fees

a.1. Audit and Audit-Related Fees

The aggregate fees paid by the Company for professional services (excluding Value Added Tax) rendered by the external auditor for the audit of financial statements for the years ended 31 December 2018 and 2017 follow:

(₱000's omitted)	
2018	₱443.0
2017	410.0

a.2. There were no other assurance and related services by the external auditor that are reasonably related to the performance of the audit or review of the registrant's financial statements.

b. Tax Fees

There were no professional services rendered by the external auditor for tax accounting compliance, advice, planning and any other form of tax services in each of the last two years.

c. All Other Fees

There were no other professional services rendered by the external auditors for each of the last two years other than item (a) and (b) above.

d. The Audit Committee's approval policies and procedures for the above services

The Audit Committee has the oversight responsibility over the audit function and activities of the Company's internal and external auditors. It provides assurance that financial disclosures made by the management as presented in the Auditor's report reasonably reflect (a) the financial condition; the result of operation; and the plans and long-term commitments; and (b) internal controls are operating as intended.

The Audit Committee has the responsibility to recommend an external auditor to be selected and appointed by the stockholders during each annual stockholder's meeting.

It reviews the audit coverage of the External Auditors and deliberates on their audit report prior to endorsement to the Board of Directors and presented to the stockholder's for approval.

Item 7. Financial Statements

Please see attached consolidated financial statements and schedules listed in the accompanying Index to Financial Statements and Supplementary Schedules.

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

No principal accountant or independent accountants of the registrant has resigned, was dismissed or has ceased to perform services during the two (2) most recent fiscal years or any subsequent interim period.

There have been no disagreements with any accountant or any matter of accounting principles or practices, financial statement disclosure or auditing scope of procedure.

Independent Public Accountants, External Audit Fees and Services

SyCip Gorres Velayo & Co. (“SGV”), the Company’s external auditors for the current year. The same external auditor will be recommended for re-appointment at the scheduled stockholder’s meeting. Representatives of SGV are expected to be present at the Annual Meeting to respond to appropriate questions and will be given the opportunity to make a statement if they so desire.

Over the past five (5) years, there was no event where SGV and the Company had any disagreement with regard to any matter relating to accounting principles or practices, disclosure of financial statements or auditing scope or procedure.

In Compliance with the SEC Memorandum Circular No. 8 Series of 2003, SGV’s engagement partners for audit of the Company’s financials are changed at least every five (5) years, as follows:

	<u>Year/s</u>	<u>SGV Partner-in-Charge</u>
1.	2007-2009	Mr. Juanito A. Fullecido
2.	2010-2011	Mr. Roel E. Lucas
3.	2012-2013	Ms. Clairma T. Mangangey
4.	2014	Ms. Marydith C. Miguel
5.	2015-2018	Ms. Belinda T. Beng Hui

The Audit Committee recommends to the Board of Directors the appointment of the external auditors. The Board of Directors and the stockholders approve the Audit Committee’s recommendation. The Executive Committee approves the audit fees as recommended by the Management Committee.

None

Item 11. Security Ownership of Certain Beneficial Owners and Management

(1) Security Ownership of Certain Record and Beneficial Owners

The persons or groups identified in the table below are known to the Company as directly or indirectly the record or beneficial owners of more than five percent (5%) of the Company's voting securities as of **December 31, 2018**:

Title of Class	Name and Address of Record Owner and Relationship with Issuer	Name and Address of Beneficial Owner and Relationship with Record Owner	Citizen-ship	No. of Shares Held	Percent
Common	Belle Corporation (Belle) * 5/F Tower A, Two E-Com Center Palm Coast Ave., Mall of Asia Complex, CPB-1A Pasay City (a)	Belle Corporation	Filipino	24,904,904,324	78.82
Common	PCD Nominee Corp. (Filipino) ** G/F Makati Stock Exchange, 6767 Ayala Avenue, Makati City (b)	<i>(please see footnote)</i>	Filipino	5,744,812,915	18.18

*Belle Corporation is the parent company of Premium Leisure Corp. The shares held by Belle Corporation, being a corporate shareholder, shall be voted or disposed of, by the persons who shall be duly authorized by Belle for the purpose. The natural person/s that has/have the power to vote on the shares of Belle shall be determined upon the submission of its proxy form to the Company, which is not later than three (3) days before the date of the meeting.

**PCD Nominee Corporation ("PCDNC") is a wholly-owned subsidiary of Philippine Central Depository, Inc. ("PCD"). The beneficial owners of such shares registered under the name of PCDNC are PCD's participants who hold the shares in their own behalf or in behalf of their clients. The PCD is prohibited from voting these shares; instead the participants have the power to decide how the PCD shares in Premium Leisure Corp. are to be voted. As of December 31, 2018, the participants of PCD who owns more than 5% of the Company's outstanding capital are:

- a. BDO Securities Corporation with 1,729,737,000 shares or 5.47% ownership
- b. Banco De Oro - Trust Banking Group with 1,653,274,000 shares or 5.23% ownership

As of **December 31 2018**, **685,895,440** Common Shares of the Company are owned by non-Filipinos, constituting **2.17%** of the Company's outstanding capital stock.

(2) Security Ownership of Management

The following table shows the shares beneficially owned by the directors and executive officers of the Company as of December 31, 2018:

Title Class	Name of Beneficial Owner	Amount* Nature Beneficial Ownership	Citizenship	Percent

*Number of shares

(3) Voting Trust Holders of 5% or More

The Company is not aware of any party which holds any voting trust or any similar agreement for 5% or more of Premium Leisure Corp.'s voting securities.

(4) Change in Control

On June 2, 2014, the Company's Board of Directors approved to take on the gaming business and interests of the Belle Group. The transaction involved the sale to Belle of PLC's non-gaming assets (comprising primarily real properties and corporate club membership shares) and acquisition of all of Belle's interest in PremiumLeisure and Amusement, Inc. (PLAI) and 34.5% interest in POSC Systems Corporation (POSC). The transfers of the said assets were completed on July 24, 2014. As part of the consideration for the transfer of assets, PLC undertook to increase its authorized capital stock, and out of such increase, Belle agreed to subscribe to new shares to increase its stake in the Company to 90% of the outstanding capital.

As a result of the transactions, the Company directly owns 100% of PLAI and 34.5% of POSC. Belle, together with other principal shareholders agreed to offer a certain number of shares for sale, and as a result of which, its shareholdings in PLC was reduced. As of December 31, 2015, Belle directly owns 78.745% (24,904,904,324 shares) of PLC.

On August 5, 2015, PLC acquired additional 47,851,315 shares of POSC, thereby increasing its ownership from 34.5% to 50.1%. This resulted to the line by line consolidation of POSC by PLC. As of December 31, 2018, PLC owns 53.1% of POSC's outstanding shares.

As of December 31, 2018, there is no arrangement that may result in a change in control of the Company

Item 12. Certain Relationships and Related Transactions

No director or executive officer or any member of their immediate family has, during the last two years, had direct or indirect, material interest in a transaction of proposed transaction to which the Company was a party.

As summarized and disclosed in the corporation’s consolidated financial statements, in the ordinary course of business, the Company has transactions with related parties which consist mainly of advances from Belle Corporation. The outstanding balances at year-end are due and demandable. There have been no guarantees provided or received for any related party receivables or payables. Aside from these transactions, the Company has no other significant transactions that need to be disclosed.

The related party transactions are described in Note 26 (Related Party Transactions) of the Notes to the Consolidated Financial Statements.

PART IV – CORPORATE GOVERNANCE

COMPLIANCE WITH CORPORATE GOVERNANCE PRACTICES

The Company remains focused on insuring the adoption of systems and practices of good corporate governance in enhancing value for its shareholders.

Board Attendance

Regular meetings of the Board are scheduled at the beginning of the year and are held at least six (6) times annually. Special meetings may also be called by the Chairman, the President or Corporate Secretary. A director’s absence or non-participation in more than 50% of all meetings in a year is a ground for temporary disqualification in the succeeding election. During 2018, each of the Company’s Directors have complied with the requirements. Below table shows the attendance of each board member in the meetings conducted during the year:

Premium Leisure Corp. – Attendance in Board of Directors’ Meetings in 2018									
DIRECTOR		23-Feb	1-Mar	23-Apr	10-May	27-Jul	8-Aug	26-Oct	7-Dec
1	WILLY N. OCIER	✓	✓	✓	✓	✓	✓	✓	✓
2	ARMIN ANTONIO B. RAQUEL SANTOS	✓	✓	✓	✓	✓	✓	✓	✓
3	A. BAYANI K. TAN	✓	✓	✓	✓	✓	✓	✓	✗
4	EXEQUIEL P. VILLACORTA, JR.	✓	✓	✓	✓	✓	✓	✓	✓
5	ROMAN FELIPE S. REYES	✓	✓	✓	✓	✓	✓	✓	✓
6	JUAN VICTOR S. TANJUATCO	✓	✓	✓	✗	✓	✓	✓	✓
7	JOSEPH C. TAN	✓	✓	✓	✓	✓	✓	✓	✓

The Board of Directors during its meeting on October 26, 2018 approved the scheduling of the 2019 Board and Committee Meetings in adherence to good governance practices.

Board Performance Evaluation

The Company conducts annual performance evaluations of the Board of Directors, its individual members and Board Committees to ensure optimum Board performance. In this evaluation process, directors identify areas for improvement, some of which are: the timeliness and integrity of information given to them, directors’ access to management, the Corporate Secretary and Board Advisors, and other forms of assistance as needed. The Board reviews the results of these evaluations and agrees on clear action plans to address any issues raised. In line with governance best practices, the board evaluations shall be facilitated by a third party independent assessor every three (3) years reckoned from January 01, 2017 (effectivity date of the 2016 Code of Corporate Governance for Publicly Listed Companies).

Continuing Education Programs

The Board identifies areas of continuing education on corporate governance topics they require. To keep the Board and key officers well-informed of governance related developments, regular annual education programs are conducted in coordination with SM Investments Corporation and training providers duly accredited by the Securities and Exchange Commission.

Manual on Corporate Governance

In compliance with the initiative of the Securities and Exchange Commission (“SEC”), PLC submitted its Manual on Corporate Governance (the “Manual”) to the SEC. This manual institutionalizes the principles of good corporate governance in the entire Company. The Company believes that corporate governance, the framework of rules, systems and processes governing the performance of the Board of Directors and Management of their respective duties and responsibilities, and from which the organization’s values and ethics emerge, is of utmost

importance to the Company's shareholders and other stakeholders, which include, among others, clients, employees, suppliers, financiers, government and community in which it operates. The Company undertakes every effort possible to create awareness throughout the entire organization.

Board Committees

Even prior to the submission of its Manual, the Company already created various Board-level committees. These committees were comprised of:

1. The Executive Committee – to oversee the management of the Company and is responsible for the Company's goals, finances and policies;
2. Audit Committee – to review financial and accounting matters; Nomination Committee – for the selection and evaluation of qualifications of directors and officers;
3. Compensation and Remuneration Committee – to look into an appropriate remuneration system; and
4. Risk Oversight Committee – to review the policies and procedures relating to the identification, analysis, management, monitoring and reporting of financial and non-financial risks.

Subsequently, the following Board Committees were created:

1. Related Party Transactions Committee – to assess material agreements with related parties to ensure that the RPT are conducted at market rates and on an arm's length basis; and
2. Corporate Governance Committee – to assist and advise the Board of Directors in performing corporate governance compliance responsibilities in relation with the Company's Manual on Corporate Governance, the Philippine Code of Corporate Governance, and the disclosure rules of the SEC and the PSE. On April 24, 2017, the Nomination Committee was merged with the Corporate Governance Committee.

Each of the above is guided by their respective Committee Charters that indicates the purpose, composition, duties and responsibilities. The Board Committee Charters are reviewed annually.

Corporate Objectives

The Board establishes the corporate objectives, which are:

- To create opportunities for growth through strategic and lucrative investments and to enhance shareholder value for PLC's partners and investors
 - Declaration of regular dividends of at least 80% of the prior year's unrestricted retained earnings, taking into consideration the Company's operating result, cash flow, regulatory requirements and other factors.
 - Adoption of good governance practices, and being assessed as one of the top 100 Philippine PLCs scoring above 90% in the annual ASEAN Corporate Governance Scorecard.
 - Endeavor to realize increases in net income, surpassing operating performance in 2017-2018, by continuous exercise of financial prudence and undertaking of business risks only upon careful study and evaluation.
- To promote mutually beneficial relationship with all the stakeholders that is grounded on transparency, integrity and respect and to enhance the quality of life of the communities it serves
 - Participation in activities that uplift the quality of life in surrounding communities thru coordination with Belle Kaagapay, which is Belle Corporation's corporate social responsibility arm. Such activities include joining the Department of Education's *Brigada Eskwela*, feeding programs, medical and dental / eye and ear missions, tree-planting and livelihood programs

Code of Business Conduct and Ethics

The Company remains committed to align with the best corporate governance practices following the release of the 2016 Code of Corporate Governance for Publicly Listed Companies. In addition to the Manual on Corporate Governance (MCG), the Company's Code of Business Conduct and Ethics (CBCE) defines good governance, ethics and compliance practices expected throughout the organization. The MCG and CBCE are communicated to directors, officers and employees to ensure familiarity and adherence. These documents are also made public through the Company's corporate website.

Governance Policies

Company policies on governance were developed, submitted to and approved by the Board to protect the interests and rights of the shareholders and stakeholders and to promote transparency and accountability. Such governance related policies are shown below and may be viewed through the PLC Corporate website <https://www.premiumleisurecorp.com/governance-plc/corporate-policies>: These policies and procedures are

initially cascaded throughout the organization via email blast, intranet portal and annual corporate governance trainings. The Board, through its various Board Committees, ensures that adequate internal control mechanisms are implemented and properly complied in all levels.

1. Accountability, Integrity and Vigilance (Whistle-Blowing)
2. Alternative Dispute Resolution
3. Board Diversity
4. Conflict of Interest
5. Corporate Disclosures
6. Directors' Board Seats Held in Other Companies
7. Employees' Safety, Health and Welfare
8. Gifts / Hospitality / Entertainment
9. Insider Trading
10. Related Party Transactions
11. Succession Planning and Retirement Age for Directors and Key Officers
12. Tenure of Independent Directors
13. Vendor Accreditation and Selection

Board Diversity

The Company values and promotes a diversity policy in the composition of our Board of Directors to reinforce its effectiveness in providing strategic direction, oversight and compliance with laws and regulations.

Diversity in age, gender, ethnicity, experience, field expertise, and personal qualities shall be considered by the Board as it installs a process of selection to ensure a mix of competent directors and key officers. Diversity will foster critical discussion and promote balanced decisions by the Board by utilizing the difference in perspective of its directors.

**STATEMENT OF MANAGEMENT'S RESPONSIBILITY
FOR CONSOLIDATED FINANCIAL STATEMENTS**

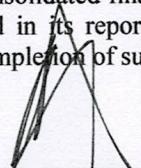

The management of **Premium Leisure Corp. and Subsidiaries** is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2018 and 2017, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

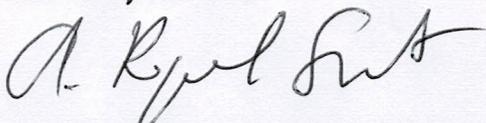

The Board of Directors is responsible for overseeing the Company's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders.

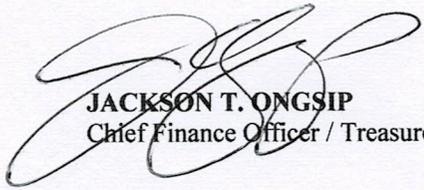

SyCip Gorres Velayo & Co., the independent auditor appointed by the stockholders, has audited the consolidated financial statements of the Company in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

INDEPENDENT AUDITOR'S REPORT

The Board of Directors and Stockholders
Premium Leisure Corp.
5th Floor, Tower A
Two E-Com Center, Palm Coast Avenue
Mall of Asia Complex, Pasay City

Opinion

We have audited the consolidated financial statements of Premium Leisure Corp. and its subsidiaries (the Company), which comprise the consolidated statements of financial position as at December 31, 2018 and 2017, and the consolidated statements of income, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2018, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2018 and 2017, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2018 in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Recoverability of Goodwill in Pacific Online Systems Corporation

Under PFRS, the Company is required to annually test the amount of goodwill for impairment. As of December 31, 2018, goodwill arising from the acquisition of Pacific Online Systems Corporation amounted to ₱1,717.6 million out of a total goodwill balance of ₱1,721.3 million. The Company's assessment of the recoverable amount of the POSC cash generating unit (CGU) was based on value-in-use calculation. In addition, management's assessment process requires significant judgment and is based on assumptions, specifically revenue growth rate, discount rate and the long-term growth rate. Given the significant level of management judgment and estimation involved in the value-in-use calculation, we considered this area to be a key audit matter.

The Company's disclosures about goodwill are included in Note 17 to the consolidated financial statements.

Audit Response

We involved our internal specialist in evaluating the methodologies and the assumptions used. These assumptions include revenue growth rate, discount rate and the long-term growth rate. We compared the key assumptions used, such as revenue growth rate against the historical performance of the CGU and other relevant external data. We tested the parameters used in the determination of the discount rate against market data. We also reviewed the Company's disclosures about those assumptions to which the outcome of the impairment test is most sensitive; specifically those that have the most significant effect on the determination of the recoverable amount of goodwill.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement) , SEC Form 17-A and Annual Report for the year ended December 31, 2018, but does not include the consolidated financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement) , SEC Form 17-A and Annual Report for the year ended December 31, 2018 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Belinda T. Beng Hui.

PREMIUM LEISURE CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. General Information

Corporate Information

Premium Leisure Corp., formerly Sinophil Corporation, (“PLC” or “Parent Company”), incorporated and registered with the Philippine Securities and Exchange Commission (SEC) as Sinophil Exploration Co., Inc. on November 26, 1993, was originally organized with oil and gas exploration and development as its primary purpose and investments and development as among its secondary purposes. On June 3, 1997, the SEC approved PLC’s application for a change in its primary purpose from oil and gas exploration and development to investment holding and real estate development. On September 5, 2014, the SEC approved the change in PLC’s primary purpose to that of engagement and/or investment in gaming-related businesses.

PLC, a publicly-listed company traded in the Philippine Stock Exchange (PSE), is 79.00% (direct and indirect) owned by Belle Corporation (“Belle” or “Ultimate Parent Company”) and the rest by the public as at December 31, 2018 and 2017.

PLC and its subsidiaries (collectively referred to as “the Company”) have investment portfolio consisting of investment holding, gaming business and lottery equipment leasing, distribution and others.

The registered office address of the Company is 5th Floor, Tower A, Two E-Com Center, Palm Coast Avenue, Mall of Asia Complex, Pasay City 1300.

The consolidated financial statements include the accounts of the Parent Company and the following subsidiaries:

Authorization for the Issuance of the Consolidated Financial Statements

The accompanying consolidated financial statements were authorized for issue by the Board of Directors (BOD) on February 22, 2019.

2. **Basis of Preparation and Consolidation and Statement of Compliance**

Basis of Preparation

The Company's consolidated financial statements have been prepared on a historical cost basis, except for equity financial assets that have been measured at fair value. The consolidated financial statements are presented in Philippine peso, which is the Company's functional and presentation currency. All values are rounded to the nearest peso, except when otherwise indicated.

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at December 31, 2018 and 2017 (see Note 1). Specifically, the Company controls an investee if, and only if, the Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or

disposed of during the year are included in the consolidated financial statements from the date of the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income and expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company using consistent accounting policies.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resulting gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

Material Partly-owned Subsidiary

The non-controlling interests of POSC are material to the Company. Non-controlling interest (NCI) is 46.9% and 47.1% as at December 31, 2018 and 2017, respectively.

The summarized financial information of POSC is provided below. This information is based on amounts before intercompany eliminations.

Summarized Consolidated Statements of Financial Position

	2018	2017
Total current assets	₱1,156,967,831	₱1,243,786,537
Total noncurrent assets	946,111,550	1,390,060,541
Total current liabilities	(289,167,455)	(575,634,737)
Total noncurrent liabilities	(53,292,150)	(38,137,469)
Total equity	₱1,760,619,776	₱2,020,074,872
Attributable to:		
Equity holders of the Parent	₱1,753,714,977	₱2,015,538,814
Non-controlling interests	6,904,799	4,536,058
Total	₱1,760,619,776	₱2,020,074,872

Summarized Consolidated Statements of Comprehensive Income

	2018	2017
Revenues	₱1,935,943,996	₱2,319,993,376
Costs and expenses	(1,614,488,192)	(1,652,402,460)
Other income (expense) - net	161,422,797	54,155,446
Income before income tax	482,878,601	721,746,362
Provision for income tax	(178,830,586)	(228,880,374)
Net income	304,048,015	492,865,988
Other comprehensive income (loss)	(294,405,190)	120,246,512
Total comprehensive income	₱9,642,825	₱613,112,500
Attributable to:		
Equity holders of the Parent	₱8,254,176	₱610,347,733
Non-controlling interests	1,388,649	2,764,767
Total	₱9,642,825	₱613,112,500

Summarized Cash Flow Information

	2018	2017
Operating	₱553,206,300	₱678,241,907
Investing	(33,241,696)	26,476,136
Financing	(395,794,561)	(516,829,559)
Net Increase in cash and cash equivalents	₱124,170,043	₱187,888,484

Dividends paid to non-controlling interests amounted to ₱121.3 million and ₱162.4 million in 2018 and 2017, respectively.

3. Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except that the Company has adopted the following new accounting pronouncements starting January 1, 2018. Adoption of these pronouncements did not have any significant impact on the Company's financial position or performance, unless otherwise indicated.

- PFRS 15, *Revenue from Contracts with Customers*

PFRS 15 supersedes PAS 11, *Construction Contracts*, PAS 18, *Revenue*, and related Interpretations and it applies, with limited exceptions, to all revenue arising from contracts with its customers. PFRS 15 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognized at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

PFRS 15 requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. In addition, the standard requires extensive disclosures.

The Company adopted PFRS 15 using the modified retrospective method of adoption with the date of initial application of January 1, 2018. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Company elected to apply the standard only to contracts that are not yet complete as at January 1, 2018.

There were no cumulative effect of applying PFRS 15 at the date of initial application as an adjustment to the opening balance of retained earnings.

The adoption of PFRS 15 did not have a material impact on the Company's consolidated statement of financial position, other comprehensive income or on the Company's operating, investing and financing cashflows as at January 1, 2018.

The effect of adoption of PFRS 15 as at December 31, 2018 is as follows:

Consolidated Statement of Financial Position	Under PAS 18 (Old)	Under PFRS 15 (New)	Impact Increase (Decrease)
ASSETS			
Contract asset – current portion	₱–	₱37,892,531	₱37,892,531
Contract asset – noncurrent portion	–	130,123,123	130,123,123
Total	–	168,015,654	168,015,654

LIABILITIES AND EQUITY

Income tax payable	14,400,000	14,400,000	–
Deferred tax liability	–	50,404,696	50,404,696
Retained earnings	33,600,000	151,210,957	117,610,957
Total	₱48,000,000	₱216,015,653	₱168,015,653

Consolidated Statement of Income	Under PAS 18 (Old)	Under PFRS 15 (New)	Impact Increase (Decrease)
OTHER INCOME (EXPENSES)			
Brand and trademark income	₱48,000,000	₱203,459,171	₱155,459,171
Interest income	–	12,556,482	12,556,482
Income before income tax	48,000,000	216,015,653	168,015,653
Provision for current income tax	14,400,000	14,400,000	–
Provision for deferred income tax	–	50,404,696	50,404,696
NET INCOME	₱33,600,000	₱151,210,957	₱117,610,957

Contract assets

Under PFRS 15, the Company needs to evaluate the nature of its promise to grant a license of intellectual property in order to determine whether the promise is satisfied (and revenue is recognized) over time or at a point in time. A license provides either a right of access throughout the license period, which results in revenue that is recognized over time or a right to use as it exists at the point in time when the license is granted which results in revenue that is recognized at a point in time.

The Company determines that there is no implicit or implied obligation for the Company to undertake activities during the license period. Thus, exclusive right to use the scratch instant tickets brand and trademarks over a period of five (5) years effective January 1, 2018 qualifies as point in time recognition of revenue. There is no impact on the opening balances as at January 1, 2018 since the contract was only entered by the parties in 2018.

- PFRS 9, *Financial Instruments*

PFRS 9 replaces PAS 39, *Financial Instruments: Recognition and Measurement*, for annual periods beginning on or after January 1, 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The Company applied PFRS 9 prospectively, with an initial application date of January 1, 2018. The Company has not restated the comparative information, which continues to be reported under PAS 39. Differences arising from the adoption of PFRS 9 have been recognized directly in retained earnings and other components of equity.

The effect of adoption of PFRS 9 as at January 1, 2018 is as follows:

Increase (Decrease) in Consolidated Statement of Financial Position

AFS financial assets

Financial assets at fair value through other comprehensive income (FVOCI)

Retained earnings

Other reserves

The nature of these adjustments are described below:

a) Classification and measurement

Under PFRS 9, debt instruments are subsequently measured at fair value through profit or loss (FVTPL), amortized cost, or FVOCI. The classification is based on two criteria: the Company's business model for managing the assets; and whether the instruments' contractual cash flows represent "solely payments of principal and interest" on the principal amount outstanding.

The assessment of the Company's business model was made as of the date of initial application, January 1, 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The Company continued measuring at fair value all financial assets previously held at fair value under PAS 39. The following are the changes in the classification of the Company's financial assets:

- Receivables classified as "Loans and receivables" as at December 31, 2017 are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are classified and measured as "Debt instruments at amortized cost" beginning January 1, 2018.
- Listed equity investments classified as "FVTPL" as at December 31, 2017 continues to be classified and measured as "FVTPL" beginning January 1, 2018.
- Listed and non-listed equity investments classified as "AFS financial assets" as at December 31, 2017 are classified and measured as "FVOCI" beginning January 1, 2018. The Company elected to classify irrevocably its equity investments under this category at the date of initial application as it intends to hold these investments for the foreseeable future. Impairment losses recognized in profit or loss for these investments in prior periods were reclassified from retained earnings to other comprehensive income.

As a result of the change in classification of the Company's equity investments, the impairment loss previously recognized in profit or loss in prior periods amounting to ₱574.9 million was reclassified to other comprehensive income.

There are no changes in classification and measurement for the Company's financial liabilities.

In summary, upon the adoption of PFRS 9, the Company had the following required or elected reclassifications as at January 1, 2018:

PAS 39 measurement category	PFRS 9 measurement category			
		Fair value through profit or loss	Amortized cost	Fair value through OCI
Loans and receivables				
Cash and cash equivalents	₱2,962,635,687	₱-	₱2,962,635,687	₱-
Receivables*	696,356,857	-	696,356,857	-
Notes receivable	1,605,925,000	-	1,605,925,000	-
Guarantee bonds**	35,000,000	-	35,000,000	-
Fair value through profit or loss				
Investments held for trading	178,482,842	178,482,842	-	-
Available for sale				
Listed equity investments	646,216,790	-	-	646,216,790
Non-listed equity investments	2,381,100	-	-	2,381,100
	₱6,126,998,276	₱178,482,842	₱5,299,917,544	₱648,597,890

*Excluding advances to contractors and suppliers amounting to ₱4.3 million.

**Included as part of "Other noncurrent assets" account in the consolidated statements of financial position.

b) Impairment

The adoption of PFRS 9 has fundamentally changed the Company's accounting for impairment losses for financial assets by replacing PAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

PFRS 9 requires the Company to recognize an allowance for ECLs for all debt instruments not held at FVTPL and contract assets.

- Amendments to PFRS 2, *Share-based Payment, Classification and Measurement of Share-based Payment Transactions*

The amendments to PFRS 2 address three main areas: the effects of vesting conditions on the measurement of a cash-settled share-based payment transaction; the classification of a share-based payment transaction with net settlement features for withholding tax obligations; and the accounting where a modification to the terms and conditions of a share-based payment transaction changes its classification from cash-settled to equity-settled. Entities are required to apply the amendments to: (1) share-based payment transactions that are unvested or vested but unexercised as of January 1, 2018, (2) share-based payment transactions granted on or after January 1, 2018 and to (3) modifications of share-based payments that occurred on or after

January 1, 2018. Retrospective application is permitted if elected for all three amendments and if it is possible to do so without hindsight.

- Amendments to PFRS 4, *Insurance Contracts, Applying PFRS 9, Financial Instruments, with PFRS 4*

The amendments address concerns arising from implementing PFRS 9, the new financial instruments standard before implementing the new insurance contracts standard. The amendments introduce two options for entities issuing insurance contracts: a temporary exemption from applying PFRS 9 and an overlay approach. The temporary exemption is first applied for reporting periods beginning on or after January 1, 2018. An entity may elect the overlay approach when it first applies PFRS 9 and apply that approach retrospectively to financial assets designated on transition to PFRS 9. The entity restates comparative information reflecting the overlay approach if, and only if, the entity restates comparative information when applying PFRS 9.

- Amendments to PAS 28, *Investments in Associates and Joint Ventures, Measuring an Associate or Joint Venture at Fair Value (Part of Annual Improvements to PFRSs 2014 - 2016 Cycle)*

The amendments clarify that an entity that is a venture capital organization, or other qualifying entity, may elect, at initial recognition on an investment-by-investment basis, to measure its investments in associates and joint ventures at FVTPL. They also clarify that if an entity that is not itself an investment entity has an interest in an associate or joint venture that is an investment entity, the entity may, when applying the equity method, elect to retain the fair value measurement applied by that investment entity associate or joint venture to the investment entity associate's or joint venture's interests in subsidiaries. This election is made separately for each investment entity associate or joint venture, at the later of the date on which (a) the investment entity associate or joint venture is initially recognized; (b) the associate or joint venture becomes an investment entity; and (c) the investment entity associate or joint venture first becomes a parent. Retrospective application is required.

- Amendments to PAS 40, *Investment Property, Transfers of Investment Property*

The amendments clarify when an entity should transfer property, including property under construction or development into, or out of investment property. The amendments state that a change in use occurs when the property meets, or ceases to meet, the definition of investment property and there is evidence of the change in use. A mere change in management's intentions for the use of a property does not provide evidence of a change in use. Retrospective application of the amendments is not required and is only permitted if this is possible without the use of hindsight.

- Philippine Interpretation International Financial Reporting Interpretations Committee (IFRIC) 22, *Foreign Currency Transactions and Advance Consideration*

The interpretation clarifies that, in determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which an entity initially recognizes the nonmonetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, then the entity must determine the date of the transaction for each payment or receipt of advance consideration. Retrospective application of this interpretation is not required.

4. Future Changes in Accounting Policies

The Company intends to adopt the following standards and interpretations enumerated below when these become effective. Except as otherwise indicated, the Company does not expect the adoption of these new and amended PFRS and Philippine Interpretations to have significant impact on its consolidated financial statements.

Effective beginning on or after January 1, 2019

- Amendments to PFRS 9, *Prepayment Features with Negative Compensation*

Under PFRS 9, a debt instrument can be measured at amortized cost or at fair value through other comprehensive income, provided that the contractual cash flows are solely payments of principal and interest on the principal amount outstanding (the SPPI criterion) and the instrument is held within the appropriate business model for that classification. The amendments to PFRS 9 clarify that a financial asset passes the SPPI criterion regardless of the event or circumstance that causes the early termination of the contract and irrespective of which party pays or receives reasonable compensation for the early termination of the contract. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted.

- PFRS 16, *Leases*

PFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under PAS 17, *Leases*. The standard includes two recognition exemptions for lessees – leases of “low-value” assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under PFRS 16 is substantially unchanged from today’s accounting under PAS 17. Lessors will continue to classify all leases using the same classification principle as in PAS 17 and distinguish between two types of leases: operating and finance leases.

PFRS 16 also requires lessees and lessors to make more extensive disclosures than under PAS 17. The amendments should be applied retrospectively and are effective from January 1, 2019, with earlier application permitted.

A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard’s transition provisions permit certain reliefs.

The Company is currently assessing the impact of adopting PFRS 16.

- Amendments to PAS 19, *Employee Benefits, Plan Amendment, Curtailment or Settlement*

The amendments to PAS 19 address the accounting when a plan amendment, curtailment or settlement occurs during a reporting period. The amendments specify that when a plan amendment, curtailment or settlement occurs during the annual reporting period, an entity is required to:

- Determine current service cost for the remainder of the period after the plan amendment, curtailment or settlement, using the actuarial assumptions used to remeasure the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event.
- Determine net interest for the remainder of the period after the plan amendment, curtailment or settlement using: the net defined benefit liability (asset) reflecting the benefits offered under the plan and the plan assets after that event; and the discount rate used to remeasure that net defined benefit liability (asset).

The amendments also clarify that an entity first determines any past service cost, or a gain or loss on settlement, without considering the effect of the asset ceiling. This amount is recognized in profit or loss. An entity then determines the effect of the asset ceiling after the plan amendment, curtailment or settlement. Any change in that effect, excluding amounts included in the net interest, is recognized in other comprehensive income.

The amendments apply to plan amendments, curtailments, or settlements occurring on or after the beginning of the first annual reporting period that begins on or after January 1, 2019, with early application permitted. These amendments will apply only to any future plan amendments, curtailments, or settlements of the Company.

- Amendments to PAS 28, *Long-term Interests in Associates and Joint Ventures*

The amendments clarify that an entity applies PFRS 9 to long-term interests in an associate or joint venture to which the equity method is not applied but that, in substance, form part of the net investment in the associate or joint venture (long-term interests). This clarification is relevant because it implies that the expected credit loss model in PFRS 9 applies to such long-term interests.

The amendments also clarified that, in applying PFRS 9, an entity does not take account of any losses of the associate or joint venture, or any impairment losses on the net investment, recognized as adjustments to the net investment in the associate or joint venture that arise from applying PAS 28, *Investments in Associates and Joint Ventures*.

The amendments should be applied retrospectively and are effective from January 1, 2019, with early application permitted.

- Philippine Interpretation IFRIC-23, *Uncertainty over Income Tax Treatments*

The interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of PAS 12, *Income Taxes*, and does not apply to taxes or levies outside the scope of PAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments.

The interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately
- The assumptions an entity makes about the examination of tax treatments by taxation authorities
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates
- How an entity considers changes in facts and circumstances

An entity must determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty should be followed.

The Company is currently assessing the impact of adopting this interpretation.

- *Annual Improvements to PFRSs 2015-2017 Cycle*

- *Amendments to PFRS 3, Business Combinations, and PFRS 11, Joint Arrangements, Previously Held Interest in a Joint Operation*

The amendments clarify that, when an entity obtains control of a business that is a joint operation, it applies the requirements for a business combination achieved in stages, including remeasuring previously held interests in the assets and liabilities of the joint operation at fair value. In doing so, the acquirer remeasures its entire previously held interest in the joint operation.

A party that participates in, but does not have joint control of, a joint operation might obtain joint control of the joint operation in which the activity of the joint operation constitutes a business as defined in PFRS 3. The amendments clarify that the previously held interests in that joint operation are not remeasured.

An entity applies those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2019 and to transactions in which it obtains joint control on or after the beginning of the first annual reporting period beginning on or after January 1, 2019, with early application permitted.

- *Amendments to PAS 12, Income Tax Consequences of Payments on Financial Instruments Classified as Equity*

The amendments clarify that the income tax consequences of dividends are linked more directly to past transactions or events that generated distributable profits than to distributions to owners. Therefore, an entity recognizes the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognized those past transactions or events.

An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application is permitted.

- *Amendments to PAS 23, Borrowing Costs, Borrowing Costs Eligible for Capitalization*

The amendments clarify that an entity treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary

to prepare that asset for its intended use or sale are complete.

An entity applies those amendments to borrowing costs incurred on or after the beginning of the annual reporting period in which the entity first applies those amendments. An entity applies those amendments for annual reporting periods beginning on or after January 1, 2019, with early application permitted.

Effective beginning on or after January 1, 2020

- Amendments to PFRS 3, *Definition of a Business*

The amendments to PFRS 3 clarify the minimum requirements to be a business, remove the assessment of a market participant's ability to replace missing elements, and narrow the definition of outputs. The amendments also add guidance to assess whether an acquired process is substantive and add illustrative examples. An optional fair value concentration test is introduced which permits a simplified assessment of whether an acquired set of activities and assets is not a business.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*.

The amendments refine the definition of material in PAS 1 and align the definitions used across PFRSs and other pronouncements. They are intended to improve the understanding of the existing requirements rather than to significantly impact an entity's materiality judgements.

An entity applies those amendments prospectively for annual reporting periods beginning on or after January 1, 2020, with earlier application permitted.

Effective beginning on or after January 1, 2021

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2021, with comparative figures required. Early application is permitted.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

5. Summary of Significant Accounting Policies

Current versus Noncurrent Classification

The Company presents assets and liabilities in the consolidated statement of financial position based on current or noncurrent classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when it is:

- Expected to be settled in its normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less

from the date of acquisition and are subject to an insignificant risk of change in value. Cash in bank and short-term deposits earn interest at the prevailing bank deposit rates.

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a nonfinancial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2: valuation techniques for which the lowest level of input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3: valuation techniques for which the lowest level of input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring and nonrecurring fair value measurements.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

"Day 1" Difference

When the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Company recognizes the difference between the transaction price and fair value (a "Day 1" difference) in profit or loss unless it qualifies for

recognition as some other type of asset. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in profit or loss when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the “Day 1” difference amount.

Financial Instruments - Initial Recognition and Subsequent Measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Date of Recognition of Financial Assets. The Company recognizes financial assets in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on trade date, i.e., the date the Company commits to purchase or sell the asset.

Initial Recognition of Financial Assets. Financial assets are recognized initially at fair value plus, in the case of investments not at FVTPL, transaction costs that are attributable to the acquisition of the financial asset.

Categories of Financial Assets and Subsequent Measurement.

a. Categories of Financial Assets and Subsequent Measurement Prior to Adoption of PFRS 9

Financial assets are classified as financial assets FVTPL, loans and receivables, held-to-maturity (HTM) investments, AFS financial assets or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition and where allowed and appropriate, re-evaluates such classification every financial reporting date.

The Company has no HTM investments as at December 31, 2017.

- *Financial Assets at FVTPL.* Financial assets at FVTPL include financial assets held for trading, derivative financial instruments and those designated upon initial recognition at FVTPL.

Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are accounted for as financial assets at FVTPL unless they are designated as effective hedging instruments as defined by PAS 39.

Financial assets at FVTPL are carried in the consolidated statement of financial position at fair value with net changes in fair value presented as “Unrealized marked-to-market gain” (positive net changes in fair value) or “Unrealized marked-to-market loss” (negative net changes in fair value) in the profit or loss. Interest earned or incurred is recorded as interest income or expense, respectively, while dividend income is recorded as other income according to the terms of the contract, or when the right of payment has been established.

Derivatives embedded in host contracts are accounted for as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contracts and the host contracts are not held for trading or designated at fair value through profit or loss. These embedded derivatives are measured at fair value with

changes in the fair value recognized in profit or loss. Remeasurement only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

The Company evaluates its financial assets at FVTPL (held for trading) whether the intent to sell them in the near term is appropriate. When the Company is unable to trade these financial assets due to inactive markets and management's intent to sell them in the foreseeable future significantly change, the Company may elect to reclassify these financial assets in rare circumstances. The reclassification to loans and receivables, AFS financial assets or HTM investments depends on the nature of the asset. This evaluation does not affect any financial assets designated at FVTPL using the fair value option at designation.

The Company's investments held for trading are classified as financial assets at FVTPL. The Company has no derivatives designated as hedging instruments as at December 31, 2017.

- *Loans and Receivables.* Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are carried at amortized cost using the effective interest rate (EIR) method, less any impairment in value. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are not integral part of the EIR. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired, as well as through the amortization process.

Loans and receivables are classified as current assets when the Company expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

As at December 31, 2017, this category includes the Company's cash and cash equivalents, receivables (excluding advances to contractors and suppliers), notes receivables, deposits and guarantee bonds (presented as part of "Other current assets").

- *AFS Financial Assets.* AFS financial assets are non-derivative financial assets that are designated as AFS or do not qualify to be classified as loans and receivables, financial assets at FVTPL or HTM investments. AFS financial assets include equity investments. Equity investments classified as AFS are those which are intended to be held for an indefinite period of time and are neither classified as held for trading nor designated as at FVTPL. Debt securities in this category are those that are intended to be held for an indefinite period of time and may be sold in response to needs for liquidity or in response to changes in the market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealized gains or losses recognized under other comprehensive income until the financial asset is derecognized or determined to be impaired at which time the accumulated gains or losses previously reported under other comprehensive income are reclassified to profit or loss. Interest earned whilst holding AFS financial assets is reported as interest income using effective interest rate method. AFS financial assets that are not quoted in an active market and whose fair value cannot be measured reliably are measured at cost, being the fair value of the consideration paid for the acquisition of the investment. All transaction costs directly attributable to the acquisition are also included in the cost of investment. If a reliable measure ceases to be available, AFS financial assets are thereafter measured at cost, which is deemed to be the fair value carrying amount at that date. Assets under this category are

classified as current assets if expected to be realized within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

The Company designates financial instruments as AFS if they are purchased and held indefinitely and may be sold in response to liquidity requirements or changes in market conditions.

As at December 31, 2017, this category includes the Company's investments in shares of stock.

b. Categories of Financial Assets and Subsequent Measurement Upon Adoption of PFRS 9

Financial assets are classified as financial assets measured at amortized cost, FVTPL and FVOCI.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are SPPI on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

For the purpose of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

The Company has no financial assets through OCI with recycling of cumulative gains or losses (debt instruments) as at December 31, 2018.

- *Financial Assets at FVTPL.* Financial assets at FVTPL include financial assets held for trading, financial assets designated upon initial recognition at FVTPL, or financial assets mandatorily required to be measured at fair value.

Financial assets are classified as held for trading if they are acquired for the purpose of

selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are accounted for as financial assets at FVTPL unless they are designated as effective hedging instruments as defined by PFRS 9. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at FVTPL, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at fair value through OCI, as described above, debt instruments may be designated at FVTPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVTPL are carried in the consolidated statement of financial position at fair value with net changes in fair value presented as “Unrealized marked-to-market gain” (positive net changes in fair value) or “Unrealized marked-to-market loss” (negative net changes in fair value) in the profit or loss. Interest earned or incurred is recorded as interest income or expense, respectively, while dividend income is recorded as other income according to the terms of the contract, or when the right of payment has been established.

As at December 31, 2018, the Company’s investments held for trading are classified as financial assets at FVTPL. The Company has no derivatives designated as hedging instruments as at December 31, 2018.

- *Financial assets at Amortized Cost.* The Company measures financial assets at amortized cost if both of the following conditions are met:
 - The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
 - The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using EIR method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

Financial assets at amortized cost are classified as current assets when the Company expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

As at December 31, 2018, this category includes the Company’s cash and cash equivalents, receivables (excluding advances to contractors and suppliers), notes receivables, deposits and guarantee bonds (presented as part of “other current assets” and “other noncurrent assets”).

- *Financial Assets designated at FVOCI (equity instruments).* Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Company elected to classify irrevocably its non-listed equity investments under this category. As at December 31, 2018, this category includes the Company's investments in shares of stock.

Financial Liabilities

Date of Recognition of Financial Liabilities. The Company recognizes financial liabilities in the consolidated statement of financial position when it becomes a party to the contractual provisions of the instrument.

Initial Recognition of Financial Liabilities. Financial liabilities are recognized initially at fair value of the consideration received which is determined by reference to the transaction price or other market prices, and in the case of other financial liabilities, inclusive of any directly attributable transaction costs. If such market prices are not reliably determinable, the fair value of the consideration is estimated as the sum of all future cash payments or receipts, discounted using the prevailing market rates of interest for similar instruments with similar maturities.

Categories of Financial Liabilities and Subsequent Measurement. Financial liabilities are classified as financial liabilities at FVTPL or other financial liabilities which are measured at amortized cost or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial liabilities at initial recognition and where allowed and appropriate, re-evaluates such classification every financial reporting date.

The Company has no financial liabilities at FVTPL and derivatives designated as hedging instruments as at December 31, 2018 and 2017.

- *Other Financial Liabilities.* This category pertains to financial liabilities that are not held for trading or not designated as at FVTPL upon the inception of the liability where the substance of the contractual arrangements results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to exchange financial assets or financial liabilities with the holder under conditions that are potentially unfavorable to the Company. These include liabilities arising from operations or borrowings.

After initial recognition, other financial liabilities are subsequently measured at amortized cost using the EIR. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Gains and losses are recognized in profit or loss in the consolidated statement of comprehensive income when the liabilities are derecognized as well as through the amortization process. Other financial liabilities are included in current liabilities if maturity is within 12 months from the reporting date or the Company does not have an unconditional right to defer payment for at least 12 months from the reporting date. Otherwise, these are classified as noncurrent liabilities.

The Company's liabilities arising from operations such as trade payables and other current liabilities (excluding statutory payables), unearned income, obligations under finance lease and installment payable are classified under this category.

Classification of Financial Instruments between Liability and Equity

A financial instrument is classified as liability if it provides for a contractual obligation to:

- Deliver cash or another financial asset to another entity; or
- Exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the Company; or

- Satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares

If the Company does not have an unconditional right to avoid delivering cash or another financial asset to settle its contractual obligation, the obligation meets the definition of a financial liability.

Impairment of Financial Assets

a. Impairment of Financial Assets Prior to Adoption of PFRS 9

The Company assesses at each reporting period whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred “loss event”) and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows such as changes in arrears or economic conditions that correlate with defaults.

Financial Assets Carried at Amortized Cost. For financial assets carried at amortized cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant and collectively for financial assets that are not individually significant. If it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the asset is included in a group of financial assets with similar credit risk characteristics and that group of financial assets is collectively assessed for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the financial asset’s original EIR. The carrying amount of the financial asset is reduced through use of an allowance account and the amount of the loss is recognized in profit or loss. Interest income continues to be accrued on the reduced carrying amount based on the EIR of the asset.

The Company provides an allowance for loans and receivables which they deemed to be uncollectible despite the Company’s continuous effort to collect such balances from the respective clients. The Company considers those past due receivables as still collectible if they become past due only because of a delay on the fulfillment of certain conditions as agreed in the contract and not due to incapability of the customers to fulfill their obligation. However, for those receivables associated with pre-terminated contracts, the Company directly writes them off from the account since there is no realistic prospect of future recovery.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other income in the profit or loss. Any subsequent reversal of an impairment loss is recognized in profit or loss, to the extent that the carrying value of the

asset does not exceed what its amortized cost would have been had the impairment not been recognized at the date the impairment is reversed.

AFS Financial Assets. For equity investments classified as financial assets, the Company assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as AFS, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. “Significant” is to be evaluated against the original cost of the investment and “prolonged” against the period in which the fair value has been below its original cost. When there is evidence of impairment, the cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognized in the consolidated statement of income) is removed from other comprehensive income and recognized in the consolidated statement of income. Impairment losses on equity investments are not reversed through profit or loss. Increases in their fair value after impairment are recognized directly in other comprehensive income.

The determination of what is “significant” or “prolonged” required judgment. In making this judgment, the Company evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

In the case of debt instruments classified as AFS, the impairment is assessed based on the same criteria as financial assets carried at amortized cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortized cost and the current fair value, less any impairment loss on that investment previously recognized in the consolidated statement of income.

Financial Assets Carried at Cost. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument has been incurred, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

b. Impairment of Financial Assets Upon Adoption of PFRS 9

The Company recognizes an allowance for expected credit losses (ECL) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

For financial assets for which the Company has no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the financial asset.

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to profit or loss.

Offsetting of Financial Assets and Financial Liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if, and only if, there is a currently enforceable right to offset the recognized amounts and there is intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Company assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Company and all of the counterparties.

Derecognition of Financial Assets and Financial Liabilities

Financial Assets. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the assets have expired; or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass through” arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a “pass-through” arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the asset is recognized to the extent of the Company’s continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial Liabilities. A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss in the consolidated statement of income.

Intangible Asset

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangible assets, excluding capitalized development costs, are not capitalized and the related expenditure is reflected in the consolidated statement of comprehensive income in the year the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of income in the expense category consistent with the function of intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in the useful life from the indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of income when the asset is derecognized.

The Company made upfront payments to purchase a license. The license has been granted for a period of 18.6 years, renewable for another 25 years, by the relevant government agency. The license was assessed as having a finite life and is amortized on a straight line basis over the period of the license (i.e., 43.6 years).

Property and Equipment

Property and equipment are stated at cost, excluding the cost of day-to-day servicing, less accumulated depreciation, amortization and accumulated impairment losses, if any. Such cost consists of the purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. The cost of replacing part of the property and equipment is included in the carrying amount when the cost incurred meets the recognition criteria. When major repairs and maintenance is performed, its cost is recognized in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are charged against consolidated statement of income.

Depreciation and amortization is computed using the straight-line method over the following estimated useful lives of the assets:

Lottery equipment	4-10 years or term of lease, whichever is shorter
Leasehold improvements	4 years or term of lease, whichever is shorter
Transportation equipment	4-5 years
Office equipment, furniture and fixtures	3-4 years

The assets' residual values, useful lives, and depreciation and amortization method are reviewed, and adjusted if appropriate, at each financial year-end to ensure that the periods and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement income in the year the asset is derecognized.

Fully depreciated property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged to current operations.

Noncurrent Asset Held for Sale

Noncurrent asset is classified as held for sale when it is expected that the carrying amount will be recovered principally through sale rather than from continuing use. For this to be the case, the asset must be available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such asset and its sale must be highly probable.

For the sale to be highly probable:

- The BOD must be committed to a plan to sell the asset and an active program to locate a buyer and complete the plan must have been initiated
- The asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value
- The sale should be expected to qualify for recognition as a completed sale within one year from the date of classification

Noncurrent asset classified as held for sale is measured at the lower of its carrying amount and fair value less costs to sell. Assets classified as held for sale are presented separately as current items in the consolidated statement of financial position.

Investment properties

The Company applied cost model in measuring its investment properties.

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, less impairment, which reflects market conditions at the reporting date.

Investment properties are derecognized when either they have been disposed of or when permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition. The amount of consideration to be included in the gain or loss arising from the derecognition of investment property is determined in accordance with the requirements for determining the transaction price in PFRS 15.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

Asset Acquisition

When property is acquired, through corporate acquisitions or otherwise, management considers the substance of the assets and activities of the acquired entity in determining whether the acquisition represents an acquisition of a business.

When such an acquisition is not judged to be an acquisition of a business, it is not treated as a business combination. Rather, the cost to acquire the entity is allocated between the identifiable assets and liabilities of the entity based on their relative fair values at the acquisition date. Accordingly, no goodwill or additional deferred tax arises.

Business Combinations

Business combinations are accounted for using the acquisition method except for business combinations under common control in which accounting similar to pooling of interest method is used. Business combinations under common control are those in which all of the combining entities or businesses are controlled by the same party or parties both before and after the business combination, and that control is not transitory. Under the acquisition method, the cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any NCI in the acquiree either at fair value or the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs incurred are expensed and included in "General and administrative expenses" account in the consolidated statement of income.

For accounting similar to pooling of interest method, the assets, liabilities and equity of the acquired companies for the reporting period in which the common control business combinations occur, and for any comparative periods presented, are included in the consolidated financial statements of the Company at their carrying amounts as if the combinations had occurred from the date when the acquired companies first became under the control of the Company. The excess of the cost of business combinations over the net carrying amounts of the assets and liabilities of the acquired companies is recognized as part of "Additional paid-in capital" account in the equity section of the consolidated statement of financial position.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss. It is then considered in the determination of goodwill.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PFRS 9 is measured at fair value with changes in fair value recognized in either profit or loss or as a change to other comprehensive income. If the contingent consideration is not within the scope of PFRS 9, it is measured at fair value at each reporting date with the changes in fair value recognized in the profit or loss. If the contingent consideration is classified as equity, it should not be remeasured, and subsequent settlement is accounted for within equity.

Goodwill

Goodwill acquired in business combination is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests and any previous interest held, over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in the consolidated statement of income.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company measures in its consolidated financial statements provisional accounts for the items for which the accounting is incomplete. During the measurement period, the Company retrospectively adjusts the provisional accounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date, and, if known, would have affected the measurement of the amounts recognized as of that date. During the measurement period, the Company also recognizes additional assets or liabilities if new information is obtained about facts and circumstances that existed as of the acquisition date and, if known, would have resulted in the recognition of those assets and liabilities as of that date. The measurement period ends as soon as the Company receives the information it was seeking about facts and circumstances that existed as of the acquisition date or learns that more information is not obtainable. The measurement period does not exceed one year from the acquisition date.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash generating units, or group of cash generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or groups of units. Each unit or group of units to which goodwill is allocated:

- represents the lowest level within the Company at which the goodwill is monitored for internal management purposes; and
- is not larger than an operating segment or determined in accordance with PFRS 8, *Operating Segment*.

Impairment is determined by assessing the recoverable amount of the cash generating unit or group of cash generating units, to which the goodwill relates. When the recoverable amount of the cash generating unit or group of cash generating units is less than the carrying amounts, an impairment loss is recognized. Impairment loss with respect to goodwill cannot be reversed in future periods.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's CGU to which the goodwill is allocated. These budgets and forecast calculations generally cover a period of five years. A long-term growth rate is calculated and applied to projected future cash flows after the fifth year.

When goodwill forms part of a cash generating unit or group of cash generating units and part of the operations within the unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed and the portion of the cash-generating unit retained.

When business combination involves more than one exchange transaction (occurs in stages), each exchange transaction is treated separately by the Company, using the cost of transaction and fair value information at the date of each exchange transaction, to determine the amount of goodwill associated with that transaction. Any adjustment to fair value relating to the previously held interest is a revaluation and is accounted for as such.

When subsidiaries are sold, the difference between the selling price and the net assets plus goodwill is recognized in profit or loss.

Spare Parts and Supplies

Instant scratch tickets, spare parts and supplies are included as part of "Other current assets" account in the consolidated statement of financial position. Instant scratch tickets are valued at cost less any impairment loss. Spare parts and supplies are valued at the lower of cost and net realizable value. Cost, which includes all costs attributable to acquisition, is determined using the first-in, first-out method. Net realizable value of spare parts and supplies is its current replacement cost.

Impairment of Nonfinancial Assets (excluding Goodwill)

The Company assesses at each reporting date whether there is an indication that the noncurrent asset held for sale, intangible asset and property and equipment may be impaired. If any such indication exists, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's CGU's fair value less cost to dispose and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less cost to sell, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples and other available fair value indicators. Any impairment loss is recognized in profit or loss in the expense category consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company makes an estimate of the asset's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment

loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of income.

Equity

Capital stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Proceeds and/or fair value of consideration received in excess of par value are recognized as additional paid-in capital. The additional paid-in capital also includes the excess of the cost of the business combination under common control over the net carrying amounts of the assets and liabilities of the acquired companies.

The consolidated retained earnings includes the earnings of the subsidiaries which are not available for dividend declaration.

Subscription receivable represents the unpaid portion of subscription of capital shares by the investors.

Treasury shares and Cost of Parent Company Shares Held by a Subsidiary

The Company's own reacquired equity instruments are deducted from equity. No gain or loss is recognized in the consolidated statement of income on the purchase, sale, issue or cancellation of the Company's own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in other reserves.

NCI

NCI represents the portion of profit or loss and the net assets not held by the Parent Company and are presented separately in the consolidated statement of income and within equity in the consolidated statement of financial position, separately from total equity attributable to owners of the Parent Company. Any losses applicable to a non-controlling shareholder of a consolidated subsidiary in excess of the non-controlling shareholder's equity in the subsidiary are charged against the NCI even if this results in NCI having a deficit.

NCI represents the equity interest in POSC not held by the Parent Company.

Revenue Recognition

a. Revenue Recognition Prior to Adoption of PFRS 15

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the amount of the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty.

b. Revenue from Contracts with Customers Upon Adoption of PFRS 15

Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. Except for the “Commission Income”, the Company has concluded that it is acting as principal in all of its revenue arrangements since it is the principal obligor in all the revenue arrangements because it typically controls the services before transferring them to the customer.

The following specific recognition criteria must also be met before revenue is recognized:

Gaming Revenue Share. Revenue representing monthly payments from Melco Resorts Leisure (PHP) Corporation (Melco), formerly MCE Leisure (Philippines) Corporation, based on the performance of gaming operations of City of Dreams Manila integrated resort and casino is recognized when earned pursuant to the Operating Agreement and is measured at the fair value of the consideration received, net of Philippine Amusement and Gaming Corporation (PAGCOR) license fee.

In determining the transaction price for gaming revenue share, the Company considers the effect of variable consideration. The Company estimates the amount of consideration to which it will be entitled in exchange for transferring the service to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

Interest Income. Interest income is recognized as the interest accrues taking into account the effective yield on the asset.

Dividend Income. Revenue is recognized when the Company’s right to receive the payment is established.

Equipment Rental. Revenue is recognized based on a certain percentage of gross sales of the lessee’s online lottery operations, as computed by the lessee in accordance with the agreement, or a fixed annual rental per terminal in commercial operations, whichever is higher.

Commission and Distribution Income. Revenues from the distribution of lottery, sweepstakes and scratch tickets to customers, including retailers and sub-distributors, representing the Company’s share from the sales, are recognized upon delivery of the tickets to the customers. Revenue from the monthly fixed payment from Powerball Marketing & Logistics Corp. (PMLC), formerly Powerball Gaming and Entertainment Corporation, is recognized monthly in accordance with the Outsourcing Memorandum of Agreement (OMOA).

Brand and trademark income. Income is recognized at point in time upon transfer of a non-assignable, non-transferable and exclusive right to use of instant scratch tickets’ brand and trademarks.

Other Income. These are recognized when there are incidental economic benefits, other than the usual business operations, that will flow to the Company and can be measured reliably.

Costs and Expenses Recognition

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or decreases of assets and incurrence of liabilities that result in decrease in equity, other than those relating to distributions to equity participants. Costs and expenses are recognized in consolidated statement of income on the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association with income can only be broadly or indirectly determined; or immediately when expenditure produces no

future economic benefits, or when, and to the extent that, future economic benefits do not qualify, cease to qualify, for recognition in the consolidated statement of financial position as an asset.

Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that asset is (or those assets are) not explicitly specified in the arrangement.

Company as Lessee. A lease is classified at the inception date as a finance lease or an operating lease.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are charged against profit or loss in the consolidated statement of income on a straight-line basis over the lease term.

Finance leases, which transfer to the Company substantially all the risks and rewards incidental to ownership of the leased item, are capitalized at the inception of the lease at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in profit or loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Company as Lessor. Leases where the Company does not transfer substantially all the risks and rewards of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Retirement Costs

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reduction in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, difference between interest income and return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognized in the profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Company, nor can they be paid directly to the Company. Fair value of plan assets is based on the market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a different rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations.) If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Company's right to be reimbursed if some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Actuarial valuations are made with sufficient regularity that the amounts recognized in the consolidated financial statements do not differ materially from the amounts that would be determined in the reporting period.

Foreign Currency-denominated Transactions and Translation

Transactions denominated in foreign currency are recorded in Philippine peso by applying to the foreign currency amount the exchange rate between the Philippine peso and the foreign currency at the date of transaction. Monetary assets and monetary liabilities denominated in foreign currencies are translated using the Philippine peso closing exchange rate at the reporting date. All differences arising from the settlement or translation are taken to consolidated statement of income with the exception of differences on foreign currency exchange borrowings that provide a hedge against a net investment in a foreign entity. These are recorded as part of other comprehensive income and taken to equity until the disposal of the net investment, at which time they are recognized in net loss in the consolidated statement of income. Tax charges and credits attributable to exchange rate differences on those borrowings are also dealt with in equity. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rate at the date when the fair value was determined.

Taxes

Current Income Tax. Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to item recognized directly in equity is recognized in equity and not in the profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Income Tax. Deferred income tax is provided using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and by the parent, venture or investor, respectively, it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of unused tax credits and any unused tax losses from excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carryforward benefits of unused tax credits and unused NOLCO can be utilized, except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and levied for the same taxation authority.

Value-Added Tax (VAT). Revenues, expenses and assets are recognized net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the balance sheet. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the consolidated statement of financial position to the extent of the recoverable amount.

The carrying value of input VAT is included under “Other current assets” account in the consolidated statement of financial position.

Earnings per Share

Basic earnings per share is computed by dividing net profit for the year attributable to common equity holders of the parent by the weighted average number of issued and outstanding common shares during the year, after giving retroactive effect to any stock dividends declared during the year.

Diluted earnings per share is computed by dividing net profit or loss for the year attributable to common equity holders of the parent by the weighted average number of issued and outstanding common shares during the year plus the weighted average number of common shares that would be issued on conversion of all the dilutive potential common shares into common shares. The calculation of diluted earnings per share does not assume conversion, exercise or other issue of potential common shares that would have anti-dilutive effects on earnings per share.

As the Company has no dilutive potential common shares outstanding, basic and diluted earnings per share are stated at the same amount.

Business Segments

The Company’s operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and services.

Segment Assets and Liabilities. Segment assets include all operating assets used by a segment and consist principally of operating cash, receivables, real estate for sale, club shares, other equity shares and property and equipment, net of accumulated depreciation and impairment. Segment liabilities include all operating liabilities and consist principally of accounts payable and other liabilities. Segment assets and liabilities do not include investments and advances.

Inter-segment Transactions. Segment revenue, segment expenses, and segment performance include transfers among business segments. Such transfers are eliminated upon consolidation.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and, a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented as part of profit or loss in the consolidated statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pretax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

Events after the Reporting Period

Post year-end events that provide additional information about the Company's financial position at the reporting period (adjusting events), if any, are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

6. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's consolidated financial statements requires management to make judgments, estimates, and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosures of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment in the future to the carrying amount of the asset or liability affected.

Judgments and estimates are continually evaluated and are based on experience and other factors, including expectations of future events that are to believe to be reasonable under the circumstances.

Judgments

In the process of applying the accounting policies, management has made the following judgments, apart from those involving estimations, which has the most significant effect on the amounts recognized in the consolidated financial statements.

Revenue from Contracts with Customers. The Company has identified the following judgments that significantly affect the determination of the amount and timing of revenue from contracts with customers.

- *Determining method to estimate variable consideration and assessing the constraint.* In estimating variable consideration for the gaming revenue share, PLAI is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

PLAI determined that the most likely amount method is more appropriate for PLAI's contract with single volume threshold.

Before including any amount of variable consideration in the transaction price, PLAI considers whether the amount of variable consideration is constrained. PLAI determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

- *Significant financing component in a contract.* POSC entered into a brand and trademark license agreement, where POSC granted its customer a non-assignable, non-transferable and exclusive right to use POSC's instant scratch tickets' brand and trademark, effective January 1, 2018. The contract provides right to use to the customer, which exists at a point in time (i.e., January 1, 2018) and the customer gains control over the brand and trademark at the beginning of the period. Thus, the revenue, from which collection shall be received over five years, shall be recognized at the beginning of the period. POSC has concluded that there is a significant financing component considering the length of time between the transfer of control and customer's payments. The impact of the significant financing component is disclosed in Note 3.

Business Combinations. At the time of acquisition, the Company considers whether the acquisition represents an acquisition of a business or a group of assets and liabilities. The Company accounts for an acquisition as a business combination where an integrated set of business processes is acquired in addition to the asset acquired. More specifically, consideration is made of the extent to which significant processes are acquired and, in particular, the extent of services provided by the subsidiary.

When the acquisition of subsidiary does not constitute a business, it is accounted for as an acquisition of a group of assets and liabilities. The cost of the acquisition is allocated to the assets and liabilities acquired based upon their relative fair values and no goodwill or deferred tax is recognized.

Please refer to Note 16 for the Company's most recent business combinations.

Determining Subsidiaries with Material Non-controlling Interests. The Company is required to disclose certain financial information on its subsidiaries with material non-controlling interests. There are also qualitative considerations including the nature of relationship between the Company and the subsidiary and the nature of their businesses.

Management determines material subsidiaries with material non-controlling interests as those with assets, non-controlling interests, revenues and net income greater than 5% of consolidated assets, non-controlling interests, revenues and net income.

The Company has determined POSC in 2018 and 2017 as a subsidiary with material non-controlling interests.

Evaluation of Lease Commitments. The evaluation of whether an arrangement contains a lease is based on its substance. An arrangement is, or contains a lease when the fulfillment of the arrangement depends on specific asset or assets and the arrangement conveys a right to use the asset.

Operating Lease - as a Lessor. POSC and TGTI leases to Philippine Charity Sweepstakes Office (PCSO) the lottery equipment it uses for its nationwide on-line lottery operations. POSC and TGTI has determined that it has retained substantially all the risks and benefits of ownership of the lottery equipment being leased to PCSO. The ownership of the asset is not transferred to the lessee by the end of the lease term, the lessee has no option to purchase the asset at a price that is expected to be

sufficiently lower than the fair value at the date the option is exercisable, and, the lease term is not for the major part of the asset's economic life. Accordingly, the lease is accounted for as an operating lease.

Revenue from equipment rental amounted to ₱1,448.3 million, ₱1,840.5 million and ₱1,579.7 million in 2018, 2017 and 2016, respectively (see Note 27).

Operating Lease - as a Lessee. The Company has entered into various lease agreements as a lessee. Management has determined that all the significant risks and benefits of ownership of these properties, which the Company leases under operating lease arrangements, remain with the lessor. Accordingly, the leases were accounted for as operating leases.

Rent expense amounted to ₱126.6 million, ₱87.1 million and ₱46.2 million in 2018, 2017 and 2016, respectively (see Note 27).

Finance Lease - as a Lessee. POSC entered into various finance lease agreements covering certain lottery equipment. POSC determined that it bears substantially all the risks and rewards incidental to the ownership of the said properties under finance lease agreements.

The carrying values of lottery equipment under finance lease arrangements amounted to ₱30.9 million and ₱103.7 million as at December 31, 2018 and 2017, respectively (see Notes 14 and 27).

Classification of Noncurrent Asset Held for Sale. An asset is classified as held for sale if the asset will be recovered principally through a sale transaction rather than through continuing use. In 2017, Management assessed that it met the criteria of a noncurrent asset held for sale following the requirements of PFRS 5, *Non-current Assets Held for Sale and Discontinued Operations*, which include, among others:

- On June 2, 2014, the Company's BOD approved to sell to Belle its non-gaming related assets, which includes the undeveloped land located in the City of Tanauan, Province of Batangas. PLC is committed to sell its land.
- The land is available for immediate sale and can be sold in its current condition.

The carrying values of noncurrent asset held for sale amounted to ₱285.5 million as at December 31, 2017 (see Note 15).

As at December 31, 2018, the sale was not yet finalized. It does not anymore qualify as noncurrent asset held for sale, thus, the asset was reclassified to investment property (see Note 15).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Determination of Fair Value of Financial Assets and Financial Liabilities. PFRs requires certain financial assets and liabilities to be carried and disclosed at fair value, which requires extensive use of accounting estimates and judgments. While significant components of fair value measurement were determined using verifiable objective evidence (i.e., foreign exchange rates, interest rates, volatility rates), the amount of changes in fair value would differ if the Company utilized a different valuation methodology. Any changes in the assumptions could affect the fair value of these financial assets and liabilities.

The fair value of financial assets and financial liabilities as at December 31, 2018 and 2017 are disclosed in Note 29.

Provision for Expected Credit Losses of Financial Assets at Amortized Cost (Upon Adoption of PFRS 9). The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selected inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

No provision for ECL recognized in 2018. Allowance for doubtful accounts amounted to ₱427.7 million as at December 31, 2018. The aggregate carrying values of receivables and notes receivables amounted to ₱4,056.7 million as at December 31, 2018 (see Notes 9 and 10).

Determination of Impairment of Receivables and Notes Receivables (Prior to Adoption of PFRS 9). The Company maintains allowance for doubtful accounts at a level considered adequate to provide for potential uncollectible receivables. The level of this allowance is evaluated by the management on the basis of factors that affect the collectability of the accounts. These factors include, but not limited to, the length of relationship with the customers and counterparties, the payment behavior and known market factors.

The Company reviews the allowance on a continuous basis. Accounts that are specifically identified to be potentially uncollectible are provided with adequate allowance through charges to income in the form of provision for doubtful accounts. Factors considered in individual assessment are payment history, past due status and term. A provision is also established as a certain percentage of receivables not provided with specific reserves. This percentage is based on a collective assessment of historical collection, changes in counterparty payment terms and other factors that may affect the Company's ability to collect payments.

The amount and timing of recorded provision for doubtful accounts for any period would differ if the Company made different judgments or utilized different estimates. An increase in the Company's allowance for doubtful accounts would increase the recorded general and administrative expenses and decrease its current assets.

Provision for doubtful accounts recognized in 2017 and 2016 amounted to ₱7.7 million and nil, respectively (see Notes 9 and 23). Allowance for doubtful accounts amounted to ₱434.4 million as at December 31, 2017. The aggregate carrying values of receivables and notes receivables amounted to ₱2,306.6 million as at December 31, 2017 (see Notes 9 and 10).

Determination of Impairment of AFS Financial Assets (Prior to Adoption of PFRS 9). The Company determines that AFS financial assets are impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The Company determines that a decline in fair value of greater than 20% of cost is considered to be a significant decline and a decline for a period of more than 12 months is considered to be a prolonged decline. This determination of what is significant or prolonged requires judgment. In making this judgment, the Company evaluates, among other factors, the normal volatility in share price for quoted equities. In addition, AFS financial assets are considered impaired when management believes that future cash flows generated from the investment is expected to decline significantly. The Company's management makes significant estimates and assumptions on the future cash flows expected and the appropriate discount rate to determine if impairment exists. Impairment may also be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

No provision for impairment loss was recognized in 2017 and 2016. The carrying values of AFS financial assets amounted to ₱648.6 million as at December 31, 2017 (see Note 13).

Determination of Impairment of Nonfinancial Assets (Except Goodwill). The Company assesses whether there are any indicators of impairment for all nonfinancial assets at each reporting date. Nonfinancial assets are tested for impairment when there are indicators that the carrying amount may not be recoverable. Determining the value of these nonfinancial assets, which requires the determination of future cash flows expected to be generated from the continued use and ultimate disposition of such assets, requires the Company to make estimates and assumptions that can materially affect the consolidated financial statements. Future events could cause the Company to conclude that such nonfinancial assets are impaired. Any resulting impairment loss could have a material adverse impact on the Company's financial position and performance.

No provision for impairment loss on investment property, intangible asset and property and equipment was recognized in 2018, 2017 and 2016.

The carrying values of nonfinancial assets (excluding goodwill) as at December 31, 2018 and 2017 are as follows:

	2018	2017
Investment property (see Note 15)	₱285,510,452	₱–
Noncurrent asset held for sale (see Note 15)	–	285,510,452
Intangible asset (see Note 12)	9,429,599,487	9,668,071,971
Property and equipment (see Note 14)	259,903,572	438,063,955

Realizability of Deferred Tax Assets. Deferred tax assets are recognized for all deductible temporary differences and unused tax credits and NOLCO to the extent that it is probable that taxable profit will be available against which the deferred tax assets can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Recognized deferred tax assets amounted to ₱8.9 million and ₱15.4 million as at December 31, 2018 and 2017, respectively. Unrecognized deferred tax assets amounted to ₱137.3 million and ₱135.7 million as at December 31, 2018 and 2017, respectively (see Note 25).

Estimating Impairment of Goodwill. The Company determines whether goodwill is impaired at least annually. This requires the estimation of the value in use of the CGUs to which the goodwill is allocated. Estimating value in use requires management to make an estimate of the expected future cash flows from the CGUs and to choose a suitable discount rate to calculate the present value of those cash flows.

The key assumptions used in the value in use calculations include discount rate, revenue growth rate and long-term growth rate (see Note 17).

Determination and Computation of Retirement Expense. The cost of retirement expense as well as the present value of the defined benefit obligation are determined using actuarial valuations. The actuarial valuation involves making various assumptions. These include the determination of the discount rates, future salary increases and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, defined benefit obligations are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Retirement expense charged to profit and loss amounted to ₱13.7 million, ₱12.9 million and ₱9.4 million in 2018, 2017 and 2016, respectively. Remeasurement gain (loss) on retirement benefits amounted to ₱17.6 million, ₱2.3 million and (₱2.1 million) in 2018, 2017 and 2016, respectively. The carrying values of retirement asset amounted to ₱7.9 million and ₱13.4 million as at December 31, 2018 and 2017, respectively. The carrying values of retirement liability amounted to ₱7.0 million and ₱17.5 million as at December 31, 2018 and 2017, respectively (see Note 19).

There was no impairment loss of goodwill in 2018 and 2017. The carrying values of goodwill amounted to ₱1,721.3 million and ₱1,832.3 million as at December 31, 2018 and 2017, respectively (see Note 17).

Evaluation of Legal Contingencies. The Company recognizes provision for possible claims when it is determined that an unfavorable outcome is probable and the amount of the claim can be reasonably estimated. The determination of reserves required, if any, is based on analysis of such individual issue, often with the assistance of outside legal counsel (see Note 32).

7. Cash and Cash Equivalents

This account consists of:

	2018	2017
Cash on hand and in banks	₱2,220,564,179	₱1,727,313,361
Cash equivalents	93,447,902	1,235,322,326
	₱2,314,012,081	₱2,962,635,687

Cash in banks earn interest at the respective bank deposit rates. Cash equivalents are made for varying periods of up to three months, depending on the immediate cash requirements of the Company, and earn interest at the respective short-term deposit rates.

Interest income earned from cash in banks and cash equivalents amounted to ₱36.2 million, ₱21.1 million and ₱14.3 million in 2018, 2017 and 2016, respectively.

8. Investments Held for Trading

This account consists of the Company's investments in shares of stock of Leisure and Resorts World Corporation (LRWC), Vantage Equities, Inc., APC Group, Inc. and Philippine Long Distance Telephone Company.

The movements in this account are as follows:

	2018	2017
Balance at beginning of year	₱178,482,842	₱165,990,214
Acquisitions	-	17,034,130
Disposals	(10,874,865)	(6,746,030)
Marked-to-market gain (loss) (see Note 24)	(11,903,085)	2,204,528
Balance at end of year	₱155,704,892	₱178,482,842

The fair values of these securities are based on the quoted prices on the last market day of the year. The Company determines the cost of investments sold using specific identification method.

Mark-to-market gain (loss) in 2018, 2017 and 2016 amounting to (₱11.9 million), ₱2.2 million and (₱37.1 million), respectively, were recognized in “Other income (expense) - net” account in the consolidated statements of income (see Note 24).

Realized gain from sale of investments held for trading amounted to ₱1.5 million in 2018 and nil in 2017 and 2016 (see Note 24).

Dividend income realized from investments held for trading amounted to ₱5.0 million, ₱5.7 million and ₱5.2 million in 2018, 2017 and 2016, respectively.

9. Receivables

This account consists of:

	2018	2017
Trade receivables	₱331,628,182	₱676,537,438
Loan assets (see Note 31)	422,341,815	422,341,815
Advances to officers and employees	4,939,898	10,019,065
Accrued interest on notes receivable (see Note 26)	2,217,463	654,439
Other receivables (Note 26)	17,299,125	25,544,487
	778,426,483	1,135,097,244
Less allowance for doubtful accounts	427,690,938	434,440,938
	₱350,735,545	₱700,656,306

Trade receivables are generally on a 20 to 60 days credit term. These are mostly receivables arising from equipment lease agreement with PCSO, receivables from sale of instant scratch ticket and receivables from Melco for the gaming revenue share in the operations of City of Dreams Manila.

Loan assets pertain to the Parent Company’s receivable from Paxell Investment Limited and Metroplex Berhad (both Malaysian companies, collectively referred to as “Metroplex”) and Legend International Resort H.K. Limited (“LIR-HK”) amounting to ₱422.3 million as a result of the compensation to parties who were in possession of the shares in connection with the cancellation of the remaining 2,000,000,000 undelivered PLC shares (see Note 31). The loan assets were fully provided with allowance as at December 31, 2018 and 2017.

Advances to officers and employees and other receivables are noninterest-bearing and generally collected within the next financial year.

Movement in allowance for doubtful accounts is as follows:

	2018	2017
Balance at beginning of year	₱434,440,938	₱438,497,388
Additions from acquisition of subsidiaries (see Note 16)	–	6,750,000
Provision for doubtful accounts (see Note 23)	–	7,703,713
Write-off during the year	(6,750,000)	(18,510,163)
Balance at end of year	₱427,690,938	₱434,440,938

10. Notes Receivable

Notes receivable, bearing interest rates ranging from 3.25% to 5.46% in 2018 and 3.25% to 4.05% in 2017, amounted to ₱3,705.9 million and ₱1,605.9 million as at December 31, 2018 and 2017 (see Note 26).

Interest income from notes receivable recognized in the consolidated statement of income amounted to ₱108.7 million, ₱54.8 million and ₱32.8 million in 2018, 2017 and 2016, respectively (see Note 26).

11. Other Current Assets

This account consists of:

	2018	2017
Creditable withholding taxes	₱170,275,739	₱90,452,593
Prepaid expenses	70,341,728	48,331,195
Spare parts and supplies - at cost	60,978,544	59,296,701
Bonds and deposits (see Note 31)	10,000,000	-
Advances to contractors and suppliers	3,847,376	-
Input VAT	3,681,383	7,639,695
Instant scratch tickets - at cost	25,280	-
	319,150,050	205,720,184
Less allowance for probable loss on input VAT (see Note 23)	62,743	62,616
	₱319,087,307	₱205,657,568

Creditable withholding taxes can be applied as tax credits against future income tax payable.

Spare parts and supplies are carried at lower of cost or net realizable value. Prepaid expenses pertain to various prepayments which will be applied in the next financial year.

Advances to contractors and suppliers will be applied in future billings.

Bonds and deposits pertain to cash of POSC deposited in a bank in 2009 as a cash bond in relation to POSC's Memorandum of Agreement (MOA) with PCSO. In 2018, the MOA with PCSO expired and the cash bond is expected to be received within one year from reporting period. Thus, in 2018, the cash bond of POSC amounting to ₱10.0 million was reclassified from "Other noncurrent assets" to "Other current assets" (see Note 31).

Movement of allowance for probable loss on input VAT is as follows:

	2018	2017
Balance at beginning of year	₱62,616	₱62,361
Provision for probable losses (see Note 23)	127	255
Balance at end of year	₱62,743	₱62,616

In 2018 and 2017, the Company wrote off input VAT amounting to nil and ₱25.0 million, respectively (see Note 23).

12. Intangible Asset

Intangible asset, which was part of the assets acquired from Belle in 2014, pertains to the provisional license granted by PAGCOR for which PLAI is a co-licensee to operate integrated resorts, including casinos. On April 29, 2015, PAGCOR granted the Regular Gaming License (License), which has the same terms and conditions of the provisional license. The License runs concurrent with PAGCOR's Congressional Franchise, set to expire in 2033, renewable for another 25 years by the Philippine Congress.

The amortization of the intangible asset started on December 14, 2014, the effectivity of the Notice to Commence Casino Operations granted by PAGCOR.

As part of the Company's annual review process, the Company, starting on April 1, 2016 changed the estimated useful life of the intangible asset to consider the renewal period of another twenty-five (25) years of the PAGCOR's congressional franchise upon its expiration in 2033 and to consider other industry developments.

Movements in intangible asset are as follows:

	2018	2017
Cost		
Balance at beginning and end of year	₱10,843,215,811	₱10,843,215,811
Accumulated Amortization		
Balance at beginning of year	1,175,143,840	936,671,356
Amortization	238,472,484	238,472,484
Balance at end of year	1,413,616,324	1,175,143,840
	₱9,429,599,487	₱9,668,071,971

The unamortized life of the license as at December 31, 2018 is 39.5 years.

13. Available-for-sale Financial Assets and Financial Assets at Fair Value Through Other Comprehensive Income

These accounts pertain to investments in equity instruments classified as financial assets at FVOCI under PFRS 9 as at December 31, 2018 and AFS financial assets under PAS 39 as at December 31, 2017.

These accounts consist of the following:

	2018	2017
Quoted shares:		
Belle - common shares (see Note 26)	₱384,963,161	₱646,216,790
Golf club shares	2,700,000	2,300,000
	387,663,161	648,516,790
Unquoted shares:		
Others	81,100	81,100
	₱387,744,261	₱648,597,890

Financial Assets at FVOCI (December 31, 2018)

The movement of financial assets at FVOCI in 2018 is as follows:

Cost	
Balance at beginning of year, as previously presented	P-
Reclassification from AFS financial assets	890,198,604
Balance at beginning of year, as restated	890,198,604
Additions	320,000
Balance at end of year	890,518,604
Cumulative unrealized mark-to-market gain on financial assets	
Balance at beginning of year, as previously presented	-
Reclassification from AFS financial assets	333,317,761
Reclassification of impairment loss on AFS financial assets previously charged to retained earnings (see Note 3)	(574,918,475)
Balance at beginning of year, as restated	(241,600,714)
Unrealized mark-to-market loss during the year	(261,173,629)
Balance at end of year	(502,774,343)
	<u>P387,744,261</u>

Dividend income earned from financial assets at FVOCI amounted to P20.0 million in 2018.

AFS Financial Assets (December 31, 2017)

The movement of AFS financial assets in 2017 is as follows:

Cost	
Balance at beginning of year	P1,063,126,494
Additions for the year	31,653,940
Disposals for the year	(204,581,830)
Balance at end of year	890,198,604
Cumulative unrealized mark-to-market gain on AFS financial assets	
Balance at beginning of year	169,169,783
Marked-to-market gains during the year	132,500,049
Realized loss transferred to profit or loss	31,647,929
Balance at end of year	333,317,761
Accumulated impairment loss	
Balance at beginning and end of year	(574,918,475)
	<u>P648,597,890</u>

Dividend income earned from AFS financial assets amounted to P15.2 million and P19.4 million in 2017 and 2016, respectively.

The investment in common shares of Belle is based on the quoted price as at reporting date while the investment in golf club shares is based on secondary market prices as at reporting date.

As at December 31, 2017, the sale of parcels of land were not completed due to events and circumstances beyond the Company's control, pending the transfer of the parcels of land as a condition of sale.

As at December 31, 2018, the sale was not yet finalized, thus, the Company reclassified the land held for sale to investment property. The reclassification in 2018 has no impact on the results of operations in 2018 and in prior periods.

Investment Property

The fair value of the investment property amounted to ₱295.2 million as at December 31, 2018, which was estimated using market approach, as determined by an independent appraiser. The value of the land was based on the sales and listings of comparable property registered within the vicinity and within Level 3 fair value hierarchy.

16. Business Combination

Acquisition of LCC Subsidiaries

On July 1, 2017, LCC acquired 100% ownership interest in nine entities (see Note 1). Based on management's judgment, the acquisition is assessed to be an acquisition of a business. The total consideration, provisional fair values of the assets acquired and liabilities assumed from the nine entities and provisional goodwill as at July 1, 2017 are as follows:

Total consideration:		
Purchase price of shares	₱10,250,000	
Receivables in the acquired entities	144,613,142	
Payables to the acquired entities	(60,000,000)	₱94,863,142
<hr/>		
Total assets acquired:		
Cash and cash equivalents	76,694,703	
Receivables (net of allowance for doubtful accounts amounting to ₱6.8 million)	7,113,848	
Other current assets	24,873,909	
Property and equipment (see Note 14)	28,664,784	
Deferred tax assets	1,466,821	
Other noncurrent assets	22,025,420	160,839,485
<hr/>		
Less liabilities assumed:		
Trade payables and other current liabilities	62,815,883	
Retirement liability (see Note 19)	616,120	
Income tax payable	6,227,122	69,659,125
Provisional Goodwill		₱3,682,782
<hr/> <hr/>		

Net cash flows on acquisition is as follows:

Cash acquired from subsidiaries	₱76,694,703
Cash paid on acquisition	(10,250,000)
	<hr/>
	₱66,444,703
	<hr/> <hr/>

The goodwill of ₱3.7 million represents the value of expected synergies arising from the business combination (see Note 17).

In 2018, the fair values of the assets acquired and liabilities assumed were finalized. There were no changes or adjustments made from that of provisionally recognized in 2017. Goodwill recognized is not expected to be deductible for income tax purposes.

The gross amount and fair value of the trade receivables amounted to ₱13.9 million and ₱7.1 million in 2017, respectively. The Company expects to collect an amount equal to the fair value of the LCC subsidiaries' receivables as of acquisition date.

From the date of acquisition, LCC subsidiaries contributed ₱142.2 million of revenue and ₱10.1 million net income from continuing operations of the Company in 2017. If the combination had taken place at the beginning of the year in 2017, revenue from continuing operations would have been ₱276.2 million and net income from continuing operations for the Company would have been ₱27.4 million in 2017.

17. Goodwill

Goodwill acquired from the business combination as at December 31, 2018 and 2017 consists of:

	2018	2017
POSC	₱1,717,643,956	₱1,717,643,956
FRI	110,933,996	110,933,996
LCC subsidiaries (see Note 16)	3,682,782	3,682,782
	1,832,260,734	1,832,260,734
Less: allowance for impairment (see Note 24)	110,933,996	-
	₱1,721,326,738	₱1,832,260,734

Movements in this account are as follow:

	2018	2017
Balance at beginning of year	₱1,832,260,734	₱1,828,577,952
Impairment loss (see Note 24)	(110,933,996)	-
Additions (see Note 16)	-	3,682,782
Balance at end of year	₱1,721,326,738	₱1,832,260,734

The goodwill from the acquisitions have been subjected to the annual impairment review in 2018 and 2017. The recoverable amounts of the operations have been determined based on a value-in-use calculation using cash flow projections based on financial budgets approved by management. The cash flow projections cover five years.

The Company did not identify any impairment indicators relating to goodwill in POSC and LCC subsidiaries as at December 31, 2018 and 2017 as it expects to realize the synergies from the business combinations.

The Company recognized impairment of its goodwill in FRI in 2018 amounting to ₱110.9 million (see Note 24).

Key assumptions used in value in use calculations

The calculation of value in use for the cash-generating units are most sensitive to the following assumptions explained as follows:

POSC

Management assessed that no reasonably possible change in pre-tax discount rates and future cash inflows would cause the carrying value of goodwill in 2018 and 2017 to materially exceed its recoverable amount.

Discount Rate. Discount rate reflects management's estimate of the risks specific to the cash-generating unit. The pre-tax discount rate of 12.21% and 10.61% was used in 2018 and 2017, respectively, based on the Weighted Average Cost of Capital (WACC) of POSC.

Revenue Growth Rate, Long-Term Growth Rate and Terminal Values. An annual increase in revenue ranging from 3% to 10% and 2% to 6% per annum were applied in the 5-year cash flow projections in 2018 and 2017, respectively, based on historical performance of POSC. The long-term growth rate used to extrapolate cash flow projections beyond the period covered by the most recent budgets/forecasts is 4% in 2018 and 2017. The long-term growth rate used in the normalization of free cash flows represents the expected growth rate of the economy at the end of the 5th year and onwards, with reference to growth rates compiled by industry specialist.

FRI

The recoverable amount of goodwill from the acquisition of FRI by TGTI was determined based on value-in-use calculations using actual past results and observable market data such as growth rates, operating margins, among others.

With the recent change in FRI's exclusivity arrangement with its principal, the carrying amount of the goodwill and cash generating unit to which goodwill relates to materially exceed its recoverable amount.

Growth rates and operating margins used to estimate future performance are equally based on past performance and experience of growth rates, operating margins achievable in the relevant industry. The expected cash flows are discounted by applying a suitable WACC. The pre-tax discount rate applied to cash flow projections is 9.4% and 8.7% in 2018 and 2017, respectively. The long-term growth rate is 6.6% in 2017.

LCC subsidiaries

The recoverable amount of goodwill from the acquisition of LCC subsidiaries was determined based on a 5-year value-in-use calculation, using actual past results and observable market data.

Growth rates and operating margins used to estimate future performance are equally based on past performance and experience of growth rates and operating margins achievable in the relevant industry. The expected cash flows are discounted by applying a suitable WACC. The discount rate applied to pretax cash flow projections was 10.2% and 3.0% for the terminal growth rate.

Management believes that no reasonably possible change in the key assumptions would cause the carrying amount of the goodwill and cash generating unit to which goodwill relates to materially exceed its recoverable amount.

18. Trade Payables and Other Current Liabilities

This account consists of:

	2018	2017
Trade payables	₱154,248,020	₱279,006,308
Accrued expenses and other payables	1,247,521,393	727,968,788
Professional, service and management fees (see Note 26)	42,530,367	65,855,180
Consultancy, software and license fees payable	37,585,238	55,742,294
Communication, rental and utilities	16,083,272	27,265,480
Current portion of installment payable	9,205,042	2,680,828
Withholding taxes payable	7,681,871	12,343,677
Unearned income	–	268,863,737
Others (see Note 26)	20,937,142	3,713,633
	₱1,535,792,345	₱1,443,439,925

Trade payables are generally on a 30-days credit term.

Accrued expenses and other payables mainly represent accrual for service and professional fees, general and administrative expenses and provisions. These are usually payable within 30 days term upon receipt of billing. The Company regularly provides for its usual potential liabilities. Provisions represents estimated probable losses. The information usually required by PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, is not disclosed on the grounds that it can be expected to prejudice the Company's position.

Unearned income pertains to the advance payment from Melco, which will be applied as payment of PLAI's future gaming revenue share. The unearned income was realized in 2018.

Professional, service and management fees, withholding taxes payable and communication, rental and utilities are normally settled within the next financial year.

Consultancy, software and license fees payable are for consultancy services on gaming operations and the supply of computer hardware and operating system software for online lottery system (see Note 31). These are normally settled within the next financial year.

19. Retirement Benefits

Under the existing regulatory framework, Republic Act 7641 requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

The following tables summarize the components of net retirement costs recognized in the consolidated statements of income and consolidated statements of comprehensive income and the retirement benefits recognized in the consolidated statements of financial position:

Changes in the retirement benefits of the Company in 2018 are as follows:

	Fair Value of Plan Assets	Present Value of Defined Benefit Obligation	Retirement Benefits
At January 1, 2018	₱85,569,924	(₱89,635,734)	(₱4,065,810)
Net retirement income (costs) in profit or loss:			
Current service cost	-	(13,467,939)	(13,467,939)
Net interest	4,863,314	(5,057,237)	(193,923)
	4,863,314	(18,525,176)	(13,661,862)
Benefits paid	(96,206)	96,206	-

At December 31, 2017	₱85,569,924	(₱89,635,734)	(₱4,065,810)

The retirement benefits are presented in the consolidated statement of financial position as at December 31, 2018 and 2017 are as follows:

	2018	2017
Retirement asset	₱7,855,553	₱13,413,273
Retirement liability	(6,981,493)	(17,479,083)
Net retirement asset (liability)	₱874,060	(₱4,065,810)

The latest actuarial valuation of the Company is as at December 31, 2018.

The following table presents the fair values of the plan assets of the Company as at December 31:

	2018	2017
Cash and cash equivalents	₱2,640,981	₱8,184,135
Debt instruments - government bonds	43,122,315	36,250,629
Debt instruments - other bonds	2,525,548	2,792,338
Unit investment trust funds	35,706,253	33,124,533
Others	(3,226,770)	5,218,289
	₱80,768,327	₱85,569,924

The Company's plan assets is administered by a Trustee. The Company and the retirement plan have no specific matching strategies between the retirement plan assets and define benefit asset or obligation under the retirement plan.

The principal assumptions used to determine retirement plan assets as at December 31 are as follows:

	2018	2017
Discount rate	7.53%-8.06%	5.60%-5.70%
Rate of compensation increase	5.00%-8.00%	5.00%-10.00%

The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as at December 31, 2018 and 2017 assuming if all other assumptions were held constant:

	2018		2017	
	Increase (Decrease)	Increase (Decrease) in Defined Benefit Obligation	Increase (Decrease)	Increase (Decrease) in Defined Benefit Obligation
Discount rate	1.00% (1.00%)	(₱7,626,037) 9,248,824	1.00% (1.00%)	(₱11,248,835) 13,962,224
Salary increase rate	1.00% (1.00%)	8,692,250 (7,319,760)	1.00% (1.00%)	12,594,578 (10,433,740)

The average duration of the defined benefit obligation is 9.9 years to 13.4 years in 2018.

The maturity analysis of the undiscounted benefit payments follows:

	2018	2017
Less than 1 year	₱14,956,661	₱13,514,581
More than 1 year to 5 years	15,680,137	13,471,690
More than 5 years to 10 years	49,852,661	28,627,278

20. Equity

Preferred Stock

As at December 31, 2018 and 2017, PLC has not issued any preferred stock out of the authorized 6,000,000,000 shares with par value of ₱0.25. Under the provision of the Parent Company's articles of incorporation, the rights and features of the preferred stocks shall be determined through a resolution of the BOD prior to issuance.

Common Stock

Common stock as at December 31, 2018 and 2017 consists of the following:

	Number of Shares
Authorized - ₱0.25 par value per share	37,630,000,000
Issued and Subscribed - Balance at beginning and end of year	31,627,310,000

**On May 29, 2014, SEC approved the reduction of par value of preferred shares to ₱0.25 from ₱1.00 per share.*

In 1995, 25,000,000 primary shares of the Company's capital stock were offered and sold to the public at par value. On August 28, 1995, the Company's shares of stock were formally listed in the small board of the PSE.

On September 30, 1996, the SEC approved the increase in the Company's authorized capital stock from ₱1,000.0 million, divided into 100,000,000,000 shares at ₱0.01 par value, to ₱2,000.0 million, divided into 200,000,000,000 shares with the same par value.

On March 10, 1997, the stockholders approved the increase in the Company's authorized capital stock from ₱2,000.0 million, divided into 200,000,000,000 shares at ₱0.01 par value a share, to ₱20,000.0 million, divided into 14,000,000,000 common shares and 6,000,000,000 preferred shares both with par value of ₱1.

On February 18, 2002, the stockholders approved the cancellation of 3,870,000,000 shares held by one of the Parent Company's shareholders, of these shares a total of 2,870,000,000 shares have been cancelled and delisted in 2006 and 2008 (see Note 31).

On March 28, 2006, the SEC approved the reduction of the Company's authorized capital stock by 1,870,000,000 shares to 18,130,000,000 shares divided into 12,130,000,000 common shares and 6,000,000,000 preferred shares (see Note 31).

On June 24, 2008, the SEC formally approved the Company's application for further reduction and cancellation of authorized capital stock by 1,000,000,000 shares resulting in total authorized capital stock of 17,130,000,000 shares divided into 11,130,000,000 common shares and 6,000,000,000 preferred shares (see Note 31).

On July 9, 2009, the SEC approved the Company's application for further reduction of authorized capital stock by 1,000,000,000 shares resulting in total authorized capital stock of 16,130,000,000 shares, divided into 10,130,000,000 common shares and 6,000,000,000 preferred shares (see Note 31).

As discussed in Note 31, on April 22, 2014, PLC filed with the SEC a Notice of Withdrawal of the Memorandum of Appeal filed on June 20, 2013 and proceeded to effect the cancellation of the remaining 1,000,000,000 shares to fully implement the MOA rescinding the Swap Agreement with Metroplex and LIR-HK.

On May 29, 2014, the SEC approved the PLC's application for equity restructuring which included the following:

- Reduction in par value per share in par value per share from ₱16,130.0 million, divided into 10,130,000,000 common shares and 6,000,000,000 preferred shares both with the par value of ₱1.00 per share, to ₱4,032.5 million, divided into 10,130,000,000 common shares and 6,000,000,000 preferred shares both with a par value of ₱0.25 per share.
- Application of the resulting additional paid-in capital amounting to ₱2,614.5 million to partially wipe out the Parent Company's deficit of ₱3,543.4 million as at December 31, 2013.

On July 18, 2014, PLC's BOD and stockholders unanimously approved the amendment to the articles of incorporation for the increase in authorized capital stock from ₱4,032,500,000, divided into 10,130,000,000,000 common shares with par value of ₱0.25 per share and 6,000,000,000 preferred shares with par value of ₱0.25 per share, to ₱10,907,500,000, divided into 37,630,000,000 common shares with par value of ₱0.25 per share and 6,000,000,000 preferred shares with par value of ₱0.25 per share. The application for the increase in authorized capital stock was approved by the SEC on September 5, 2014.

Additional Paid-in Capital

Additional paid-in capital as at December 31, 2018 and 2017 consists of the following:

Subscription and/or issuance of shares	₱6,941,634,391
Business combination	297,087,533
	<hr/>
	₱7,238,721,924

Additional paid-in capital arising from business combination pertains to the excess of consideration from the carrying values of net assets acquired from the step acquisition of POSC in 2015, which was accounted for as business combination under common control using pooling of interest method.

Treasury shares

The BOD has authorized the buy-back of the Company's common shares to enhance the shareholder value. The Company is authorized to repurchase up to ₱500.0 million worth of common shares. In March 19, 2018, the Company commenced its share buyback program. As at December 31, 2018, 28,379,000 shares have been bought back by the Company with a cost of ₱29.43 million. This is presented as "Treasury shares" and are treated as a reduction in equity.

Parent Company Shares Held by a Subsidiary

POSC holds common shares of the Parent Company totaling 377,143,000 shares and 347,951,000 shares as at December 31, 2018 and 2017, respectively, with a cost of ₱509.6 million and ₱475.4 million as at December 31, 2018 and 2017, respectively. These are presented as "Cost of Parent Company shares held by a subsidiary" and are treated as a reduction in equity.

Retained Earnings

On February 23, 2018, the Parent Company's BOD approved the declaration of cash dividends of ₱0.04391 per share amounting to ₱1,388.8 million to shareholders of record as at March 10, 2018. Total dividends above are inclusive of dividends paid to related party shareholders amounting to ₱19.5 million.

On February 23, 2017, the Parent Company's BOD approved the declaration of cash dividends of ₱0.0281 per share amounting to ₱888.7 million to shareholders of record as at March 10, 2017. Total dividends above are inclusive of dividends paid to related party shareholders amounting to ₱9.2 million.

On February 23, 2016, the Parent Company's BOD approved the declaration of cash dividends of ₱0.0215 per share amounting to ₱680.0 million to shareholders of record as at March 10, 2016. Dividend attributed to Parent Company shares held by a subsidiary, which was eliminated in the consolidated financial statements, amounted to ₱7.0 million.

The consolidated retained earnings as at December 31, 2018 and 2017 includes the earnings of the subsidiaries and associates which are not currently available for dividend declaration unless declared by the subsidiaries and associates of the Parent Company. The Parent Company's retained earnings available for dividend declaration, computed based on the regulatory requirements of SEC amounted to ₱2,517.9 million and ₱1,708.2 million as at December 31, 2018 and 2017, respectively.

21. Gaming Revenue Share

PLAI's gaming revenue share is determined in accordance with PLAI's operating agreement with Melco as follows:

	2018	2017	2016
Gaming revenue share – gross	₱7,551,166,234	₱6,119,060,974	₱2,171,573,454
Less PAGCOR license fee paid by Melco	4,339,309,270	3,509,708,335	528,597,089
Gaming revenue share – net (see Note 30)	₱3,211,856,964	₱2,609,352,639	₱1,642,976,365

22. Cost of Services

This account consists of:

Loss on sale of AFS financial assets (see Note 13)	-	(31,647,929)	-
Other income	42,132,775	49,966,804	14,498,940
	₱124,496,089	₱19,006,861	(₱24,228,217)

Other income includes excess standard input VAT from transactions with government and service income earned in providing repairs and maintenance services.

25. Income Taxes

The components of income tax expense for the years ended December 31, 2018, 2017 and 2016 are as follows:

	2018	2017	2016
Current income tax	₱133,572,412	₱235,892,039	₱254,329,643
Deferred income tax relating to origination and reversal of temporary difference	47,432,314	(413,893)	28,271,202
	₱181,004,726	₱235,478,146	₱282,600,845

PLC and its subsidiaries are using itemized deduction in computing their taxable income, except for PLAI, who elected to use Optional Standard Deduction (OSD) until third quarter of 2016.

The components of the Company's deferred tax assets and liabilities as at December 31 are as follows:

	2018	2017
Deferred tax assets:		
Accrued expenses	₱2,417,101	₱2,788,503
Unamortized past service costs	10,002,926	7,726,070
Allowance for doubtful accounts on receivables	4,045,557	4,045,557
NOLCO	2,602,457	1,466,822
Retirement liability	436,829	-
Unrealized foreign exchange gain	265,884	476,920
	19,770,754	16,503,872
Deferred tax liabilities:		
Contract asset	50,404,696	-
Retirement asset	5,741,338	753,636
Others	921,858	310,551
	57,067,892	1,064,187
Deferred tax assets (liabilities) – net	(₱37,297,139)	₱15,439,685

The deferred taxes are presented in the consolidated statement of financial position as at December 31, 2018 and 2017 are as follows:

	2018	2017
Deferred tax assets	₱8,864,126	₱15,439,685
Deferred tax liabilities	(46,161,265)	-
Net deferred tax assets (liabilities)	(₱37,297,139)	₱15,439,685

The components of the Company's temporary differences and carryforward benefits of NOLCO and MCIT for which no deferred tax assets were recognized are as follows:

	2018	2017
Allowance for doubtful accounts on receivables	₱427,690,938	₱427,690,938
Allowance for deferred oil exploration and development costs	18,377,841	18,377,841
Excess MCIT over regular corporate income tax	2,830,747	1,257,329
Allowance for impairment of AFS investments	2,000,000	2,000,000
NOLCO	99,441	160,955
	₱450,998,967	₱449,487,063

Deferred tax assets amounting to ₱137.3 million and ₱135.7 million as at December 31, 2018 and 2017, respectively, were not recognized since management believes that it has no sufficient taxable income against which the deductible temporary differences and the carryforward benefits of these assets can be utilized in the future.

As at December 31, 2018, the carryforward benefits of NOLCO and MCIT that can be claimed as deductions from regular taxable income and RCIT due, respectively, are as follows:

Year Incurred/Paid	Expiry Date	NOLCO	MCIT
2016	December 31, 2019	₱39,690	₱656,606
2017	December 31, 2020	29,380	–
2018	December 31, 2021	8,705,228	2,174,141
		₱8,774,298	₱2,830,747

The movements in NOLCO follow:

	2018	2017
NOLCO:		
Balance at beginning of year	₱5,050,362	₱8,661,197
Additions	8,705,228	4,903,393
Applications	(4,889,407)	(8,437,299)
Expirations	(91,885)	(76,929)
Balance at end of year	₱8,774,298	₱5,050,362

The movements in MCIT follow:

	2018	2017
MCIT:		
Balance at beginning of year	₱1,257,329	₱1,257,329
Additions	2,174,141	–
Expirations	(600,723)	–
Balance at end of year	₱2,830,747	₱1,257,329

The reconciliation of the provision for income tax computed at statutory income tax rate on income before income tax to the provision for income tax as shown in the consolidated statements of income is as follows:

	2018	2017	2016
Income tax computed at statutory tax rate	₱747,197,352	₱671,443,231	₱432,210,294
Income tax effect of:			
Income not subject to income tax	(908,018,484)	(785,764,413)	(289,972,725)
Nondeductible expenses	338,235,727	357,133,868	212,640,574
Interest income subject to final tax	(2,450,189)	(2,059,579)	(4,275,333)
Change in unrecognized deferred tax assets	1,511,904	(8,505,413)	(4,203,247)
Expired NOLCO	91,885	76,929	40,590
Excess of itemized deduction over OSD	–	–	(65,900,842)
Others	4,436,532	3,153,523	2,061,534
	₱181,004,726	₱235,478,146	₱282,600,845

Republic Act (RA) No.10963 or the Tax Reform for Acceleration and Inclusion Act (TRAIN) was signed into law on December 19, 2017 and took effect January 1, 2018, making the new tax law enacted as of the reporting date. Although the TRAIN changes existing tax law and includes several provisions that generally affect businesses on a prospective basis, the management assessed that the same do not have any significant impact on the financial statement balances as of the reporting date.

26. Related Party Disclosures

Related parties are enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or under common control with the Company, including holding companies, and subsidiaries. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related entities.

In considering each possible related entity relationship, attention is directed to the substance of the relationship, and not merely the legal form.

Transactions with Related Parties

In the ordinary course of business, the Company has transactions with related parties which consist mainly of extension or availment of noninterest-bearing advances. The outstanding balances at year-end are due on demand. There have been no guarantees provided or received for any related party receivables or payables and settlements occur in cash.

The amounts included in these transactions are as follows:

Related Party	Relationship	Transaction		Transaction Amounts	Outstanding Balance Assets (Liabilities)	Terms	Condition
Belle	Parent	Advances (see Note 18)	2018	₱668,842	(₱4,320,823)	Noninterest-bearing, due and demandable	Unsecured, no impairment

On September 15, 2014, PLAI and Belle entered into a Service Agreement wherein the latter shall provide services to support the operations of the casino license from PAGCOR. Belle shall likewise provide sufficient personnel and other resources for accounting and administrative functions. Effective January 1, 2018, PLAI transferred its Service Agreement with Belle to the Parent Company. Management and service fees amounting to ₱50.4 million, ₱60.5 million and ₱60.5 million in 2018, 2017 and 2016, respectively, were presented as part of “Services fees” included under costs of services and “Professional, service and management fees” under general and administrative expenses in the consolidated statements of income (see Notes 22 and 23).

Other Transactions

Compensation of key management personnel of the Company are as follows:

	2018	2017	2016
Short-term employee benefits	₱42,714,891	₱45,139,351	₱42,477,708
Retirement benefits costs	3,881,441	3,819,419	3,240,233
	₱46,596,332	₱48,958,770	₱45,717,941

27. Leases

a. Finance Lease

Lottery Equipment. The contracts for the supply of online lottery system entered into by POSC with Scientific Games and Intralot and by TGTI with Intralot contain a lease which is classified as finance lease. These related equipment are included as part of Lottery equipment under “Property and Equipment” in the consolidated statements of financial position.

Future minimum lease payments under these finance leases together with present value of the minimum lease payments are as follows:

	2018	2017
Within one year	₱22,253,929	₱45,340,826
After one year but not more than five years	16,690,446	38,944,375
Total future minimum lease payments	38,944,375	84,285,201
Less amount representing interest	3,569,901	9,422,217
Present value of lease payments	35,374,474	74,862,984
Less current portion of obligations under finance lease	19,379,463	39,488,510
Noncurrent portion of obligations under finance lease	₱15,995,011	₱35,374,474

The contracts of POSC remain effective until July 31, 2019, the expiration of Equipment Lease Agreement (ELA). Payment to Scientific Games is based on a pre-agreed percentage of POSC’s

revenue from PCSO’s conduct of online lottery games running under the system provided by Scientific Games. Payment to Intralot is based on pre-agreed percentage of the revenue generated by the terminals from PCSO’s conduct of online lottery operations or a fixed amount of US\$110 per terminal per month, whichever is higher. Payments to Scientific Games and Intralot include the non-lease elements which are presented as “Software and license fees” under “Cost and expenses” in the consolidated statements of income (see Note 22).

The contract of TGTI with Intralot commenced upon the commercial operation of 200 outlets and remains effective for 10 years until September 30, 2020. Payment to Intralot is based on a percentage of the gross receipts of PCSO from its “Online KENO” game or a fixed amount of US\$60 per terminal per month, whichever is higher.

The Company initially recognized the finance lease liability based on the fair value of the equipment or the sales price since the minimum lease payments cannot be established, as the monthly payment varies depending on the revenue generated by the leased equipment.

b. Operating Lease

As Lessor

POSC leases online lotto equipment and accessories to PCSO for a period of 1 year until July 31, 2019 as provided in the 2018 Amended ELA (see Note 31). Rental payments is based on a percentage of gross amount of lotto ticket sales from the operation of all PCSO’s lotto terminals or a fixed annual rental of ₱35,000 per terminal in commercial operation, whichever is higher. Rental income recognized in the consolidated statement of income amounted to ₱788.6 million, ₱1,036.9 million and ₱931.8 million in 2018, 2017 and 2016, respectively.

Future minimum rental income as at December 31, 2018 and 2017 for the remaining lease term of one year is ₱82.2 million and ₱85.9 million, respectively.

TGTI leases “Online KENO” equipment and accessories to PCSO for a period of 10 years from the time the ELA will run in commercial operations. Rental payment by PCSO is based on certain percentage of gross amount of “Online KENO” games from the operation of all PCSO’s terminal or a fixed annual rental of ₱40,000 per terminal in commercial operation, whichever is higher. Rental income recognized in the consolidated statement of income amounted to ₱659.7 million, ₱803.6 million and ₱647.9 million in 2018, 2017 and 2016, respectively. Future minimum rental income for the remaining lease terms is as follows:

	2018	2017
Within one year	₱98,160,000	₱96,400,000
After one year but not more than five years	73,620,000	141,400,000
	₱171,780,000	₱237,800,000

As Lessee

a. POSC leases certain office spaces for periods of one to three years up to 2019. The lease agreements provide for minimum rental commitments with annual rental escalation rate of 5% to 10%. Rent expense recognized in the consolidated statement of income amounted to ₱18.6 million, ₱16.2 million and ₱11.0 million in 2018, 2017 and 2016, respectively.

b. LotoPac, LCC and FRI lease certain properties that are renewed annually at the option of both companies. Rent expense recognized in the consolidated statement of income amounted to ₱97.4 million, ₱62.9 million and ₱29.2 million in 2018, 2017 and 2016, respectively.

- c. TGTI entered into lease contracts with the following: (1) Keewswen Development Corp. for the lease of its office space for a period of five years which commenced on February 1, 2011 expired on January 31, 2016 which was renewed for a period of two years which commenced on February 1, 2016 to January 31, 2018, (2) MBH Trading & Manufacturing Corporation for the lease of its warehouse for a period of seven years commencing on August 1, 2010 and expired on July 31, 2017 which was also renewed up to July 2020, and (3) George W.G Angel for a parking space for a period of one year, renewable upon mutual consent of the parties. Rent expense recognized in the consolidated statement of income amounted to ₱10.6 million, ₱8.0 million and ₱6.0 million in 2018, 2017 and 2016, respectively.

The above operating leases have no restrictions and contingent rental provisions.

Future minimum rental expense for the remaining lease terms are as follows:

	2018	2017
Within one year	₱104,845,379	₱87,509,954
After one year but not more than five years	95,245,945	42,407,810
	₱200,091,324	₱129,917,764

28. Basic/Diluted Earnings Per Common Share

As at December 31, 2018, 2017 and 2016, basic/diluted earnings per share were computed as follows:

	2018	2017	2016
Net income attributable to the equity holders of the Parent (a)	₱2,157,768,639	₱1,756,459,152	₱959,849,646
Weighted average common shares, beginning	31,627,310,000	31,627,310,000	31,627,310,000
Number of parent company common shares held by subsidiaries - basic, at beginning of year	(347,951,000)	(323,586,000)	(290,660,000)
Acquisition of entities holding parent common shares	(23,929,036)	(16,323,279)	(32,130,230)
Weighted average number of treasury shares acquired during the year	(19,849,526)	-	-
Weighted average common shares, end (b)	31,235,580,438	31,287,400,721	31,304,519,770
Earnings per common share (a/b)	₱0.069080	₱0.056140	₱0.030662

29. Financial Assets and Financial Liabilities

Financial Risk Management Objectives and Policies and Capital Management

The Company's principal financial liabilities comprise trade payables and other current liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include cash and cash equivalents, receivables and guarantee bonds that derive directly from its operations. The Company also holds investments held for trading, notes receivable, AFS financial assets and financial assets at FVOCI.

The main risks arising from the Company's financial instruments are credit risk, liquidity risk, equity price risk and foreign currency risk. The BOD and management review and approve the policies for managing credit, liquidity, equity price and foreign currency risks and they are summarized below:

Credit Risk. Credit risk is the risk that the Company will incur a loss because its counterparties failed to discharge their contractual obligations. Credit risk arises from the Company's financial assets which are composed of cash and cash equivalents, trade receivables and others, financial assets at FVOCI and AFS financial assets.

The Company's credit risk is concentrated on a few companies with which it transacts business. One of which is the PCSO, through its subsidiary, POSC. POSC's trade receivable arises from equipment lease agreement with PCSO, POSC's sole customer. It is part of the Company policy that all the terms specified in the ELA with PCSO are complied with and ensure that payment terms are met. Another major customer is Melco, from whom gaming revenue share is collected. Belle, a major stockholder, also has outstanding loans payable to the Company. The Company keeps close coordination with Melco and Belle and ensures that contract and agreement terms and conditions are met.

With respect to credit risk arising from the other financial assets which are composed of cash and cash equivalents, other receivables, investments held for trading, financial assets at FVOCI and AFS financial assets, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

The table below shows the aging analysis of the Company's financial assets.

2018							
Past Due but not Impaired							
	Neither Past Due nor Impaired	Less than 30 days	31 Days to 1 Year	Over 1 Year up to 3 Years	Over 3 Years	Impaired	Total

*Excluding cash on hand amounting to ₱6.0 million.

**Excluding advances to contractors and suppliers amounting to ₱4.3 million.

***Included as part of "Other noncurrent assets" account in the consolidated statements of financial position

High grade financial assets pertain to those receivables from related parties or customers that consistently pay on or before the maturity date while medium grade includes those financial assets being collected on due dates with an effort of collection.

The Company assessed its cash in bank and cash equivalents as high grade since this is deposited with reputable banks.

Liquidity Risk. Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial asset.

The Company seeks to manage its liquidity profile to be able to finance its investments and pay its outstanding liabilities. To limit this risk, the Company closely monitors its cash flows and ensures that credit facilities are available to meet its obligations as and when they fall due. To cover its financing requirements, the Company uses internally generated funds as well as a committed line of credit that it can access to meet liquidity needs.

The Company maintains sufficient cash to finance its operations. Any excess cash is invested in short-term money market placements. These placements are maintained to meet the requirements for additional capital expenditures, maturing obligations and cash dividends. Liquidity risk is minimal as at December 31, 2018 and 2017 as the total current assets can cover the total current liabilities as they fall due.

The maturity profile of the Company's financial assets, contract assets and liabilities follow:

	2018				
	On Demand	1 to 60 Days	Over 60 Days but less than 1 year	Over 1 year	Total

(d) Based on undiscounted future payments

(e) Including current portion

Equity Price Risk. Equity price risk is the risk that the fair value of quoted investment held for trading, AFS financial assets, and financial assets at fair value through other comprehensive income decrease as the result of changes in the value of individual stocks. The Company's exposure to equity price risk primarily to the Company's quoted investments held for trading, AFS financial assets and

financial assets at FVOCI. The Company monitors the equity investments based on market expectations. Significant movements within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the BOD.

The following table demonstrates the sensitivity to a reasonably possible change in equity price, with all other variables held constant, of the Company's equity. The impact on the Company's equity already excludes the impact on transactions affecting the consolidated profit or loss before income tax.

Financial assets at FVOCI

	2018	
	Increase in Equity Price	Decrease in Equity Price
Percentage increase (decrease) in equity price	1%	1%
Effect on equity	₱3,423,323	(₱3,423,323)

Available-for-sale financial assets

	2017	
	Increase in Equity Price	Decrease in Equity Price
Percentage increase (decrease) in equity price	1%	(1%)
Effect on equity	₱1,641,680	(₱5,196,681)

Investments held for trading

	2018		2017	
	Increase in Equity Price	Decrease in Equity Price	Increase in Equity Price	Decrease in Equity Price
Percentage increase (decrease) in equity price	5%	(5%)	5%	(5%)
Effect on profit or loss	₱8,148,110	(₱8,148,110)	₱8,924,142	(₱8,291,536)

Foreign Currency Risk. The Company, through POSC, has foreign currency exposures. Such exposure arises from cash and cash equivalents and payables to certain suppliers which are denominated in U.S. dollar (US\$). The Company's financial instruments which are denominated in foreign currency include cash and cash equivalents and consultancy and software license fees payable. The Company maintains a US\$ account to match its foreign currency requirements.

In translating foreign currency-denominated monetary assets and liabilities into peso amounts, the exchange rates used was ₱52.72 and ₱49.92 to US\$1, the Php to US\$ exchange rates as at December 31, 2018 and 2017, respectively.

The following table demonstrates the sensitivity to a reasonably possible change in the Php-US\$ exchange rates, with all other variables held constant, of the Company's consolidated income before income tax in 2018. There is no other impact on the Company's equity other than those already affecting profit or loss.

	Increase (Decrease) in US\$ Exchange Rate	Effect on Income before Income Tax	Effect on Equity
2018	5% (5%)	(P691,698) 691,698	(P484,188) 484,188
2017	5% (5%)	(P754,779) 754,779	(P528,345) 528,345

Capital Management

The primary objective of the Company's capital management is to safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. There were no changes made in the objectives, policies or processes in 2018 and 2017.

The Company considers the total equity attributable to the equity holders of the Parent as its capital amounting to P16,837.1 million and P16,315.1 million as at December 31, 2018 and 2017, respectively.

Fair Value of Financial Assets and Financial Liabilities

Fair value is defined as the amount at which the financial instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm's-length transaction, other than in a forced liquidation or sale. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

The carrying values of cash and cash equivalents, receivables, deposits and trade payables and other current liabilities (excluding statutory liabilities) approximate their fair values due to the short-term nature of the transactions.

The fair values of AFS financial assets in quoted equity shares are based on quoted prices in the PSE or those shares whose prices are readily available from brokers or other regulatory agency as at reporting date. There are no quoted market prices for the unlisted shares of stock and there are no other reliable sources of their fair values, therefore, these are carried at cost, net of any impairment loss.

The estimated fair value of obligations under finance lease was calculated using the discounted cash flow methodology, using Bloomberg Valuation Service (PHP BVAL) rates ranging from 6.7% to 6.9% and 2.4% to 4.3% in 2018 and 2017, respectively.

The carrying value of guarantee bonds approximates fair value as at December 31, 2018 and 2017 due to unavailability of information as to the repayment date that would provide reasonable basis for the fair value measurement.

The following table provides the quantitative disclosures of fair value measurement hierarchy of the Company's assets and liabilities, other than those with carrying amounts that are reasonable approximation of fair value, as at December 31, 2018 and 2017:

2018					
	Date of Valuation	Quoted (Unadjusted) Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets					
Assets measured at fair value:					
Investments held for trading	December 31, 2018	₱155,704,892	₱-	₱-	₱155,704,892
Financial assets at FVOCI	December 31, 2018	384,963,161	2,700,000	81,100	387,744,261
Liabilities					
Liabilities for which fair value is disclosed -					
Obligations under finance lease	December 31, 2018	-	-	38,944,375	38,944,375
Installment payable	December 31, 2018	-	-	9,205,042	9,205,042
2017					
	Date of Valuation	Quoted (Unadjusted) Prices in Active Markets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets					
Assets measured at fair value:					
Investments held for trading	December 31, 2017	₱178,482,842	₱-	₱-	₱178,482,842
AFS financial assets - quoted shares	December 31, 2017	646,216,790	2,300,000	-	648,516,790
Liabilities					
Liabilities for which fair value is disclosed -					
Obligations under finance lease	December 31, 2017	-	-	84,285,201	84,285,201
Installment payable	December 31, 2017	-	-	5,210,804	5,210,804

There were no transfers between fair value measurements in 2018 and 2017.

30. Segment Information

The primary segment reporting format is presented based on business segments in which the Company's risks and rates of return are affected predominantly by differences in the products and services provided. Thus, the operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

As at December 31, 2018 and 2017, the Company is organized into five business segments, namely: investment holding, real estate, public amusement recreation, gaming business and lottery equipment leasing, distribution and others.

Financial information about the Company's business segments are shown below:

	2018						
	Investment Holding	Real Estate	Public Amusement and Recreation	Gaming Business	Lottery equipment leasing, distribution and others	Eliminations/ Adjustments	Consolidated

Disaggregated Revenue Information

Set out below is the disaggregation of the Company's revenue from contracts with customers for the year ended December 31, 2018:

Type of Service	Gaming Business	Lottery Equipment Leasing, Distribution and Others	Total
Gaming revenue share – net	₱3,211,856,964	₱–	₱3,211,856,964
Commission and distribution income	–	487,626,385	487,626,385
Total revenue from contracts with customers	₱3,211,856,964	₱487,626,385	₱3,699,483,349

All revenue from contracts with customers enumerated above are all transferred over time.

Reconciliation of the revenue from contracts with customers with the amounts disclosed in the segment information follows:

Type of Service	Gaming Business	Lottery Equipment Leasing, Distribution and Others	Total
External customer	₱3,211,856,964	₱1,935,943,995	₱5,147,800,959
Equipment rental (presented separately from revenues from contract with customers)	–	(1,448,317,610)	(1,448,317,610)
Total revenue from contracts with customers	₱3,211,856,964	₱487,626,385	₱3,699,483,349

EBITDA pertains to the Company's income before tax, excluding other income (expense) and before interest, taxes, depreciation and amortization.

Revenue from gaming business segment amounting to ₱3,211.9 million, ₱2,609.4 million and ₱1,643.0 million in 2018, 2017 and 2016, respectively, are solely collectible from Melco and revenue from lottery equipment leasing, distribution and others business segment amounting to ₱1,935.9 million and ₱2,320.0 million and ₱1,888.1 million in 2018, 2017 and 2016, respectively, are solely collectible from PCSO.

The following illustrate the reconciliations of reportable segment revenues, net profit, assets and liabilities to the Company's corresponding amounts:

	2018	2017	2016
Net Profit for the Year			
Total profit for reportable segments	₱4,198,822,290	₱3,740,210,193	₱2,552,765,386
Elimination for intercompany profits	(1,889,169,176)	(1,737,544,233)	(1,394,665,250)
Consolidated net profit	₱2,309,653,114	₱2,002,665,960	₱1,158,100,136
Assets			
Total assets for reportable segments	₱18,646,339,935	₱17,806,942,537	₱16,084,424,756
Investments and advances	543,449,153	827,080,732	823,368,016
Consolidated assets	₱19,189,789,088	₱18,634,023,269	₱16,907,792,772

Disclosure of the geographical information regarding the Company's revenues from external customers and total assets have not been provided since all of the Company's consolidated revenues are derived from operations within the Philippines.

The BOD (Chief Operating Decision Maker) monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on net income or loss and is measured consistently with net income or loss in the consolidated financial statements. However, financing (including interest expense and interest income) and income taxes are managed as a whole and are not allocated to operating segments.

31. Significant Contracts and Commitments

Investment Commitment with PAGCOR

The Company and its casino operator is required to have an "Investment Commitment" based on PAGCOR guidelines of US\$1.0 billion, of which US\$650.0 million shall be invested upon the opening of the casino and the other US\$350.0 million shall be invested within a period of three (3) years from the commencement of the casino operations. The Investment Commitment should comprise of the value of land used for the projects and the construction costs of various facilities and infrastructure within the site of the project.

The other salient provisions of the License are: (i) creation of an escrow account of at least US\$100.0 million to be used exclusively for the project, with a maintaining balance of US\$50.0 million; (ii) issuance of performance bond of US\$100.0 million to guarantee the completion of the project; and (iii) issuance of surety bond of US\$100.0 million to guarantee the payment to PAGCOR of all fees payable under the license granted.

In May 2013, the Escrow was terminated as Melco deposited its own Escrow Fund to replace that of the Company.

Operating Agreement with Melco

On March 13, 2013, Belle, together with PLAI, entered into an Operating Agreement with MPHIL Holdings No. 2 Corporation, MPHIL Holdings No. 1 Corporation and Melco. Under the terms of the Operating Agreement, Melco was appointed as the sole and exclusive operator and manager of the casino development project.

The Operating Agreement shall be in full force and effect for the period of the PAGCOR License, unless terminated earlier in accordance with the agreements among the parties.

Pursuant to this agreement, PLAI shares from the performance of the casino gaming operations. Gaming revenue share in 2018, 2017, and 2016 amounted to ₱3,211.9 million, ₱2,609.4 million and ₱1,643.0 million, respectively (see Notes 21 and 30).

Advisory Services by AB Leisure Global, Inc. (ABLGI) and Belle Grande

ABLGI agreed to act in an advisory capacity to Belle and PLAI subject to certain limitations for a consideration equivalent to a percentage of PLAI's income from gaming revenue share.

Effective 2017, ABLGI, Belle and PLAI entered into an agreement to assign the ABLGI's advisory and consulting services to Belle Grande.

In 2018, PLAI entered into a termination of advisory services agreement with Belle Grande. Termination cost paid to Belle Grande recognized under “General and administrative expenses” amounted to ₱327.6 million (see Note 23).

Professional fee amounted to nil, ₱206.8 million and ₱216.1 million in 2018, 2017 and 2016, respectively, presented as part of “Service fees” account under cost of services in the consolidated statements of income (see Note 22).

Share Swap Agreement

In 1997, PLC (then Sinophil Corporation), together with Belle (then a 32% shareholder) entered into a Swap Agreement with Metroplex whereby PLC issued 3,870,000,000 of its common shares in exchange for 46,381,600 shares of LIR-HK, a Hong Kong-based company, which is a subsidiary of Metroplex.

On August 23, 2001, a Memorandum of Agreement (MOA) was entered into by and among Belle, PLC, Metroplex and LIR-HK rescinding the Swap Agreement and cancelling all obligations stated therein and reversing all the transactions as well as returning all the objects thereof in the following manner:

- a. Metroplex shall surrender the certificates of PLC shares held by them in relation to the Swap Agreement. Belle shall then cause the reduction of the capital stock of PLC to the extent constituting the PLC shares of stock surrendered by Metroplex and the cancellation and delisting of such shares from the PSE.
- b. PLC shall surrender the LIR-HK shares back to Metroplex.

In view of such definite plan to rescind the Swap Agreement through the MOA or other means, PLC discontinued using the equity method in accounting for its investment in LIR-HK starting from LIR-HK’s fiscal year beginning February 1, 1999.

On February 18, 2002, PLC’s stockholders approved the cancellation of 3,870,000,000 shares held by Metroplex. However, Metroplex failed to deliver the stock certificates for cancellation covering the 2,000,000,000 shares of their total shareholdings. PLC again presented to its stockholders the reduction of its authorized capital stock to the extent of 1,870,000,000 shares, which were already delivered by Metroplex. On June 3, 2005, the stockholders approved the cancellation and delisting of the 1,870,000,000 shares. On March 28, 2006, the SEC formally approved PLC’s application for the capital reduction and cancellation of the 1,870,000,000 PLC shares. The application to delist the said shares was also approved by the PSE.

As a result of the cancellation of the shares, investment in LIR-HK was reduced by ₱2,807.8 million in 2006. The corresponding decrease in capital stock, additional paid-in capital, and share in cumulative translation adjustments of an associate amounted to ₱1,870.0 million, ₱1,046.9 million and ₱109.1 million, respectively.

In 2007, PLC acquired LIR-HK’s loan from Union Bank of the Philippines which was secured by the 1,000,000,000 shares of PLC held by Metroplex for a total consideration of ₱81.6 million (see Note 9). Upon acquisition, an application for capital reduction and cancellation of 1,000,000,000 PLC shares was filed with the SEC after obtaining stockholders’ approval.

On June 24, 2008, upon obtaining the approval of the SEC, the 1,000,000,000 PLC shares in the name of Metroplex were cancelled. As a result, investment in LIR-HK was reduced by ₱1,501.5 million in 2008. The corresponding decrease in capital stock, additional paid-in capital and

share in cumulative translation adjustments of an associate amounted to ₱1,000.0 million, ₱559.8 million and ₱58.3 million, respectively. In 2009, PLC applied with the SEC for further decrease of its authorized capital stock for 1,000,000,000 shares. This application was approved on July 9, 2009 by the SEC. However, PLC did not effect such decrease in authorized capital stock as these cannot be surrendered for cancellation (see Note 20).

In 2009, Metroplex filed before the Court of Appeals (CA) to review the Order of the SEC denying their petition to nullify the approval of the reduction of the capital stock of the Parent Company. Petition was elevated to the Supreme Court (SC) after the CA sustained the SEC ruling (see Note 32). The deal was scuttled when the remaining 1,000,000,000 undelivered PLC shares (hereinafter referred to as the “Shares”) are being held by another creditor, Evanston Asset Holdings Pte. Ltd (“Evanston”), as collateral for loans obtained by Metroplex. Metroplex was previously negotiating for the release of such pledge to be able to carry out the terms of the MOA.

However, during 2012, PLC was informed by Evanston that they had undertaken foreclosure proceedings on the Shares. While Evanston has stated willingness to negotiate with PLC towards the transfer of the Shares, there is no assurance that PLC will be able to acquire the Shares from Evanston. Thus, PLC recognized full impairment loss on its investment in LIR-HK in view of the then uncertainty of implementing the MOA rescinding the Swap Agreement.

Notwithstanding the foregoing, cognizant of the fact that whoever had possession of the Shares would be dispossessed of its property by reason of the approval of the decrease in capital which implies the cancellation of said shares, PLC exerted earnest efforts to have the SEC revoke its approval of the third decrease in capital. However, SEC continued to deny any petition on the following grounds:

- (i) the documents submitted by appellant in support of its application for the decrease of capital stock, were all complete and regular on its face;
- (ii) there was no allegation of fraud, actual or constructive, nor misrepresentation in its application for decrease of authorized capital stock.

On June 20, 2013, PLC filed a Memorandum of Appeal with the SEC to appeal the denial of the petition.

On April 22, 2014, PLC filed with the SEC a Notice of Withdrawal of the Memorandum of Appeal filed on June 20, 2013 and proceeded to effect the cancellation of the shares and compensated the parties who were in possession of the remaining 1,000,000,000 PLC shares. As a result, investment in LIR-HK was reduced by ₱1,501.5 million in 2014. The corresponding decrease in capital stock, additional paid-in capital and share in cumulative translation adjustments of an associate amounted to ₱1,000.0 million, ₱559.8 million and ₱58.3 million, respectively.

Correspondingly, PLC recognized a receivable from Metroplex for ₱340.7 million which was the cost of implementing the MOA rescinding the Swap Agreement and the cancellation of the said Shares (see Notes 9 and 20).

Equipment Lease Agreement (ELA) between POSC and PCSO

ELA. POSC has an ELA with PCSO for the lease of not less than 800 lotto terminals, which includes central computer, communications equipment and the right to use the application software and manuals for the central computer system and draw equipment of PCSO for its Visayas-Mindanao (VISMIN) operations for a period of eight years from April 1, 2005 to March 31, 2013.

PCSO is the principal government agency for raising and providing funds for health programs, medical assistance and services, and charities of national character through holding and conducting charity sweepstakes, races, and lotteries.

2012 Amended ELA. On May 22, 2012, POSC and PCSO amended some provisions of the ELA which reduced the rental fee for the VISMIN operations and included the lease of lotto terminals and supply of betting slips and ticket paper rolls in some of PCSO's Luzon operations for additional lease fee effective June 1, 2012 until March 31, 2013, which is concurrent with the ELA expiry. The amendment also incorporated the fee for maintenance and repair services as part of the rental fee and provided PCSO an option to purchase the equipment related to its VISMIN operations at the end of the lease period for ₱15.0 million.

2013 Amended ELA. On March 26, 2013, the POSC and PCSO further amended some provisions of the ELA which extended it from March 31, 2013 to July 31, 2015. In lieu of the PCSO option to purchase the equipment related to its VISMIN operations, POSC agreed to reduce the rental fee on the lotto terminals for the VISMIN operations and shoulder the cost of betting slips and ticket paper rolls for the PCSO's Luzon and VISMIN operations. The amendment also incorporated the fee for the supply of betting slips and ticket paper rolls for the PCSO's Luzon operations as part of the rental fee.

2015 Amended ELA. In 2015, the POSC and PCSO further amended some provisions of the ELA which extended it from August 1, 2015 to July 31, 2018 (see Note 27). The amendment also required POSC to deposit an additional ₱5.0 million cash bond to guarantee the unhampered use and operation of the lottery system, including equipment, servers, network communication and terminals. The additional cash bond is included under "Other noncurrent assets" in the consolidated statements of financial position.

2018 Amended ELA. On September 12, 2018, the ELA was amended to extend the term from August 1, 2018 to July 31, 2019. The amendment required POSC to post an additional deposit of ₱7.0 million cash bond. The total cash bond of ₱12.0 million is included under "Other noncurrent assets" in the consolidated statements of financial position.

The rental fee, presented as "Equipment rental" in the consolidated statements of income, is based on a percentage of gross sales of lotto tickets from PCSO's VISMIN and Luzon operations or a fixed annual rental of ₱35,000 per terminal in commercial operation, whichever is higher. This covers the equipment rental of lotto terminals, central computer and communications equipment including the accessories and right to use the application software and manuals for the central computer system and terminals and draw equipment, as well as the supply of betting slips and ticket paper rolls, and maintenance and repair services. The number of installed lotto terminals totaled 4,029 and 4,205 as at December 31, 2018 and 2017, respectively.

Instant Scratch Tickets. On March 25, 2009, POSC entered into a non-exclusive Memorandum of Agreement (MOA) with PCSO for the printing, distribution and sale of scratch tickets effective December 1, 2009. The share of PCSO is guaranteed for every 500 million tickets sold for a period of seven years from the date of the MOA's effectivity. The MOA requires a cash bond to be deposited in an interest-bearing bank account designated by PCSO to guarantee the payment of all prizes for each series of tickets distributed, subject to review by PCSO, which was paid in January 2010, for a period of seven years from the date of initial launch of the instant tickets and shall be maintained co-terminus with this MOA. The ₱10.0 million cash bond is recognized under "Other noncurrent assets" account in the consolidated statements of financial position.

On March 31, 2015, POSC entered into an OMOA with PMLC for the authorization of PMLC as the exclusive marketing, distribution, selling and collecting agent of POSC throughout the Philippines. The agreement took effect on April 1, 2015 and shall remain effective as long as the MOA with PCSO or any extension thereof shall be effective.

PMLC agreed to assume POSC's commitment to PCSO to solely shoulder the project cost for the Instant Scratch Ticket program, which consists of the costs of production, distribution, warehousing, printing, handling, software and hardware maintenance, advertising, marketing, selling and other related expenses necessary to totally dispose of all instant tickets. PMLC is entitled to all the revenues, sums and proceeds from the Instant Scratch Tickets beginning April 1, 2015, and shall be obligated to shoulder the pay-outs for all winnings from said tickets sold beginning April 1, 2015. In consideration for the OMOA, PMLC agreed to pay POSC a guaranteed fixed monthly fee of ₱4.0 million starting April 2015. This fee is included as part of "Commission and distribution income" under "Revenues" in the consolidated statements of income.

POSC shall continue to pay the share of PCSO and the cash bond pursuant to the MOA, however, PMLC agreed to guarantee payment of the share of PCSO to POSC beginning April 2015. An existing consultancy agreement between POSC and PMLC for the scratch ticket operations was immediately terminated upon execution of the OMOA.

The MOA with POSC expired on November 30, 2016 and the OMOA with PMLC also expired accordingly. All tickets distributed to the retailers and agents, shall be allowed to be marketed continuously until fully sold and the corresponding winnings thereof shall be honored and paid even after the period of the MOA with PCSO.

In 2018, POSC received a certification from the PCSO stating the fulfillment of POSC's obligation under the MOA and thereby clearing POSC of any accountability thereunder. PCSO certified that POSC is entitled to the release of the ₱10.0 million cashbond. The cash bond is expected to be collected in the next financial period. Thus, in 2018, the Company reclassified the cash bond amounting to ₱10.0 million from noncurrent asset to "Other current assets" account (see Note 11).

Brand and Trademark Agreement with PMLC

In January 2018, POSC entered into a Brand and Trademark License Agreement (BTLA) with PMLC granting the latter a non-assignable, non-transferable and exclusive right to use POSC's instant scratch tickets' brand and trademarks. The agreement has an initial term of five (5) years effective on January 1, 2018, subject to adjustment to conform to and coincide with term of the PMLC's agreement with PCSO for the supply and distribution of its instant scratch tickets. In consideration of the BTLA, PMLC agreed to pay POSC a guaranteed fixed monthly fee of ₱4.0 million starting January 2018. The agreement with PMLC was accounted for as right to use the brand and trademark. POSC already transferred the control over the brand and trademark to PMLC on January 1, 2018 and there are no other performance obligation to be provided to PMLC. Thus, POSC recognized revenue on the use of the brand and trademark amounting to ₱203.5 million (see Note 24). Interest income earned in 2018 amounted to ₱12.5 million.

Contract asset was recognized for the earned consideration but not yet collected. Current portion of contract asset as at December 31, 2018 amounted to ₱37.9 million while noncurrent portion amounted to ₱130.1 million.

TGTI Equipment Rental

TGTI has an ELA with PCSO which provides for the lease of the equipment for PCSO's "Online KENO" games. The lease is for a period of ten (10) years commencing on October 1, 2010, the date of actual operation of at least 150 "Online KENO" outlets. The rental fee, presented as "Equipment

rental” in the consolidated statements of income, is based on a percentage of the gross sales of the “Online KENO” terminals or a fixed annual rental of ₱40,000 per terminal in commercial operation, whichever is higher. The ELA may be extended and/or renewed upon the mutual consent of the parties.

On July 15, 2008, TGTI and PCSO agreed on some amendments to the ELA. Under the terms of the Amended ELA, TGTI shall provide the services of telecommunications integrator and procure supplies for the “Online KENO” operations of PCSO in Luzon and VISMIN areas. In consideration for such services, PCSO shall pay additional fee based on a certain percentage of the gross sales from all “Online KENO” terminals in operation in Luzon and VISMIN areas computed by PCSO and payable bi-weekly. As at December 31, 2018 and 2017, there are 2,454 and 2,400 “Online KENO” terminals in operation, respectively.

POSC’s Consultancy Agreements, Scientific Games, Intralot, Management Agreement

a. Consultancy Agreements

POSC and its subsidiaries hired the services of several consultants for its gaming operations. Consultancy fees are based on a certain percentage of the gross amount of ticket sales of certain variants of lottery operations of PCSO.

b. Scientific Games

On February 15, 2005, POSC entered into a contract with Scientific Games, a company incorporated under the laws of the Republic of Ireland, for the supply of computer hardware and operating system software. Under the terms of the “Contract for the Supply of the Visayas-Mindanao Online Lottery System (CVMOLS),” Scientific Games provided 900 online lottery terminals and terminal software necessary for POSC’s leasing operations. In consideration, POSC shall pay Scientific Games a pre-agreed percentage of its revenue from PCSO’s conduct of online lottery games using the computer hardware and operating system provided by Scientific Games. The Contract shall continue as long as POSC’s ELA with PCSO is in effect.

On October 2, 2012, POSC and Scientific Games amended the contract to extend the period from April 1, 2013 until August 31, 2015, and for the supply of additional terminals for the 2012 Amended ELA.

On November 20, 2015, POSC and Scientific Games further amended the contract to extend the period from September 1, 2015 until July 31, 2018 and for Scientific Games to supply 1,500 brand new terminals to POSC. The amended contract also removed the provision for the Inactive Terminal Fee of US\$25.00 per terminal per month for any additional terminals not connected to the software provided by Scientific Games.

In August 2018, the contract with Scientific Games was further amended to extend the period until July 31, 2019.

c. Intralot

- i) On March 13, 2006, POSC entered into a contract with Intralot, a company incorporated under the laws of Greece, for the supply of online lottery system necessary for the operation of a new online lottery system effective December 8, 2006. Under the terms of the CVMOLS, Intralot provided POSC the hardware, operating system software and terminals and the required training. In consideration, POSC shall pay Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO’s conduct of online lottery operation or

a fixed amount of US\$110 per terminal per month, whichever is higher. The contract shall continue as long as POSC's ELA with PCSO is in effect.

On July 10, 2006, Intralot entered into an agreement with Intralot Inc., a subsidiary domiciled in Atlanta, Georgia, wherein Intralot assigned to Intralot, Inc. the whole of its contract with POSC, including all its rights and obligations arising from it.

On August 16, 2012, POSC and Intralot further agreed to amend the supply agreement for the latter to supply reconditioned or refurbished lotto terminals to the former. These additional terminals are ordered to enable POSC to serve the requirements of PCSO in the 2012 Amended ELA. However, POSC has the option to order from Intralot brand new lotto terminals at a higher price per unit. POSC paid Intralot a pre-agreed percentage of the revenue generated by the terminals from PCSO's online lottery operations in Luzon or US\$110.00 per terminal, whichever is higher.

On September 6, 2013, POSC and Intralot further agreed to amend the supply agreement for the latter to provide for additional terminals to enable POSC to expand its online lottery operations. Furthermore, effective April 1, 2013, POSC and Intralot agreed to lower the percentage of revenues paid by the former to the latter.

In April 2016, POSC and Intralot again amended the contract for Intralot to supply additional reconditioned or refurbished lotto terminals to POSC and extend the term of the contract until August 31, 2018.

On September 25, 2018, the contract with Intralot was further amended to extend the period until July 31, 2019.

- ii) TGTI has a contract with Intralot effective until September 30, 2020 for the supply of online lottery system (lottery equipment) accounted for as a finance lease. TGTI is being charged a certain percentage of equipment rental from the revenue from PCSO. On July 15, 2008, the Lease Contract between TGTI and Intralot was modified such that instead of receiving monthly remuneration calculated on a percentage basis of the gross receipts of TGTI from its ELA, Intralot now receive monthly remuneration calculated on a percentage basis of the gross receipts of PCSO from its "Online KENO" games. On March 22, 2011, the Lease Contract between or US\$60 per terminal per month, whichever is higher and Intralot was further modified to reduce the percentage charged by Intralot to TGTI and that TGTI undertakes a letter of guarantee amounting to ₱20.0 million not later than March 28, 2011 in order for TGTI to secure the payment of Intralot's remuneration. The said guarantee bond is recognized under "Other noncurrent assets" account in the consolidated statements of financial position.

d. Management Agreement

POSC and TGTI entered into a Management Agreement with AB Gaming and Leisure Exponent Specialist, Inc. for the latter to provide investment and management counsel and to act as manager and overseer of its operations. In consideration of the Manager's services, POSC shall pay a monthly fee of ₱0.1 million and an amount equivalent to ten percent (10%) of the annual earnings before interest, taxes, depreciation, and amortization (EBITDA) while TGTI will pay a certain percentage of its EBITDA.

Software and license fee recognized as part of “Cost of services” arising from Scientific Games contract and Intralot contracts above amounted to ₱195.7 million, ₱191.7 million and ₱186.6 million in 2018, 2017 and 2016, respectively (see Note 22).

Consultancy and management fees recognized under “Consultancy fees” as part of “Cost of services” amounted to ₱76.0 million, ₱136.6 million and ₱122.8 million in 2018, 2017 and 2016, respectively (see Note 22). Consultancy fees recognized under “Professional, service and management fees” as part of “General and Administrative Expenses” amounted to ₱25.9 million, nil, and ₱20.5 million in 2018, 2017 and 2016, respectively (see Note 23).

32. Contingencies

- a) The Parent Company is a party to a civil case filed by Metroplex before the Court of Appeals (CA) to review the February 26, 2009 Order of the SEC denying the Metroplex petition to nullify the approval of the reduction of the capital stock of the Parent Company (see Note 31). On July 17, 2013, CA sustained the ruling of the SEC, thus Metroplex filed a petition for review with the Supreme Court on September 4, 2014. As at February 22, 2019, the Supreme Court has yet to resolve this petition. However, as discussed in Note 31, the cancellation of the Swap Agreement was implemented following the Parent Company’s filing with the SEC of a Notice of Withdrawal of the Memorandum of Appeal filed on June 20, 2013.
- b) The management is still assessing the possible impact of the on-going litigation between Philippine Gaming Management Corporation (PGMC) and PCSO that, if resolved in favor of PGMC, would have the effect of cancelling the existing terminals currently operating in Luzon, as leased by POSC to PCSO.

On September 5, 2012, a Writ of Preliminary Injunction (Injunction) was issued by Branch 143 of the Regional Trial Court of Makati. The Injunction orders PCSO to refrain from: 1) implementing, enforcing or exercising any right arising from the 2012 ELA between the POSC and PCSO; 2) ordering or allowing POSC, or any third party, to install or operate any equipment, computer or terminal relating to on-line lottery operations in Luzon; and 3) committing any act that in any way violates or otherwise interferes with the ELA between PGMC and PCSO. POSC has filed a case with the Supreme Court to nullify the Injunction.

On July 17, 2013, the Supreme Court decided on the case brought forth by POSC that it be consolidated with the case between PGMC and PCSO, thus making POSC a party to the case which is now pending before the CA. Meanwhile, PGMC and PCSO have entered into an Interim Settlement whereby they agreed, among others, to maintain the status quo insofar as the POSC terminals already installed in Luzon are concerned. POSC’s Request for Arbitration dated May 12, 2014 was denied by the International Court of Arbitration on July 17, 2014, due to PCSO’s opposition. An Urgent Motion to Resolve was filed by POSC with the CA to compel the court to issue an order to PGMC and PCSO to include the POSC in the negotiations.

On January 29, 2016, PCSO filed a Manifestation with Motion to Dismiss dated January 12, 2016, stating that the presiding Judge approved PGMC and PCSO’s “Interim Settlement” dated December 11, 2013 wherein it was agreed that the case will be archived pending arbitration. PCSO also averred that, on December 13, 2015, PGMC and PCSO executed a “Supplemental and Status Quo Agreement” wherein the parties agreed to dismiss all pending judicial and civil actions between them but shall continue with the arbitration proceedings. Thus, pursuant to the agreement, PCSO prayed for the dismissal of this case which was eventually dismissed by virtue of the Resolution dated March 1, 2016.

On September 13, 2016, POSC filed a Memorandum with the CA. The case is now submitted for the resolution. As at February 22, 2019, the case is still pending with the CA.

33. Events after the Reporting Period

On February 22, 2019, the Parent Company's BOD approved the declaration of cash dividends of ₱0.05024 per share amounting to approximately ₱1,588.8 million to shareholders of record as at March 8, 2019. Payments will be made on March 22, 2019.

34. Supplemental Disclosure of Cash Flow Information

Changes in Liabilities Arising from Financing Activities

	January 1, 2018	Additions	Cash flows	Finance charges	December 31, 2018
Dividends payable	₱-	₱1,490,549,616	(₱1,490,549,616)	₱-	₱-
Obligations under finance lease	74,862,984	-	(45,675,862)	6,187,352	35,374,474
Total liabilities from financing activities	₱74,862,984	₱1,490,549,616	(₱1,536,225,478)	₱6,187,352	₱35,374,474

	January 1, 2017	Additions	Cash flows	Finance charges	December 31, 2017
Dividends payable	₱-	₱1,041,930,481	(₱1,041,930,481)	₱-	₱-
Obligations under finance lease	119,342,596	6,437,551	(61,777,018)	10,859,855	74,862,984
Total liabilities from financing activities	₱119,342,596	₱1,048,368,032	(₱1,103,707,499)	₱10,859,855	₱74,862,984

Finance charges pertains to accretion of obligations under finance lease.

Noncash Activities

- Unearned income in 2017, realized in 2018 amounting to ₱268.9 million (see Note 18).
- Additions to property and equipment amounting to nil and ₱6.4 million from lease of lottery equipment accounted for as finance lease in 2018 and 2017, respectively.
- Net assets from the acquisition of LCC subsidiaries in 2017 (see Note 16).

INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES

The Stockholders and the Board of Directors
Premium Leisure Corp.
5th Floor, Tower A
Two E-Com Center, Palm Coast Avenue
Mall of Asia Complex, Pasay City

We have audited in accordance with Philippine Standards on Auditing, the consolidated financial statements of Premium Leisure Corp. and its subsidiaries (the Company) as at December 31, 2018 and 2017 and for each of the three years in the period ended December 31, 2018 and have issued our report thereon dated February 22, 2019. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The schedules listed in the Index to Consolidated Financial Statements and Supplementary Schedules are the responsibility of the Company's management. These schedules are presented for purposes of complying with Securities Regulation Code Rule 68, As Amended (2011) and are not part of the basic financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly state, in all material respects, the information required to be set forth therein in relation to the basic financial statements taken as a whole.
