The consolidated net loss of Sinophil Corporation ("Sinophil" or the "Company") amounted to \$\mathbb{P}6.52\$ million for the nine months ended September 30, 2013, which is higher by \$\mathbb{P}2.71\$ million compared to a consolidated net loss of \$\mathbb{P}3.81\$ million for the nine months ended September 30, 2012. The higher net loss in 2013 was due to the increase in general and administrative expenses of \$\mathbb{P}2.71\$ million (71%), to \$\mathbb{P}6.52\$ million in 2013 from \$\mathbb{P}3.81\$ million in 2012. The increase in operating expenses was mainly due to higher taxes & licenses and professional fees incurred during the period. Sinophil's total comprehensive loss for the nine months ended September 30, 2013 of \$\mathbb{P}16.72\$ million was higher than the total comprehensive loss for the nine months ended September 30, 2012 of \$\mathbb{P}1.34\$ million, due to the decrease in unrealized mark-to-market gains in available-for-sale investments, primarily its 85.7 million common shares of Belle Corporation ("Belle"). Aside from what has been mentioned in the foregoing, there were no significant elements that arose from continuing operations, nor were there any seasonal events that had a material effect on the results of operations of Sinophil during the nine months ended September 30, 2013.

Sinophil's total assets amounted to ₱2.080 billion as of September 30, 2013, which is higher by ₱53.5 million (2.6%) compared to ₱2.027 billion as of December 31, 2012. The Company's total liabilities increased by ₱70.2 million (43.4%) to ₱232.1 million as of September 30, 2013 from ₱161.9 million as of December 31, 2012, due to the acquisition of 17 lots in Belle's The Parks at Saratoga Hills totaling 7,990 square meters in area with a valuation of approximately ₱73.4 million. The Company's equity decreased by ₱16.6 million (0.9%), to ₱1.85 billion as of September 30, 2013 from ₱1.86 billion as of December 31, 2012. There were no issuances of additional shares of stock, nor payment or declaration of dividends made, during the last quarter of 2013.

On August 28, 2009, a Memorandum of Agreement (MOA) was executed between Belle and the Company relative to the proposed settlement of the 1 billion Belle Preferred shares held by Sinophil and dividends receivable therefrom. The MOA, as amended, provides for, among other things, the following: (i) the transfer by Belle to Sinophil of 220 shares of Tagaytay Midlands Golf Club, Inc. "TMGC") in 2009 at prevailing market rates; (ii) in consideration of the TMGC shares, Sinophil renounced all past, present and future dividends on Belle preferred shares held by it; (iii) the transfer by Belle to Sinophil of 17 lots in The Parks at Saratoga Hills at prevailing market rates; (iv) the undertaking by Belle to title in Sinophil's name approximately 36 hectares of Sinophil's land currently still under tax declarations in Tanauan, Batangas; (v) the transfer by Belle to Sinophil by August 2019 of saleable lots in a future real estate project in Tanauan, Batangas having an aggregate value of approximately P794 million at prevailing market rates (the "Lots"); and (vi) the eventual cancellation of the Belle preferred shares held by the Company upon receipt by it of the Lots, which are to be completed by Belle by August 2019.

#### PART II - OTHER INFORMATION

#### Financial Risk Management

The Company's principal financial instruments comprise cash and AFS investments. The main purpose of these financial instruments is to help finance the Company's operations. The Company has other financial assets and liabilities such as receivables and accrued expenses and other current liabilities, which arise directly from its operations.

The main risks arising from the Company's financial instruments are credit risk, liquidity risk and equity price risk. The Company is not exposed to any other type of market risk as the Company has no outstanding foreign currency-denominated accounts and interest-bearing loans and borrowings as of September 30, 2013 and December 31, 2012.

The Board of Directors reviews and approves the policies for managing credit, liquidity and equity price risks and they are summarized below:

Credit Risk. Credit risk arises from the Company's financial assets which are composed of cash, receivables and AFS investments. It is the Company's policy that all credit terms are subject to credit verification and/or approval procedures. The Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Company's credit risk is primarily with Belle, a major stockholder, of which outstanding balance covers at least 69% and 96% of the Company's total receivables as of September 30, 2013 and December 31, 2012, respectively.

Liquidity Risk. Liquidity risk arises from the possibility that the Company may encounter difficulties in meeting obligations associated with its accrued expenses and other current liabilities.

The Company seeks to manage its liquidity profile to be able to finance its investments and pay its outstanding liabilities. To cover its financing requirements, the Company uses internally generated funds.

The Company's accrued expenses and other current liabilities are payable on demand.

<sup>\*</sup>Excluding statutory payables amounting to P31,717 and P44,284 as of September 30, 2013 and December 31, 2012, respectively.

Fair value is defined as the amount at which the financial instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm's-length transaction, other than in a forced liquidation or sale. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets of liabilities;
- Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The carrying amounts of cash, receivables and others and accrued expenses and other current liabilities approximate their fair values due to the short-term nature of the transactions.

The fair values of AFS investments in quoted equity shares are based on quoted prices in the Philippine Stock Exchange as of reporting date. There are no quoted market prices for the unlisted shares of stock and there are no other reliable sources of their fair values, therefore, these are carried at cost, net of any impairment loss.
