As at September 30, 2024, PLC's total assets amounted to Php19,747.3 million, showing an increase of Php1,626.5 million (9%) compared to the total assets as at December 31, 2023. Key movements in balance sheet items are as follows:

Cash and cash equivalents

Cash and cash equivalents include cash in bank and short-term investments or cash equivalents of the Company.

Cash and cash equivalents increased by Php1,795.4 million (90%) as at September 30, 2024 mainly because of the collection of gaming revenue share and lease and commission income revenues offset by the disbursements made during the period.

Investments held for trading

Investments held for trading decreased by Php56.1 million (56%) from Php100.0 million in 2023 to Php43.8 million in 2024 due to sale of one of its investment amounting to Php55.2 million offset by the mark-to-market gain on share price value of the shares of stock.

Trade and other receivables

Trade and other receivables include trade receivables from the Philippine Charity Sweepstakes Office (PCSO) for POSC's equipment rentals and receivables from Melco for City of Dreams Manila's gaming share revenue as well as other receivables. The Company recorded net decrease in trade and other receivables by Php10.5 million (2%) due to lower revenues and corresponding receivables for the period.

Intangible Asset

The Company's intangible asset pertains to the Philippine Gaming and Amusement Corporation (PAGCOR) gaming license obtained by PLC through its subsidiary, Premium Leisure and Amusement, Inc. (PLAI). The decrease in the intangible asset account is brought about by the amortization of the license.

PART II - OTHER INFORMATION

Financial Risk Management Objectives and Policies and Capital Management

The Company's principal financial liabilities comprise trade payables and other current liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include cash and cash equivalents and receivables that derive directly from its operations. The Company also holds investments held for trading, notes receivables, financial assets at FVOCI, guarantee bonds and deposits included as part of "Other noncurrent assets" in the consolidated statement of financial position.

The main risks arising from the Company's financial instruments are credit risk, liquidity risk, equity price risk and foreign currency risk. The BOD and management review and approve the policies for managing credit, liquidity, equity price and foreign currency risks and they are summarized below:

Credit Risk. Credit risk is the risk that the Company will incur a loss because its counterparties failed to discharge their contractual obligations. Credit risk arises from the Company's financial assets which are composed of cash and cash equivalents, receivables and financial assets at FVOCI.

The Company's credit risk is concentrated on a few companies with which it transacts business. One of which is the PCSO, through its subsidiary, POSC. POSC's trade receivable arises from equipment lease agreement with PCSO, POSC's sole customer. It is part of the Company policy that all the terms specified in the ELA with PCSO are complied with and ensure that payment terms are met. Another major customer is Melco, from whom gaming revenue share is collected. Belle, a major stockholder, also has outstanding loans payable to the Company. The Company keeps close coordination with Melco and Belle and ensures that contract and agreement terms are met.

With respect to credit risk arising from the other financial assets which are composed of cash and cash equivalents, other receivables, investments held for trading, financial assets at FVOCI, guarantee bonds and deposits, the Company's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

High grade financial assets pertain to those receivables from related parties or customers that consistently pay on or before the maturity date while medium grade includes those financial assets being collected on due dates with an effort of collection. The Company assessed its cash in bank and cash equivalents as high grade since this is deposited with reputable banks.

Liquidity Risk. Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or other financial asset.

The Company seeks to manage its liquidity profile to be able to finance its investments and pay its outstanding liabilities. To limit this risk, the Company closely monitors its cash flows and ensures that credit facilities are available to meet its obligations as and when they fall due. To cover its financing requirements, the Company uses internally generated funds as well as a committed line of credit that it can access to meet liquidity needs. The Company maintains sufficient cash to finance its operations. Any excess cash is invested in short-term money market placements. These placements are maintained to meet the requirements for additional capital expenditures, maturing obligations and cash dividends. Liquidity risk is minimal as at September 30, 2024 and December 31, 2023 as the total current assets can cover the total current liabilities as they fall due.

Equity Price Risk. Equity price risk is the risk that the fair value of quoted investment held for trading and financial assets at FVOCI decrease as the result of changes in the value of individual stocks. The Company's exposure to equity price risk is primarily to the Company's quoted investments held for trading and financial assets at FVOCI. The Company monitors the equity investments based on market expectations. Significant movements within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the BOD.

Foreign Currency Risk. The Company, through POSC, has foreign currency exposures. Such exposure arises from cash and cash equivalents and payables to certain suppliers which are denominated in U.S. dollar (US\$). The Company's financial instruments which are denominated in foreign currency include cash and cash equivalents and consultancy and software license fees payable. The Company maintains a US\$ account to match its foreign currency requirements.

Capital Management. The primary objective of the Company's capital management is to safeguard its ability to continue as a going concern, so that it can continue to provide returns to shareholders and benefits to other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. There were no changes made in the objectives, policies or processes in 2024 and 2023.

Fair Value of Financial Instruments

Fair value is defined as the amount at which the financial instrument could be exchanged in a current transaction between knowledgeable willing parties in an arm's length transaction, other than in a forced liquidation or sale. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models, as appropriate.

The carrying values of cash and cash equivalents, receivables, deposits and trade payables and other current liabilities (excluding statutory liabilities) approximate their fair values due to the short-term nature of the transactions.

The fair values of investments held for trading and financials assets at FVOCI that are quoted equity shares are based on quoted prices in the PSE or those shares whose prices are readily available from brokers or other regulatory agency as at reporting date.

Set out below is a comparison by category of carrying values and fair values of all the Company's financial instruments.
