Total outstanding shares is Thirty-One Billion Two Hundred Sixteen Million Nine Hundred Thirty-One Thousand (31,216,931,000) common shares, out of which Belle Corporation (Belle) owned 24,904,324 common shares equivalent to 79.78% of PLC's outstanding capital stock prior to the tender offer. In the event all Tender Offer Shares were offered to and acquired by Belle, Belle would own, at most, 31,216,930,993 common shares or 99.99% of PLC.

The Tender Offer

Sections 2(c) and (d) of the PSE Memorandum CN No. 2020-0104 (Amended PSE Voluntary Delisting Rules) requires that a tender offer be conducted prior to the filing of a petition for voluntary delisting of listed shares and that the tender offer must be supported by a fairness opinion or valuation report, stating the fair value or range of fair values of the listed shares.

Further, Section 2(e) of the Amended PSE Voluntary Delisting Rules requires that, following the tender offer, the persons proposing delisting must have acquired at least 95% of the issued and outstanding capital stock of listed company for delisting (95% Threshold), subject to compliance with the other requirements set by the Amended PSE Voluntary Delisting Rules.

On 11 March 2024, the Board of Directors of Belle approved its conduct of a voluntary tender offer for all outstanding common shares of PLC, subject to an independent third-party fairness opinion to be issued by First Metro Investment Corporation (**First Metro**). The tender offer <u>was</u> conducted by Belle for the purpose of the voluntary delisting of PLC shares from the Main Board of The Philippine Stock Exchange, Inc. (**PSE**), with Belle as proponent. Based on PLC's outstanding capital stock, a total of 6,312,026,669 common shares <u>were</u> subject of the tender offer (the **Tender Offer Shares**). The Tender Offer Shares computed by deducting the shares owned by Belle and 7 shares for the 7 directors of PLC from PLC's total outstanding capital stock.

On the same date, the Board of Directors of PLC subsequently approved the Voluntary Delisting of PLC, subject to the successful completion of the intended tender offer by Belle, compliance with other requirements of the PSE for voluntary delisting, and applicable regulations of the Securities and Exchange Commission (**SEC**).

On 20 March 2024, the Board of Directors of Belle approved the following:

- 1. Setting the tender offer price at Php0.85 per common share of PLC based on the fairness valuation report prepared by First Metro, authorized by the PSE for the purpose;
- 2. Setting the tender offer period from 22 March to 24 April 2024;
- Setting the payment and settlement of the tendered shares from 25 April to 9 May 2024 for its tender offer for PLC common shares; and
- 4. Appointment of BDO Securities Corporation as Tender Offer Agent.

Tender Offer Period

The tender commenced at 9:30 a.m. on 22 March 2024 and <u>ended</u> at 3:00 p.m. on 24 April 2024 (the **Tender Offer Period**), during which period any tendering stockholder of PLC <u>were allowed to</u> offer all or a portion of their shares in PLC for sale to Belle in accordance with, and subject to the terms and conditions of the Tender Offer.

On 22, 23 and 24 March 2024, Belle published the terms and conditions of the tender offer in Business Mirror and Manila Times in compliance with the 2015 Implementing Rules and Regulation of the Securities Regulation Code.

Stockholders who previously tendered their shares <u>were</u> allowed to withdraw such tendered shares at any time while the Tender Offer Period <u>remained</u> open.

This Tender Offer is subject to the *Terms of the Tender Offer* and *Application to Tender Shares of PLC*, attached and made integral parts hereof as **Exhibits A** and **B**, respectively.

BDO Securities Corporation has been appointed as the Tender Offer Agent and Paying Agent for the Tender Offer.

The PSE Rules on Voluntary Delisting requires that a party proposing the delisting of a listed company must show that it has acquired at least 95% of the outstanding capital stock of the listed company. For this reason, Belle's Tender Offer for the shares of PLC will be deemed withdrawn in the event that the required acquisition of at least 95% of PLC's outstanding capital stock will not be secured. The accepted Tender Offer Shares were crossed through the PSE on-7 May 2024 (the Cross Date). The sale and purchase of the accepted Tender Offer Shares shall be settled no later than 9 May 2024 (the Settlement Date).

Tender Offer Price

Belle <u>offered</u> a price of Eighty-Five Centavos (Php0.85) per common share (the **Tender Offer Price**), which is the highest valuation based on the fairness opinion report prepared by First Metro and is higher than the volume weighted average price of PLC listed shares for one (1) year immediately preceding the date of disclosure of the approval by PLC's Board of Directors of PLC's delisting from the PSE.

Payments for the Tender Offer Price are payable to PLC stockholders who have validly tendered or offered for sale their shares to Belle (the **Tendering Stockholders**) by way of check payments which are available for pick-up at the office of the Tender Offer Agent or by check deposit to their designated bank accounts, subject to bank clearing guidelines. The Tender Offer Price does not include customary selling charges (e.g. stock transaction tax, SEC and PSE transaction fees, and other applicable charges).

Common shares of PLC are currently listed at the Main Board of the PSE under the symbol "PLC". Below is a summary of the highest and lowest closing prices of the common shares of PLC for each quarterly period for the immediately preceding two-year period:

Fairness Opinion

First Metro, an independent financial adviser duly accredited by the PSE, has issued a fairness opinion and valuation report dated 17 March 2024 stating that PLC is considered fairly valued at a range between Php0.60 to Php0.85 per share. Thus, the Tender Offer Price at Php0.85 per share is fair and is the highest of a range of values of the shares of PLC. A copy of the Fairness Opinion of First Metro is here attached and made an integral part of this Report as **Exhibit C**.

In its Fairness Opinion, First Metro confirmed that the Tender Offer Price for the Tender Offer Shares is fair from a financial point of view and is reasonable. In valuing PLC, First Metro considered the relevance of the various valuation methodologies for purposes of determining the fair value of PLC's common shares such as the Income Approach – Dividend Discount Model (DDM) and the Market Approach – Comparable Companies, Comparable Transactions, and Volume-Weighted Average with cut-off date of 11 March 2024.

Using the Income Approach - DDM method, First Metro calculated PLC's indicative equity value to range between Php19,976.5Mn to Php25,592.3Mn, or corresponding to Php0.64 to Php0.82 price per share, respectively. Using the Market Approach – Enterprise Value to EBITDA comparable company methodology, First Metro estimated PLC's indicative equity value at Php24,667.5Mn or corresponding to a price per share of Php0.79. Using the Market Approach – Price-to-Earnings comparable company methodology, PLC's indicative value was estimated at Php26,410.7Mn or corresponding to a price per share of Php0.85. Using the Market Approach – Enterprise Value to EBITDA comparable transactions methodology, PLC's indicative market capitalization was estimated at Php26,358.1Mn or corresponding to a price per share of Php0.84. Using the Market Approach – Volume-Weighted Average Price (VWAP) methodology, First Metro calculated the 1-year VWAP for PLC from 13 March 2023 to 11 March 2024 to have settled at Php0.60 per share.

Considering the foregoing, the Tender Offer Price at Php0.85, which is the highest of the Php0.60 to Php0.85 per share range of values of the shares of PLC considered by First Metro as fair and reasonable and which is higher than the 1-year VWAP for PLC calculated by First Metro at Php0.60 per share, is in accordance with the Amended PSE Voluntary Delisting Rules that requires the tender offer price to be the highest valuation based on the fairness opinion report prepared by an independent financial adviser and to be higher than the volume weighted average price of PLC listed shares for one (1) year immediately preceding the date of disclosure of the approval by PLC's Board of Directors of PLC's delisting from the PSE.

Sufficiency of Funds of the Bidder

Belle likewise confirms that it has sufficient resources, including cash on hand, which are available to satisfy full acceptance of the Tender Offer Shares amounting to a maximum aggregate purchase price of Five Billion Three Hundred Sixty-Five Million Two Hundred Twenty-Two Thousand Six Hundred Sixty-Eight Pesos and Sixty-Five Centavos (Php5,365,222,668.65), as supported by the confirmation provided by BDO Unibank, Inc., here attached and made an integral part hereof as **Exhibit D**.

In case of any subsequent developments that may affect the sufficiency of Belle's resources as reflected in Exhibit D, Belle, as bidder, undertakes to submit an updated confirmation of the sufficiency of its resources issued by an appropriate third party, pursuant to Securities Regulation Code (SRC) Rule 19.7.1.7.

Results of the Tender Offer

<u>During the Tender Offer Period, a total of 6,172,192,242 common shares or approximately 19.77% of PLC's issued and outstanding common stock were tendered and accepted by the Belle. The accepted Tender Offer Shares were crossed through the PSE on 7 May 2024. The tendered</u>

shares were purchased by Belle at the Tender Offer Price, or a total consideration of Five Billion Two Hundred Forty Six Million Three Hundred Sixty Three Thousand Four Hundred Five Pesos and Seventy Centavos (Php5,246,363,405.70). The sale and purchase of the tendered shares shall be settled no later than 9 May 2024. After the completion of the Tender Offer, Belle will own approximately 99.55% of PLC's total issued and outstanding capital stock.

A certification issued by BDO Securities Corporation, the Tender Offer Agent, certifying to the results of the Tender Offer is attached here as Exhibit H.

Item 3. Purpose of the Tender Offer and Plans or Proposals of the Bidder

Purpose of the Tender Offer

This Tender Offer <u>was</u> conducted to comply with the Amended PSE Voluntary Delisting Rules, in view of Belle's intention to delist PLC shares from the Main Board of the PSE. Sections 2(c) and (d) of the Amended PSE Voluntary Delisting Rules requires that a tender offer be conducted prior to the filing of a petition for voluntary delisting of listed shares.

<u>Prior to the Tender Offer.</u> PLC's public ownership totaling 20.08% <u>was</u> comprised of 6,267,577,673 outstanding common shares. The number of PLC shares that <u>traded</u> daily on the PSE is 10,440,698 shares on average, comprising only 0.17% of the public float, over a one year period from 17 March 2023 to 19 March 2024. Given the low trading volume, Belle <u>believed</u> that the share value of PLC does not reflect its intrinsic value, which makes it prohibitive for PLC to raise capital. As such, Belle <u>proposed</u> to delist PLC shares from the Main Board of the PSE.

Plans/Proposals of the Bidder

Voluntary Delisting of PLC

The Tender Offer may result in the delisting of PLC from the Main Board of the PSE, subject to the compliance with other requirements of the PSE for voluntary delisting, and applicable regulations of the SEC.

Reportorial Requirements of PLC

SRC Rule 17.1(1)(A) provides that (a) public companies, (b) companies formerly public that still have at least 100 shareholders owning 100 shares or more, and (c) companies formerly public that have not notified SEC of the fact that there are less than 100 shareholders owning at least 100 shares and/or the 90-day notice period has not lapsed are still required to file the necessary reports under the SRC.

After the Tender Offer and consequent voluntary delisting from the PSE, PLC will no longer be subject to the disclosure and reporting requirements of a listed company under the applicable rules of the PSE.

Having successfully reached the 95% Threshold, PLC, if successfully delisted from the PSE, will become either a privately held company or a public company. PLC will still be considered as a public company if it will still have at least 200 shareholders owning at least 100 shares each after the Tender Offer. Otherwise, PLC will become a privately held company.

In addition, even assuming that PLC is able to reduce the number of its shareholders holding at least 100 shares each below the 200-shareholder threshold, PLC may nevertheless still be required to comply with the reportorial requirements under the SRC if PLC has 100 or more shareholders owning at least 100 shares each, in accordance with Section 17.2(c) of the SRC.

Belle will continue to help develop and expand the gaming related ventures of PLC.

- (c) Other than a change in the present board of directors of PLC for shareholder approval at the scheduled shareholders' meeting on 22 April 2024, there are no plans or proposal to change the number or term of directors, to fill any existing vacancy on the board or to change any material term of the employment contract of any executive officer;

EXECUTIVE SUMMARY

The Transaction and Engagement

The Transaction

Commission ("SEC") on November 26, 1993 as Sinophil Exploration Co., Inc., with oil and gas exploration and development as its primary purpose. On June 3, 1997, the SEC approved its application to change its primary purpose to investment holding and real estate development. On September 5, 2014, the SEC approved the change in PLC's Premium Leisure Corp. ("PLC" or the "Company"), formerly Sinophil Corporation, was originally incorporated and registered with the Philippine Securities and Exchange primary purpose to engage and/or invest in gaming related businesses. PLC is currently listed on the Main Board of The Philippine Stock Exchange, Inc. ("PSE"). On July 19, 2019, the SEC again approved the change in PLC's primary purpose to include that the Company shall not engage in real estate business activities.

On March 11, 2024, PLC was informed of the intention of Belle Corporation ("BEL") to undertake a mandatory tender offer on all outstanding common shares of PLC (the "Offer"), as approved by Belle Corporation on the same date. The final tender offer price is to be determined upon receipt and acceptance by the BEL Board of a fairness opinion report of First Metro Investment Corporation ("First Metro").

The mandatory tender offer will be for the purpose of the voluntary delisting of PLC shares from the PSE (the "Transaction").

In a special meeting on the same date, PLC's Board of Directors approved the voluntary delisting of its shares from the PSE. This delisting is subject to the success of the mandatory tender offer by BEL and PLC's compliance with the PSE's voluntary delisting requirements. Moreover, BEL will serve as the proponent for the voluntary delisting process of PLC.

The Transaction and Engagement

Our Engagement

On March 11, 2024, First Metro Investment Corporation ("First Metro", the "Independent Financial Adviser", or the "IFA") was engaged by BEL to conduct a valuation study and to issue an Independent Fairness Opinion and Valuation Report ("FOVR") for the issued common shares of PLC subject of this report. Prior to this engagement, First Metro has not acted as a financial advisor in relation to this Transaction, to PLC, its Subsidiaries and any affiliates, or any of the parties involved in the Transaction Further, for this engagement, First Metro will receive a fixed financial advisory fee, which is not dependent on the success of the Transaction, but upon delivery of the Fairness Opinion and Valuation Report. Based on the terms of reference of the engagement, First Metro conducted a review of PLC and its Subsidiaries' financial statements and other publicly accessible information that were considered to be relevant for the analysis. For purposes of this valuation exercise, the valuation methodologies were applied to the consolidated financial performance of PLC and its Subsidiaries, as reflected in the historical audited financial statements provided by the Company. Subsequently the following valuation methodologies were applied:

- Net Asset Value Approach, which estimates the net residual value of the Company's common shares by carefully arriving at the value of its assets, the 2023 Audited Financial Statements and public reports published by the Company, and subsequently deducting all its liabilities, goodwill, and non-controlling interest (the "Net Asset Value" or the "NAV"
- Dividend Discount Model, which estimates the value of the Company through the present value of all future dividends that the Company is expected to pay out;
- Comparable Companies Approach, which seeks to benchmark the value of PLC's shares compared to its counterparts, using Price-to-Earnings (P/E) and Enterprise Value (EV)/Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA);
- Comparable Transaction Approach, estimate the value of a business by looking at past acquisitions of similar companies, using EV/EBITDA; and
- Volume-Weighted Average Price, which examines the value of the Company's shares based on historical trading volume and price within a specific time period.

INDUSTRY OVERVIEW

Macroeconomic and Industry Overview

Annual GDP

Inflation and BSP Rates

Source: Philippine Statistic Authority

The Philippine Economy

٩

Despite missing its 6% to 7% target partly due to weaker global growth prospects and the impact of elevated rates, the Philippines is among the countries with the strongest economic recovery in the region as it recorded a 5.6% GDP growth in 2023 compared to Malaysia (3.8%), Vietnam (5.0%), Thailand (1.9%), and Indonesia (5.0%). The growth was fueled by a strong domestic demand.

Unemployment

In line with the economic growth, the unemployment rate has decreased in December 2023 to 3.1% or 1.6M unemployed persons, which is lower than the 1.83M recorded in November 2023 and the 2.22M in December 2022. The service sector holds the majority at 57.3% of the 50.2M employed persons; among the subsectors, construction added the most number of employed persons during the year with $\sim 77.7\%$

Inflation and BSP Rates

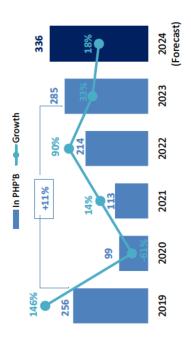

Inflation started to pick up in 2022. It was at 3.0% in January and it ended at 8.1% in December 2022 due to spikes in global oil prices, supply-side bottlenecks, and depreciation of the Philippine peso . The peak inflation figure in 2022 was surpassed in 2023 as rates reached 8.7% and 8.6% in January and February, respectively. In response to the high inflationary environment, the BSP has implemented a series of rate increases bringing the 2.0% interest rate on the BSP's overnight reverse repurchase facility (RRP) in January 2022 to a staggering 6.5% in October. RRP remains at 6.5% despite hitting a 22-month low in December 2023.

Economic Outlook

The government expects the country's GDP to grow by 6.5% to 7.5% in 2024 supported by international tourism, the Build Better More program, and the mass housing projects under the 4PH program. BSP says that inflation is "tilted toward the upside" due to the following risks: higher transport charges, increased electricity rates, higher oil prices, and the impact of El Niño on food prices.

Gaming Industry in the Philippines

After the Philippines' gross gaming revenues (GGR) slumped in 2020 and 2021 due to the movement restrictions related to COVID-19, the country in 2023 recorded a high of PHP 285.278 surpassing even pre-pandemic records (up by 11% vs 2019).

The current revenue mix in the first nine months of 2023 (9M23) is consistent with the historical GGR breakdown, as reported by the Philippine Amusement and Gaming Corporation (PAGCOR); licensed casinos still make up the most contributing 77%. In 2022, the electronic games sector saw the largest increase in GGR from PHP 8.18 in 2021 to 14.88 in 2022 (i.e., an increase by 170%). PAGCOR expects electronic games to be the sector with the most growth in the coming years. Other licenses pertain to bingo operations, and electronic sabong (in 2021 and 2022 only).

PAGCOR chief, Alejandro Tengco, believed that the 2024 projection of PHP336.4Bn is even more achievable given the numbers in 2023 and considering the expected opening of integrated resorts in 2024. The Solaire Resort North in Quezon City with 526 rooms and Resorts World West Side in Manila with 461 rooms are expected to open in 2024. PAGCOR forecasts that up to PHP256.6Bn will come from its licensed casinos in the Entertainment City, Metro Manila, Clark, Cebu and the Fiesta Casinos in the current year.

The strong performance is supported by local players and with the easing foreign travel guidelines, PAGCOR sees the foreign market to increase its contribution. PAGCOR projects that the GGR will reach PHP450.0Bn to PHP500.0Bn in the next five years.

VALUATION MEMORANDUM

Asset Approach – Net Asset Value

The Independent Financial Advisor used the number of issued and outstanding shares of PLC to compute for the equivalent price per share resulting from the various valuation methodologies. As of Dec 31, 2023, the total issued and outstanding common shares for PLC is 31,216,931,000 shares with a par value of PHP0.25 per share.

NET ASSET VALUE METHODOLOGY

The Net Asset Valuation (NAV) methodology is a formal approach used to estimate the fair market value of a business by focusing on the company's underlying net asset value. It determines the theoretical equity value of the company as if it were liquidated and all its assets, were converted to cash to settle its liabilities.

The NAV represents the company's equity book value adjusted to reflect the fair market value of its tangible assets, less all outstanding liabilities, Goodwill, Non-controlling Interest, and Intangible Assets. The formula for computing the NAV of PLC is as follows:

NAV = Fair Market Value of Tangible Assets – Total Liabilities – Goodwill – Noncontrolling Interests – Intangible Asset This calculation considers both the tangible and intangible assets of the company. Tangible assets are physical assets that can be easily identified and valued, such as property, plant, and equipment (PPE), inventory, and cash. Intangible assets, on the other hand, are non-physical assets that can be more difficult to value objectively. Examples of intangible assets include brand recognition, intellectual property (patents, trademarks, copyrights), customer loyalty, and goodwill.

| Values in PHP Mns | 2023A |

| Total Assets | 18,320.8 |
| Total Liabilities | 1,272.5 |
| Adjustments: | |

| Net Asset Value | 7,424.2 |
| Shares outstanding | 31,216.9 |
| Price per share | 0.24 |
| | |

RESULTS OF VALUATION METHODOLOGY

Using the Net Asset Value approach and after excluding the Company's Goodwill, Non-controlling interests, and intangible asset, PLC's NAV was calculated to be

PHP7,424.2Mn, or PHP0.24 price per share.

However, First Metro is of the opinion that the NAV approach is considered not to be reasonable representation for determining PLC's equity value due to the limited publicly available market data to directly value the Company's significant intangible assets

Income Approach – Dividend Discount Model

DIVIDEND DISCOUNT MODEL

The dividend discount model (DDM) is a valuation method used specifically for stocks. It estimates a stock's intrinsic value by considering the present value of all its expected future cash flows in the form of dividends. The **Gordon Growth Model** assumes a constant growth rate for dividends that is perpetual and there are two (2) basic components of the DDM methods: (a) the Cost of Equity, and (b) the projected dividends of the Company. This simplifies the DDM formula by assuming the dividend will continue to grow at a fixed rate indefinitely. The Discussion on the Company's historical dividends and dividend policy is found on *Page 17* of this report.

Market Approach – Comparable Companies Approach (1/2)

COMPARABLE COMPANIES APPROACH

The Comparable Companies approach is a valuation method framework that determines to estimate the value of a company by benchmarking its own financial performance to similar publicly traded companies operating within the same industry. The method provides a useful framework by leveraging publicly available trading multiples, such as Enterprise Value to EBITDA (EV/EBITDA) and Price-to-Earnings (P/E), and applies these multiples to the company's own financial metrics to determine a relative fair value range.

By following these standards, the IFA was able to present comparable First Metro carefully considered its selected peers, giving significant importance to factors such as industry classification, geographic reach, market capitalization. Additionally, company size was a key criterion, focusing on companies with similar operational scale as measured by revenue, profitability, and asset base. The screening process incorporated companies that strengthens the foundation for the valuation analysis. Further information relating to the comparable companies utilized in this valuation are available in Annex D of this report.

Market Approach – Comparable Companies Approach (2/2)

The Independent Financial Advisor used the number of issued and outstanding shares of PLC to compute for the equivalent price per share resulting from Comparable Companies Approach. As of Dec 31, 2023, the total issued and outstanding common shares for PLC is 31,216,931,000 shares with a par value of PHP0.25 per share.

ENTERPRISE VALUE-TO-EBITDA

The Enterprise Value to EBITDA Multiple (EV/EBITDA) is a financial ratio used to compare the valuation of a company to its operating profitability. It considers a company's entire value, including debt, cash, preferred shares, and minority interest, rather than just its equity market capitalization. The EV/EBITDA multiple indicates how much an investor is willing to pay for every peso of a company's annual EBITDA. This approach is used to compare the EV/EBITDA ratios of a company to those of its peers in the same industry, removing the effects of varying capital structure.

| EV/EBITDA | 2023A |
|--------------------------------|----------|
| Peer Group - Average | 10.5x |
| EBITDA FY 2023 | 2,248.7 |
| Enterprise Value | 23,598.7 |
| Add: Cash as of FY2023 | 2,000.2 |

| Less: Minority Interest FY2023 | 460.8 |
| Equity Value | 24,667.5 |
| Price per share | 0.79 |

PRICE-TO-EARNINGS MULTIPLE

The **Price-to-Earnings (P/E)** multiple, also known as the price-to-earnings ratio is a financial metric used to evaluate a company's current share price relative to its earnings per share (EPS). The P/E ratio indicates how much investors are willing to pay for each peso of earnings generated by the company. This approach is use to compare the P/E ratio of a company to those of its peers in the same industry or sector to gain insights into its valuation relative to similar companies.

| P/E | 2023A |

| Peer Group – Average | 12.8x |
| Normalized Net Income FY2023 | 2,070.4 |
| Equity Value | 26,410.7 |
| Price per share | 0.85 |
| | |

The Financial Advisor normalized the Company's 2023A net income by deducting non-recurring income amounting to PHP253.6Mn, primarily due to the realized gain on the redemption and sale of the Company's financial assets.

Using the P/E comparable company methodology, PLC's indicative equity value was estimated at PHP26,410.7Mn or corresponding to a price per share of PHP0.85.

Market Approach – Comparable Transactions (1/2)

COMPARABLE TRANSACTIONS APPROACH

The Comparable Transactions approach is a business valuation technique that estimates a enterprise value by considering the prices paid in recent acquisitions of similar companies within the same industry. This valuation methodology is grounded in the fundamental principle that a company's fair market value is ultimately determined by what buyers have historically paid to a willing seller in an arm's length transaction. This method is suitable when there is a lack of readily available market data for the specific company being valued, or when the company operates in a niche industry with limited publicly traded peers. The Independent Financial Advisor carefully considered comparable transactions, giving significant importance to factors such as industry classification and geographic location of said transactions. The screening process incorporated an examination of key financial indicators which show similar profitability, growth, and financial structures. By following these standards, First Metro was able to present comparable transactions that further strengthens the foundation for the valuation exercise. Further information relating to the comparable companies utilized in this valuation are available in Annex E of this report. Due to the lack of comparable transactions, the IFA included both minority and majority transactions in its scope for this particular valuation methodology.

ENTERPRISE VALUE-TO-EBITDA

The Enterprise Value to EBITDA Multiple (EV/EBITDA) is a financial ratio used to compare the valuation of a company to its operating profitability. In the context of Mergers and Acquisitions (M&A) transactions, the EV/EBITDA multiple is particularly relevant since it considers a company's entire value, including debt, cash, preferred shares, and minority interest, rather than just its equity value to its common shareholders. The EV/EBITDA multiple indicates how much an investor is willing to pay for every peso of a company's annual EBITDA. This approach is used to compare the EV/EBITDA deal multiples of M&A transactions in the same industry, removing the effects of varying capital structures, and comparing it to the Company's own reported EBITDA.
